"Go therefore and make disciples of all the nations, baptizing them in the name of the Father and the Son and the Holy Spirit, teaching them to observe all that I commanded you; and lo, I am with you always, even to the end of the age." (Matthew 28:19-20, NASB)

Dear Friend:

Welcome to California Baptist University! I look forward to greeting you personally when the opportunity permits, but for now allow me to congratulate you for deciding to pursue your educational goals at CBU and to thank you for trusting us to help you reach those goals.

Since 1950, students have chosen California Baptist University for the caring personal attention they receive and for high quality academic programs taught by faculty members who recognize the importance of spiritual development as well as intellectual growth.

As CBU begins its seventh decade, it remains faithful to the Christian values and principles found in the Great Commission, Christ’s challenge to his followers found in Matthew 28:19-20:

Go ye therefore and teach all nations, baptizing them in the name of the Father, and of the Son, and of the Holy Ghost, teaching them to observe all things whatsoever I have commanded you; and lo, I am with you always, even unto the end of the world.

At CBU, we work hard to fulfill this commandment by integrating faith and learning and by offering a wide range of opportunities for service. Throughout Southern California and around the world, we are gaining a reputation to match our vision of “a University Committed to the Great Commission.”

For many students, the decision to share the CBU experience marks the first step in a long-term relationship. We trust it will be a positive and rewarding experience for you. This is an exciting time to be part of the CBU community and we are genuinely pleased that you are here.

Once again, welcome to California Baptist University and may the Lord continue to bless!

Your brother in Christ,

Ronald L. Ellis, Ph.D.

President
The University

History
On September 18, 1950, the Los Angeles Baptist Association opened the doors of California Baptist College in El Monte to students who came seeking a liberal arts education in a Christian environment. The college began operations with 42 students in Fall 1950; 120 were enrolled during the 1950-51 academic year.

In 1955, after four years of continued growth, the college relocated to larger facilities in Riverside. Today, the Spanish-style buildings, which include classrooms, campus housing, a library, offices, maintenance and athletic facilities are located on the nearly one hundred and five acre campus. Growth in all areas paved the way for the institution to become a university on September 25, 1998. California Baptist University continues the tradition of liberal arts education in a Christian environment.

Location and Environment
Located in the Los Angeles Basin, sixty miles east of downtown L.A., Riverside is easily accessible by all modes of transportation. Freeways lead into Riverside from every direction and the city is served by international airports in nearby Ontario and Los Angeles. California Baptist University is surrounded by cultural and scientific opportunities for students of all interests, and the proximity of other colleges and universities makes possible inter-library and inter-cultural exchanges.

Mission Statement
The primary purpose of this corporation is to conduct regular four-year college courses in education, music, sciences and the liberal arts, and to grant certificates, diplomas and any and all degrees evidencing completion of any course of training, together with any and all honorary degrees and to provide training for Baptist youth and others desiring to be affiliated with Baptist theology and theological instruction and such other instruction as may be needful and advantageous in preparing and qualifying ministers and others for Christian work.

Philosophy Statement
California Baptist University is a Christian liberal arts institution founded by Southern Baptists to serve the world. As such, the university community provides an accepting, caring Christian atmosphere in which the growth of individuals is enhanced by spiritual formation, personal development, vocational preparation, and a sound, academic, liberating education. In the midst of the pursuit of truth, individuals are encouraged to investigate, practice, and refine their aesthetic, moral, social, and spiritual values in order to prepare themselves to make substantial contributions to the cause of Christ as skilled professionals, thinking citizens, and educated persons.

Educational Standings
California Baptist University is incorporated under the laws of the State of California as a university of arts and sciences authorized to grant the degrees of Bachelor of Arts, Bachelor of Science, Bachelor of Science in Civil Engineering, Bachelor of Science in Electrical and Computer Engineering, Bachelor of Science in Engineering, Bachelor of Science in Mechanical Engineering, Bachelor of Science in Nursing, Bachelor of Applied Theology, Bachelor of Music, Master of Arts, Master of Science, Master of Business Administration, Master of Music, Master of Science in Nursing and Master of Public Administration.

California Baptist University is accredited by the Accrediting Commission for Senior Colleges and Universities of the Western Association of Schools and Colleges (WASC) and abides by WASC Policy on Substantive Change and the Policy on Distance and Technology-Mediated Instruction. The School of Business at California Baptist University is nationally accredited by the Association of Collegiate Business Schools and Programs. Additionally, the School of Music at California Baptist University is accredited by the National Association of Schools of Music.

California Baptist University is approved for teacher education by the State of California Commission on Teacher Credentialing. The University also holds memberships in the Association of Independent California Colleges and Universities, the Association of Southern Baptist Colleges and Schools, the Council for Christian Colleges & Universities, and the Service Members Opportunity Colleges.

Graduates of California Baptist University are earning advanced degrees in leading colleges, universities, and seminaries of the United States. All women graduates are eligible for membership in the American Association of University Women. Accreditation letters may be viewed in the Office of the Provost.

Philosophy of Student Development

As a Christian university, California Baptist University has dual responsibilities to its constituency. As an academic institution, it seeks to promote high scholastic standards, stimulate mental alertness, impart a general knowledge of the natural world and of the history and institutions of human society, and to assist students in choosing and learning an area of specialization for their life’s work.

As a Christian institution, the University seeks to promote and follow the spiritual principles set forth by Jesus Christ. In acknowledging these principles, the University places special emphasis on leading its students in an active pursuit of the spiritual values of life and on developing leaders for the Southern Baptist churches of California and for Christian services around the world.

Students at CBU are individuals involved in academic pursuits and at the same time are members of a Christian community nurturing one another in spiritual growth. The University expects students to take seriously this two-fold responsibility.

