

Student Placement

The Career Center is available to all our students, including alumni. The service helps the students discover their interests, select a major, and find an internship or employment. CBU provides professional career advice and practical programming to assist our students in their personal and career development. Below is the list of services available to the students:

- Find a Job or Internship: Career Center resources to obtain internships and jobs
- Appointments: Appointments with a career counselor in attaining a job
- Explore Majors and Careers: Tools to determine academic and career direction
- Prepare for a Career Fair: Available resources for upcoming opportunities
- Four-Year Roadmap: Proactive service for each year at CBU
- Alumni: Services for CBU alumni

The College of Engineering hosts the annual College of Engineering Career Fair in Fall semester. Many construction companies/employers or CBU industry partners participate in the career fair, and CM students find jobs for summer internship and/or full-time positions.

Placement of Recent Graduates (100% Placement Rate)

Ten (out of eleven) CM graduates in the 2024-25 academic year were placed by the time they graduated from the CM Program and are currently working in various construction sectors.

The figure 3 below shows the CM graduates' initial salary amount.
