

## Join the Cybersecurity Club & Compete in the National Collegiate Cyber Defense Competition!

Are you passionate about cybersecurity? Looking to gain hands-on experience in defending networks and mitigating cyber threats? Join our university's Cybersecurity Club and be part of an elite team preparing for the **National Collegiate Cyber Defense Competition (CCDC)**!

### Why Join?

- **Compete in National-Level Cybersecurity Challenges** – Protect an imaginary company's network while facing real-world cyber threats.
- **Gain Practical Experience** – Develop technical and teamwork skills that will set you apart in the cybersecurity field.
- **Train with Peers & Experts** – Participate in practice competitions and strategy sessions throughout the year.
- **Open to Undergraduate & Graduate Students** – Help our team reach full strength by filling key roles!

### Upcoming Events & Training

- **Regular Training Meetings:** The team meets **two to three times per month** to prepare for the next competition cycle.
- **Practice Competitions in the Fall:** Get hands-on experience in simulated cyber defense scenarios before the main event in February.
- **SoCal Regional Competition – February 2026** – A full-day competition where teams defend against live cyber-attacks.

### Who Can Join?

- **Undergraduate & Graduate Students** in cybersecurity, IT, and related fields.
- **Remote Participation for Training Sessions** is possible, but in-person attendance may be required for the competition.
- **Students Interested in Cyber Defense, Ethical Hacking, and Team-Based Problem Solving.**

### How to Get Involved?

Email Dr. Brian Bovee [bbovee@calcaptist.edu](mailto:bbovee@calcaptist.edu) to learn more and connect with our team leaders. Let's build a winning team and take our cybersecurity skills to the next level!