The Student Services Division is committed to the intellectual, spiritual, social, aesthetic, and physical development of California Baptist University students so that they are assisted in becoming autonomous, competent, responsible, and interdependent individuals who use their intellects and skills with wisdom and integrity.

Freedom and Responsibility

California Baptist University students are entitled to the same freedom as any other citizens of our country. It is the policy of the University to ensure these rights, consistent with the provisions of law, acceptable tastes, and the purposes and goals of the institution. When matriculation in the University requires that conditions be placed upon student freedoms, these conditions and their rationale are clearly delineated.

At California Baptist University, the concepts of freedom and personal responsibility are inextricably bound together. The University community, like any other, functions upon the principle that all members will respect, and indeed will protect, the rights of their fellow citizens. Students are encouraged to develop these values which represent mature, self-disciplined persons who appreciate the privilege of education and are willing to accept its responsibilities.

When persons choose a university, they commit themselves to its philosophy of education and its policies and regulations. Even though students may not agree with a few rules established by the University, it is expected that they will comply with them in a manner conducive to the highest moral standards and in keeping with the discipline of the academic community.

Responsibility for student conduct lies with the Vice President for Enrollment and Student Services, Dean of Students and the Student Services staff. This group defines behavioral expectations and takes appropriate action in support of the rules of the University.

Standard of Student Conduct

In order to achieve its mission, California Baptist University expects members of the campus community to accept responsibility for their personal conduct and to encourage others within the community to do the same.

All undergraduate students, graduate students, and Online and Professional Studies students enrolled at California Baptist University are expected to conduct themselves in accordance with the Standard of Student Conduct, regardless of age, classification, or the number of hours being taken. The Standard of Student Conduct is established for the purpose of outlining expected behavior of students in the campus community. The Standard of Student Conduct shall be defined as any and all policy, procedure, and/or behavioral expectation contained within this publication and the University Catalog.

If the conduct of any member of the campus community is found to be detrimental to the academic, social, and spiritual development of others within the community, the University (through its various offices and personnel) provides guidance, direction, and if necessary, judicial action.

This Standard of Student Conduct shall apply to any and all lands owned or leased by the University, as well as, to any location where a student is engaged in a University activity. Examples of such coverage include, but are not limited to, athletic teams and performing arts groups traveling to and participating in events off campus, student teaching and observation/participation, student government, recognized organizations and clubs engaging in a club event or activity, off-campus internships, community service, study abroad, International Service Projects, and United States Service Projects.

Students should understand the commitment to the spirit of the University and realize that their enrollment is viewed as a willingness to abide by and accept the responsibilities of the environment.
Philosophy of Discipline
The purpose of discipline at California Baptist University is to assist in maintaining individual and community growth. Personal growth and maturity are encouraged most when each member of the University community uses self-discipline and shares the responsibility to care enough about others to confront them when appropriate. The responsibility to confront one another in a loving manner, if functioning properly, should enable inappropriate behavior to be corrected on a personal level.

Unfortunately, situations may arise which warrant a formalized judicial process. The judicial procedures of the University are designed to provide a just and equitable process of educational discipline. While every effort is made to protect the rights of students, the University does not attempt to duplicate or to emulate court proceedings and should not be viewed as a court. Student judicial procedures, student rights, and the appeal process are outlined in detail in the Student Handbook.

Enrollment and Student Services Division
The Enrollment and Student Services Division encompasses the offices of Admissions, Campus Life, Career Services, Community Life, Dining Services, Academic Advising, Intercollegiate Athletics, International Student Services, Public Safety, Recreational Sports, Residence Life, Spiritual Life, Student Government, and the Wellness Center. In addition to providing general supervision of the offices that comprise the Student Services Division, the Student Services Office provides services that include, but are not limited to, the following:

- Administering student health insurance provided by the University and accepting proof of insurance (as required by University policy)
- Referring students to campus resources
- Facilitating the judicial action and non-judicial action appeals processes
- Investigating student allegations and complaints
- Reviewing and approving on-campus postings (flyers, posters, etc.)
- Serving as the primary point of notification when students are involved in situations that require an extended absence from campus
- Coordinating commencement-related auditions and events

Campus Housing
Students interested in campus housing should consult the Office of Residence Life.

Career Services & Student Employment
Career Services strives to strategically equip students to discover and articulate their God-given gifts and inherent skills in order to competently pursue a vocational calling and become effective servant-leaders for Christ upon graduation, both locally and globally.

In addition to coordinating on-campus jobs for both work-study and non-work study positions, the Center assists students with securing off-campus employment. At no expense to students, the following resources are provided

- Online career assessment tools
- Local and national job and ministry employment resources and postings
- Internships (workshops, consultation and resources to attain internships available for credit and/or not for credit)
- Individual employment and career consultation
- Interactive computer software on topics of career exploration, self-assessment, interview techniques, and résumé writing
- Seasonal employment and ministry opportunities, locally, nationally, and abroad
- Access to salary and job trend projections, both locally and nationally
- Online resources of current employment opportunities in business, government, industry, and other agencies
- Brochures and periodicals for various professions
- Graduate and professional school catalogs

To further equip students and encourage professional development, the Center offers Etiquette Dinners (nominal fee) and career-related seminars for all academic disciplines.

Academic-specific job and internship information sessions and Afternoons with Industry events are held both in the fall and spring semesters, as well as, workshops on internships, résumé writing, job search, networking and interviewing skills. Personal assistance in résumé and interview preparation is available by appointment.

Academic Advising
Academic Advising provides schedule advising and registration for all students. Academic Advising staff works in cooperation with faculty advisors assigned to students by major or program. Academic Advising staff meets with each student to develop appropriate academic schedules and review the student’s academic course plan. Students are encouraged to make appointments to discuss degree requirements, academic scheduling, 90-unit evaluation, and pre-graduation checks. All academic forms, pre-registration, and registration are processed through the Enrollment Services Office.
International Center
The International Center consists of the Office of International Student Services (ISS) and the Intensive English Program (IEP). International Student Services assists international students in transitioning into the CBU community, exploring American culture, and understanding U.S. immigration regulations. ISS ensures that students understand institutional expectations, provides support services, processes immigration documents, plans and implements activities that promote campus awareness and appreciation for cultural understanding and experience, and assists students to become integrated into the CBU community.

The Intensive English Program is a full-time pre-academic and bridge program which fosters cross-cultural exchange by providing English as a Second Language (ESL) instruction to non-English speaking students in preparation for study at CBU. In particular, ESL takes place in a classroom setting collaborating with ISS on co-curricular activities outside of the classroom.

Public Safety
California Baptist University maintains a Department of Public Safety to enhance the safety and security of the campus community. In addition to staffing the Welcome Pavilion and patrolling school properties, the Department provides 24-hour assistance with emergencies, crime and injury reporting, safety escorts, and education of the campus community on safety and security practices.

In the event of a medical or police emergency situation, call 911 and then call the Public Safety Department at 951.343.4311. Other situations should be reported to the Public Safety Department immediately.

Community & Emergency Notification.
The University has developed a multimedia system to immediately notify students, faculty, staff, and visitors of any emergency circumstance or serious situation that poses a credible threat to the safety and security of the campus community. Components of this system include:

1. A siren/verbal warning system capable of projecting audible messages across open areas of the campus. Pre-recorded messages are activated at the press of a button or more specific verbal messages with instructions may be delivered over the speaker system.
2. Rave – a system capable of transmitting and delivering messages to all subscribed email and cellular telephone addresses on file with the University. All University-issued email addresses are pre-entered into this system and those users have the option to include their personal cellular phone and/or any other device capable of receiving text-based messages. Enrollment in this service is also available to the parents and guardians of students enrolled at CBU.
3. LancerNet – information may be disseminated to all computers connected to LancerNet through a process initiated by Information Technology Services.

Any or all parts of this system may be activated in response to any specific incident.

For instances when there is no immediate threat to the safety of the campus community but it is desirable to provide information for educational or crime prevention purposes, email distribution is used to disseminate relevant facts and measures to be implemented or considered.

Students who operate a vehicle on campus must register with the Department of Public Safety. Current parking permits are issued for the school year at the time of registration. Drives are expected to comply with the University traffic and safety regulations; non-compliance may result in the issuance of a citation and/or the suspension of parking and/or driving privileges on campus. Copies of the California Baptist University Vehicle Code are available on the Public Safety page of the CBU website and in the Public Safety Office.

Spiritual Life
The purpose of the Office of Spiritual Life is to invest in lives to develop followers of Jesus. Every student, regardless of his or her level of commitment to Christ, is encouraged to participate in the various opportunities to foster spiritual growth in preparation for kingdom service.

California Baptist University is committed to core values of the Christian faith and fulfillment of the Great Commission. Since its inception, the University has sought to evidence the Christian life on campus. In this sense, the Christian ethics of love, joy, peace, patience, kindness, goodness, faithfulness, gentleness, and self-control are to be exhibited. No doctrinal statement has ever been prescribed for students who enter California Baptist University. Because the University is committed to core values and Christian growth, it offers students many opportunities to explore and express the Christian faith in ways unique to personal needs and interests.

In keeping with this commitment, the University provides courses in Christian studies and encounters with teachers committed to spiritual values. Times of spiritual emphasis are planned for each semester. Students are also encouraged to participate in Bible studies, evangelism, ministry teams, community service, and missions.

Compassion Ministries
By putting faith into action, students learn the significance of demonstrating the love of Christ. Participating in urban projects for a day or a weekend, working with the homeless, providing support to foster families, or building relationships with high-risk teens give students the opportunity to make a difference in the lives of others in the name of Jesus.
Campus Ministries
Campus Ministries creates opportunities for students of California Baptist University to grow in their relationship with Christ by offering access to Bible studies, prayer groups, one-on-one discipleship, local mission projects, and other events, conferences and programs that encourage spiritual growth.

Office of Mobilization
The purpose of the Office of Mobilization is to provide members of the campus community with opportunities to participate in the “Great Commission” (Matthew 28:19-20) in order to gain global vision for the cause of the gospel as well as cross-cultural experience through service learning. Participation is open to California Baptist University students who meet membership requirements, successfully complete the application and interview process, fulfill fundraising obligations, and are in good academic and behavioral standing with the University. The service learning application and selection process is coordinated by the Office of Mobilization and takes place during the fall semester.

• International Service Projects (ISP). In cooperation with the International Mission Board of the Southern Baptist Convention and various missions organizations, teams of California Baptist University students serve internationally for approximately three weeks during the summer months. Each team is led by a University official or other approved member of the University community. The ministry focus may vary depending upon the outreach strategy of the selected area. International Service Project teams have served in more than 40 countries since 1997.

• United States Projects (USP). In cooperation with the North American Mission Board of the Southern Baptist Convention and various missions organizations, teams of California Baptist University students, staff, and faculty serve for approximately 10 days during the spring and summer. Each team is led by a University official or other approved member of the University community. The ministry focus may vary depending upon the outreach strategy of the selected area. United States Project teams have served in seven states since being established in 2006.

• Summer of Service (SOS). In cooperation with the International Mission Board of the Southern Baptist Convention, teams of California Baptist University students serve internationally for approximately eight weeks during the summer months. Ministry focus varies depending on the outreach strategy of the selected area(s).

Wellness Center
The California Baptist University Wellness Center is a student-focused department that houses the CBU Health Center and the CBU Counseling Center. The goal of the Wellness Center staff is to provide effective health, wellness, and counseling services that promote academic and personal success.

Student Health Center
The Health Center is available to all members of the campus community. To help maintain a healthy campus environment, students are encouraged to visit the student health center at the onset of illness symptoms and other health-related concerns. Health Center staff can address most conditions that are treated in an urgent care facility. In order to promote campus-wide wellness, members of the campus community are encouraged to visit the Health Center at the onset of illness and other health-related concerns.

The Health Center is operated in cooperation with Riverside Medical Clinic, who provides staffing and insurance billing services. In addition to accepting student health insurance (UnitedHealthcare Student Resources) provided through California Baptist University, most PPO insurances and HMO insurances (that name Riverside Medical Clinic as their primary medical group) are accepted at the Health Center. Kaiser Permanente Health Plans are not accepted at the Student Health Center. The Health Center has reasonable walk-in rates for all CBU community members beginning at $23. For students, faculty, and staff needing ongoing care and prescriptions for pre-existing conditions, it is recommended they visit their primary care physician.

The Health Center, located in Lancer Plaza is typically open while classes are in session, Monday – Friday from 8:30 am – 5 pm. Call 951.321.6520 to schedule an appointment. Walk-ins are welcome.
Enrollment and Student Services

Counseling Center
The Counseling Center offers a full range of counseling assistance as students strive to become more effective, productive, and comfortable with university life. Counseling can provide assistance during times of transition as students are confronted with questions about self, religious beliefs, relationships, and future plans. Students may discuss problems or feelings, examine concerns, discuss alternatives, and make informed decisions about future courses of action.

The Counseling Center is staffed by a director and supervised Marriage Family Therapist trainees and interns. Services offered include individual, group, and marriage and family counseling. As a professional counseling service, the Counseling Center staff is required to keep all counseling-related information confidential except in the following situations:

1. The client gives written permission to share his/her counseling-related information with a third party
2. The counselor believes the student may harm him/herself or another person
3. A counselor suspects abuse of a child, elder, or other dependent adult.

Individual intelligence and personality inventories as well as personnel trained to administer such tools are available through the Counseling Center on a limited basis. Test results are confidential and released only to authorized personnel according to a written release signed by the client.

The CBU Counseling Center, located in Lancer Plaza, is available at no charge for the first 24 sessions to students, faculty, staff, and immediate family members (dependents, parent, sibling, or spouse); exceptions may be made at the discretion of the director of the Counseling Center.

The goal of California Baptist University Graduate Programs is to provide avenues for students to better themselves personally and professionally through practical, ethical, and Christian education. Most programs are structured to accommodate busy schedules, as we acknowledge that most of our students are attempting to balance a graduate education with work, home and family. The Graduate Admissions Office at CBU is available to assist both prospective and current graduate and credential students.

When to Apply
Please see program-specific requirements for deadlines or priority deadlines. Certain programs will consider and process applications received after the priority deadline if space is available.

Admission and Application
Each program of study has specific admission and application requirements which are listed in the program sections of the catalog. Application requirements common to all graduate programs are as follows:

1. Application  
   • Applicants to graduate study at CBU must apply for acceptance into a specific graduate program. Applications can be submitted online at www.calbaptist.edu/gradapp or paper applications can be obtained by contacting the Graduate Admissions Office.

2. Application Fee  
   • A non-refundable application processing fee is required.

3. Completion of a Bachelor's Degree  
   • A bachelor's degree from a regionally accredited institution or the evaluated equivalency of a bachelor's degree from a regionally accredited institution is required.

4. Official Transcripts  
   • Official sealed transcripts from all colleges and universities attended must be submitted to the Graduate Admissions Office. An official transcript is one the University receives directly from that institution and bears an official seal. A summary of credit transferred from an institution previously attended and recorded on another transcript is not acceptable.

5. GPA Requirement  
   • Applicants must meet a minimum cumulative or last 60 semester (or 90 quarter) unit grade point average specified by each program.

6. Recommendations  
   • Recommendations are required and forms are provided. Recommendations may not come from family members or friends. Please see specific program requirements for additional recommendation criteria.

7. Essay  
   • All programs require an application essay. Please see specific program admission requirements for essay information.

8. English Language Proficiency  
   • An applicant whose first language is not English and/or does not have a degree from an institution where English is the primary language of instruction is required to demonstrate English language proficiency by submitting a recent test score from Test of English as a Foreign Language (TOEFL). The minimum score required to display English language proficiency for admission to a graduate programs is 89 IBT. If the score is lower than 89, applicant may be admitted to the Intensive English Program (IEP) and a graduate program while taking required language courses to meet the minimum TOEFL requirement.
Student Status
Applicants to the program will be considered according to the following classifications:

Unconditional
Applicants who have met the unconditional status GPA requirement specified by each program, who have completed the required prerequisites provided Graduate Admissions with all required application, documents and fees, and have satisfied all other admission criteria, may be unconditionally admitted to the University with full graduate standing.

Conditional
Applicants who show a deficiency in any requirements may be admitted on a conditional basis.

Special
As an alternative to regular admission an applicant may be considered for admission (with permission from the program director) under Special Student Status. Special Students may enroll in no more than a total of six graduate units. To continue beyond six units students must complete program application requirements and be accepted to a specific graduate program. Enrollment as a Special Student does not guarantee or imply later admission to the graduate program, but credit for the courses may be counted toward graduation requirements following admission to the graduate program. Certain courses may have restrictions and/or prerequisite requirements. Note: Special Students are not eligible for Financial Aid.

Denial
Denial may occur when an applicant does not qualify for admission in any one of the above categories. CBU reserves the right to deny admission to any applicant who is antagonistic with the philosophy and purpose of the University.

Appeals
Appeals on any decision regarding admission should be made in writing and addressed to the Admission and Retention Committee in care of the University.

CBU Applicants
A current undergraduate CBU student who has been accepted to a graduate program may be allowed to enroll in a graduate program pending the posting of their bachelor’s degree. The degree must be posted by the last day to drop for the semester or the graduate enrollment will be voided. The student is responsible for determining how this will affect their academic record, tuition, and eligibility for financial aid.

Readmit
Students who have attended CBU but have discontinued enrollment for one semester must be approved to readmit to the University. Students must submit a Request to Readmit, readmit fee and official transcripts from all other institutions attended since last enrolled at CBU. Students approved to readmit will enter under the catalog current at the time of readmission and will be subject to the degree requirements outlined in that catalog. The University is not responsible for providing courses or programs that have been discontinued. For more information please contact the Graduate Admissions Office.

Reapply
Students who have discontinued enrollment for six or more semesters (three or more semesters for the School of Behavioral Science) must reapply for admission. Students whose applications are approved will enter under the catalog current at the time of readmission and will be subject to the admissions and degree requirements outlined in that catalog. The University is not responsible for providing courses or programs that have been discontinued. For more information contact the Graduate Admissions Office.

Change of Degree Program
Admission to graduate studies at California Baptist University is degree specific. Students wishing to change degree programs must apply for the desired program. No credit toward the new degree will be granted until admission to the new program has been approved.

Enrollment in Coursework Outside Approved Program
With permission from the Program Director, students may be permitted to enroll in up to six (6) units of coursework outside of their program. To continue beyond six units the student must complete program admission requirements and be accepted to the graduate program. Enrollment in the six units does not guarantee or imply later admission, but credit for the course may be counted toward graduation requirements following admission to the graduate program.

Note: Students taking coursework outside their approved program are not eligible for Financial Aid.
International Student Admission
California Baptist University welcomes applications from all international students.

When to Apply
Application and the completion of the file for a particular term must be made according to the following deadlines. The closing dates for receiving international student applications and all supporting documentation are earlier than for standard applications due to the additional time needed to process documents through SEVIS.

Once all admission requirements have been met and the applicant is approved for admission, a letter of acceptance and the Form I-20 will be issued. All International student athletes are subject to additional criteria as outlined in the CBU's International Student Athlete I-20 Policy.

Application Procedure
To be considered for admission international students must complete all requirements listed in the program section of the catalog. Additionally, they must complete the following:

1. Submission of Academic Records:
   - Official academic records, showing dates of attendance, courses taken and grades received are required. An official academic record (i.e. degree, diploma, mark sheets, exam records, record of courses, transcripts) is one the university, or its representatives, receives directly from that institution. A certified English Translation must also be provided.

2. Financial Documentation:
   - The Sponsor’s Commitment of Financial Support form, provided by California Baptist University, accompanied by a certified bank statement or affidavit of support indicating sufficient funds for study. Financial support must guarantee and certify funds equal to a minimum of one year of the student's academic study at CBU. Note: International students must pay semester charges in full before registration can be completed.

3. Language Proficiency:
   - An applicant whose first language is not English and/or does not have a degree from an institution where English is the primary language of instruction is required to demonstrate English language proficiency by submitting a recent test score from Test of English as a Foreign Language (TOEFL) or International English Language Testing System (IELTS). The minimum score required to display English language proficiency for standard admission to a graduate program is 89 IBT TOEFL or 6.5 IELTS.
   - If the score is lower than 89 IBT TOEFL or 6.5 IELTS, the applicant may be granted joint admission to the Intensive English Program (IEP) and a graduate program while taking required language courses to meet the minimum TOEFL/IELTS requirement before beginning graduate program coursework. Joint admission is not available for applicants to the graduate programs in Athletic Training and Nursing due to program structure.

California Baptist University reserves the right to require additional English language testing/classes after the student has arrived at the university if considered necessary.

Admissions Status

Standard
Applicants who have met the unconditional status GPA requirement specified by each program, who have completed the required application, documents and fees, and have satisfied all other admission criteria, may be admitted standard status to the University with full graduate standing.

Conditional
Applicants who have a deficiency in any requirements may be admitted on a conditional basis.

Joint
Applicants who have met the standard status requirements, except for English language proficiency, may be granted joint status to the Intensive English Program (IEP) and graduate program. Students admitted under joint status are limited to enrolling in IEP coursework. Students must submit an official qualifying TOEFL/IELTS score report prior to beginning graduate program coursework. Joint status students who need to complete undergraduate prerequisite courses, as outlined by the student's admission conditions, may do so in combination with IEP coursework if the student's language ability meets the undergraduate English language proficiency standard as determined by the IEP director/program personnel.

Denial
Denial may occur when an applicant does not qualify for admission in any of the above categories. CBU reserves the right to deny admission to any applicant who is antagonistic with the philosophy or purpose of the University.
FINANCIAL AID

The Purpose of Financial Aid
California Baptist University coordinates and provides financial assistance to students. Financial aid at California Baptist University is administered in accordance with federal, state, and institutional policies. It is important that students understand that they bear the principal responsibility for meeting educational costs. A federal methodology calculation is used in determining eligibility for financial aid. There are various scholarships, grants, and loans available for students who are eligible for financial assistance. These forms of financial assistance are grouped into the following categories: Federal programs, state programs, and private scholarships. Specific information on each of these sources of financial aid is available on the Financial Aid website and in the Financial Aid Office.

Applying for Financial Aid
Students who apply for federal, state, institutional, or private aid must complete a Free Application for Federal Student Aid (FAFSA) each year. This form is available online at www.fafsa.gov. The Renewal FAFSA can also be done on the internet at www.fafsa.gov. The federal Department of Education allows each student to choose a four-digit PIN for ease of filing and for signing the FAFSA electronically.

Completion of the FAFSA will generate a Student Aid Report (SAR) which is sent directly to the student by the federal government. This report provides information regarding the student’s Expected Family Contribution (EFC). The Financial Aid Office will receive the FAFSA information electronically provided that the student has listed California Baptist University (school code 001125) on the FAFSA. Other documents may be requested to complete a financial aid file. All requested documents must be submitted 14 days prior to the close of the term.

To qualify for a financial aid award, graduate students must be enrolled in 5 units of degree applicable coursework for part-time status, 7 units of degree applicable coursework for three-quarter time status, and 9 units of degree applicable coursework for full-time status.

The amount of financial aid awarded is based on the financial need of the student as determined by the results of the FAFSA. Financial need is defined as the difference between the total cost of attending school (tuition, fees, room, board, books, supplies, and other allowable living expenses) and the Expected Family Contribution (EFC) as determined through the Federal Methodology Need Analysis. A student whose EFC exceeds the cost of attendance may still qualify for financial aid.

Requirements for Awarding
An offer of financial aid is generated upon acceptance to the University and completion of the registration process, provided a FAFSA has been filed. Copies of federal income tax returns may be required if the student is selected for certification by the Department of Education. The Financial Aid Office reserves the right to require tax documents to verify information contained on the FAFSA.

Student Rights and Responsibilities

Offer of Financial Aid
Students are required to notify the Financial Aid Office of changes in financial, residency, or academic status. Changes of this nature will be reviewed and adjustments may be made to the Financial Aid Award when necessary. Changes in marital status cannot be made once a FAFSA has been completed for that academic year.

Students have the opportunity to have financial aid decisions reviewed and explained by a Financial Aid Counselor upon request of appointment.

Disbursement
Federal loan funds are credited directly to the student’s account. Stafford loan (subsidized and unsubsidized) and Graduate Plus disbursements are sent directly to the University each semester via Electronic Funds Transfer (EFT).
Withdrawal from the University
Withdrawal from the University (all classes) during any period of enrollment, whether official or unofficial, may necessitate the return of federal financial aid.

Pursuant to federal regulations (CFR 668.22), a refund calculation will be performed to determine the amount, if any, of Title IV aid (Stafford loans, Grad Plus, Perkins loans) earned by the student for their attendance up to the date of withdrawal.

The official withdrawal process begins with the completion of the Petition to Withdraw form, which is available in the Office of Enrollment Services. Please refer to the Academic section of this catalog for further details of the process.

Unofficial withdrawals encompass those students who fail to initiate and/or complete the official withdrawal process as noted above. Ceasing to attend class without proper notification to the Office of Enrollment Services or the Office of the Registrar will result in an unofficial withdrawal and a refund calculation will be performed to determine the amount of Title IV aid earned and the amount to be returned to the Title IV programs. The student is responsible for any resulting balance owed to the University.

Satisfactory Academic Progress
To be eligible for financial aid, a student must be in good academic standing, making satisfactory progress toward the completion of a certificate or degree, within a maximum time frame. Students are evaluated annually after the fall semester to insure the minimum standards are met. Students failing to meet the minimum standards will progress through the aid statuses defined as follows:

Financial Aid Suspension
Status assigned to a student who fails to make Satisfactory Academic Progress once checked annually. The student is no longer eligible to receive financial aid. The student has the right to appeal the suspension. Aid is terminated until student has submitted written appeal.

Financial Aid Probation
Status assigned to a student who received a Financial Aid Suspension but successfully appealed the suspension and regains financial aid eligibility for an additional term. They must complete their probationary term successfully or they will be terminated.

Measure of Progress
Qualitative Measure
Students must maintain a minimum cumulative grade-point average (GPA) of 3.0. GPA’s are reviewed at the end fall semester. Students failing to achieve a minimum 3.0 GPA are given a Financial Aid Suspension status. The student is eligible to appeal the suspension.

If the student fails to earn the minimum 3.0 cumulative GPA after one additional term, the student is placed on Financial Aid Suspension. The student is eligible to appeal the suspension.

If the appeal is approved, the student must continue to earn a minimum 3.0 term GPA to continue making satisfactory progress toward a cumulative 3.0 GPA. 3.0 term GPA is the minimum standard measurement for continuing progress. The student will need to earn higher than 3.0 term GPA(s) to correct deficiency.

Students on Financial Aid Probation failing to earn the minimum 3.0 term GPA will be returned to a Financial Aid Suspension status. The student will not be eligible to receive financial aid until the cumulative GPA is raised to a 3.0

Quantitative Measure
Student must successfully complete a minimum of 67 percent of units in which they enroll. Unit completion is reviewed at the end of the fall term annually.

Grades of C, D, F, W (Withdraw), and I (Incomplete) do not demonstrate satisfactory course completion. Challenge exams and audited courses are not considered. Transfer credit that has been officially accepted to complete program requirements will demonstrate satisfactory course completion for quantitative measure (unit requirement) of Satisfactory Academic Progress, but will not figure into the 3.0 GPA qualitative measure requirement of Satisfactory Academic Progress.

Students initially failing to complete 67 percent of their enrolled cumulative units will be given a Suspension. The student is eligible to appeal the suspension.

If the appeal is approved, the student is placed on Financial Aid Probation and must continue making satisfactory progress in each subsequent term according to a specific plan of action determined for the student to reach the minimum qualitative requirement of 67 percent.

Students on Financial Aid Probation failing to achieve prescribed unit requirement plan in a subsequent term will be given a Financial Aid Suspension. The student will not be eligible to receive financial aid until the successful completion of 67 percent of enrolled unit requirement is achieved.

Maximum Time Frame Measure
Students are expected to complete their degree within a reasonable time frame no longer than 150 percent. For graduate students, the maximum period is based upon length of educational program. The measurement begins from the date of the initial enrollment in the student’s program.
Financial Aid

Appeal Process
Before filing an appeal for reinstatement of financial aid, it is important that students seek assistance from an Enrollment Advisor in order to explore ways of eliminating unit deficiencies and to establish a realistic plan towards graduation. At the time of termination, the Financial Aid Office will provide the student with instructions on how to appeal. A copy of the appeal form can be obtained from the Financial Aid Office. When filing an appeal, make sure that a full explanation is provided, along with documentation, verifying the circumstances that led to the inability to meet the minimum progress requirements. It is important that a definite plan towards graduation is established. An Academic Success Plan should be completed with the assistance of an Enrollment Advisor and submitted along with the letter of appeal. Should the appeal be approved, it is important that the Academic Success Plan be realistic as the ability to adhere to the plan will be closely monitored. Failure to follow the courses and units outlined may be used as a basis for future denial of financial aid.

If the Appeal is Denied
Students that do not have their appeals approved will receive information regarding other alternatives available to them. Some options include:

1. Continuing enrollment at CBU without any financial assistance
2. Continuing enrollment at CBU with the assistance of private loans. The Financial Aid Office can provide the student with information on these loans.
3. Taking a leave of absence from CBU to make up a portion or all of the deficient units at a Community College. In this case a student will have to file an additional appeal to have aid reinstated if s/he has completed the required units and demonstrated the ability to continue at CBU without incurring any additional deficiencies. The Financial Aid Office recommends that the student speak with Enrollment Advising to ensure that any classes taken elsewhere will count towards the student’s area of study.

Repeated Courses
Financial Aid will be awarded only twice for the same class. The cost of the third attempt will not be covered by financial aid and will not be counted as part of the half-time minimum aid eligibility requirement.

Institutional Financial Aid Programs for Graduate Students

Common Requirements for Institutional Programs
With regard to institutional financial assistance, the following common requirements have been established for all students enrolled in the Graduate Program:

• All scholarships are applied directly to a student’s account. No cash distributions are made directly to the scholarship recipient. Scholarships are not transferable to any student other than the recipient.
• In order to maintain aid eligibility, students receiving any financial aid must maintain satisfactory academic progress, as stated in this catalog.
• Institutional scholarships are limited and may not be awarded if all available funds have been appropriated.
• Students must complete their financial aid file by the first published financial clearance date of each Fall semester, Spring semester, and Summer semester.
• All awards are based on full-time enrollment of 9 units per semester or session. Students enrolled for less than 9 units are eligible to receive aid, prorated accordingly.
• All institutional aid is tuition-based. If a student receives additional non-institutional tuition-based aid, the amount of tuition-based aid may need to be reduced so the total tuition-based aid does not exceed the cost of tuition.

VA Yellow Ribbon Program Scholarship

Description
• The Yellow Ribbon GI Education Enhancement Program is a provision of the Post-9/11 Veterans Education Assistance Act of 2008. The program provides for an agreement between CBU and the Veteran Administration to award a limited number of scholarships to qualified VA students to fund tuition and fees that exceed benefits available under the Post 9/11 GI Bill (Chapter 33). Under the agreement VA will match CBU’s scholarship contribution.

Eligibility
• Student must qualify for the Post-9/11 GI Bill through Veteran’s Administration and elect to receive benefits under the Post 9/11 GI Bill program.
• Students must qualify for Yellow Ribbon program benefits as defined by the Post-9/11 GI Bill and Yellow Ribbon GI Education Enhancement Program.
• A limited number of scholarships are available and are awarded on a first-come, first-served basis as required by the Yellow Ribbon Program agreement.
Award
- Recipients may receive varying amounts to be determined by semester enrollment, tuition and fee charges.
- Recipients will be awarded in the current and subsequent academic years in which the university participates in the Yellow Ribbon Program and the student maintains continued enrollment and satisfactory progress, conduct, and attendance.

Procedure
- Student’s who qualify for the Post-9/11 GI Bill and the Yellow Ribbon Program as determined by their VA Certificate of Eligibility should apply directly with the Office of the Registrar.

Federal Financial Aid Programs

Common Requirements for all Federal Programs
- All students applying for federal aid must complete a Free Application for Federal Student Aid (FAFSA).
- All federal aid recipients must be a U.S. citizen, permanent resident or eligible non-citizen.
- All federal aid recipients must not be in default of a student loan and not owe a refund of any state or federal educational grant.
- All federal aid recipients must maintain satisfactory academic progress according to institutional standards as stated in this catalog.
- Students concurrently enrolled at other institutions will only be eligible to receive financial aid for registered units at California Baptist University.

Note: Federal programs are subject to change at any time.

Federal Work Study Program

Description
- Federal Work Study (FWS) is a federally-funded, need-based, campus-based work program designed to assist undergraduate and graduate students desiring a job on campus to help earn money for their educational expenses.

Eligibility
- Eligibility is determined by a student’s financial need as determined by the results of the FAFSA. Availability is limited.

Award
- FWS funds are not disbursed separately to the student, nor applied to the students account; they are included in the student’s regular paycheck. Work Study awards indicate a maximum amount for which a student is eligible. Student’s earnings will be monitored each pay period and will be adjusted accordingly.

Procedure
- Students obtain an employment application from Career Services. The application is reviewed by Financial Aid for FWS eligibility. Once employment is obtained, FWS will be applied. FWS amounts are based on hours worked and financial need as determined by the FAFSA.

Federal Stafford Loan

Description
- The Federal Stafford Loan is a low-interest loan available to students who have financial need as determined by the results of the FAFSA. The loan is made to the student by the Federal Department of Education through the Direct Loan Program. Upon repayment, loan payments are made directly to the Department of Education on a monthly basis. Interest rates for Stafford loans can be determined using the list below.

Federal Unsubsidized Stafford Loan Interest Rates - Interest begins accruing after the first disbursement. The student is responsible for any interest accrued but can defer the interest with the principle of the loan.

Unsubsidized loans first disbursed between July 1, 2006 and June 30, 2013 are fixed at 6.8%

Eligibility
- Eligibility is determined by a student’s financial need and grade level.
- First-time borrowers and transfer students must complete an entrance interview before any funds will be disbursed. Upon withdrawal from the university or graduation, all recipients must also complete an exit interview.
- Funds will be disbursed via EFT (Electronic Funds Transfer).

Award
- Students enrolled in graduate programs are eligible to borrow up to $20,500 per academic year (two semesters).
- The Aggregate loan limit for Graduate students is 138,000.
Financial Aid

Federal Perkins Loan

Description
- The Federal Perkins Loan is a federally funded, low-interest, campus-based loan available to students who demonstrate financial need as determined by the results of the FAFSA. No interest accrues while the student is enrolled in school at least half-time and repayment begins nine months after graduation, leaving school or dropping below half-time enrollment.

Eligibility
- Eligibility is determined by a student's financial need. Priority will be given to students with exceptional financial need.
- All recipients must complete an entrance interview before any funds can be disbursed. Upon withdrawal from school or graduation, all recipients must also complete an exit interview.
- All recipients must complete a promissory note and additional forms as required by the institution before any funds can be disbursed.

Award
- Awards for graduate students may be up to $3,000 per term for the Fall and Spring semesters.
- Funds are limited

Procedure
- Potential recipients should apply directly to the Financial Aid Office.

State Financial Aid Programs

Assumption Program of Loans for Education (APLE) (for Credential Students)

Description
- The Assumption Program of Loans for Education (APLE) is a state funded, competitive teacher incentive program which is designed to encourage outstanding students to become teachers and serve in critical teacher shortage areas. Under the provisions of the APLE program, the California Student Aid Commission (CSAC) may assume up to $19,000 in outstanding educational loan debt in return for the participant's service as a public school teacher in California in either designated subject matter areas (mathematics, science, English, bilingual education or special education) or in schools serving large populations of students from low-income families. A list of qualified schools is available on the internet at www.csac.ca.gov.

Eligibility
- Applicant must be a legal resident of the state of California.
- Applicant must have completed a minimum of 60 semester or 90 quarter units.
- Applicant must have received Stafford, FFELP, Perkins, or other student loans approved by CSAC.
- Applicant must not have completed the coursework necessary to obtain an initial teaching credential.
- Applicant must not be employed as a full-time teacher.
- Applicant must agree to teach in a California public school for at least four consecutive years after obtaining a teaching credential. This agreement may also have other requirements regarding type or location of teaching as determined by CSAC.

Assumption Program of Loans for Education (Graduate APLE)

Description
- The Graduate Assumption Program of Loans for Education (Graduate APLE) is a state funded, competitive teacher incentive program which is designed to encourage outstanding students to become teachers and serve at a college or university. Under the provisions of the Graduate APLE, after a participant has obtained a graduate degree, the Commission may assume up to $6,000 in outstanding student loans in return for three consecutive years of service as the equivalent of a full-time member at one or more California colleges or universities.

Eligibility
- Applicant must be a legal resident of the state of California.
- Applicant must have Stafford, FFELP, Perkins, or other student loans approved by the California Student Aid Commission.
- Applicant must demonstrate academic ability and financial need.
- Applicant must be free of obligations to repay any state or federal educational grant and NOT be in default on any federal loan.
- Applicant must have completed a baccalaureate degree or be enrolled in a program leading to a graduate level degree.
- Applicant must be enrolled (or admitted) in a graduate program on a full time basis each term beginning with the Fall term.
- Applicant must agree to teach at one or more accredited California colleges or universities for at least three consecutive years after obtaining a graduate degree.
Cal Grant Teaching Credential Program

Description
- The Cal Grant TCP is a state funded, need-based grant that provides tuition assistance to graduate students enrolled in a Teaching Credential Program.

Eligibility
- Students must have been recipients of Cal Grant A or Cal Grant B as an undergraduate.
- Form G-44 must be completed and submitted to the California Student Aid Commission for approval. Forms are available in the Financial Aid Office.
- Based on eligibility, Cal Grant TCP Grant awards are awarded to cover up to the amount of tuition and fees only. The grant covers only credential applicable coursework.
- Funding for the Cal Grant TCP Grant is subject to state budget allocations.

- Plan B (75 meals per semester) 740
- Plan C (100 meals per semester) 985

Policy for Student Accounts
Student charges are due and payable at the time of registration for all students. Students choosing to remain enrolled past the last day to drop with refund are obligated to cover all tuition, fees, room and board charges incurred in accordance with the refund policy for tuition, room and board charges. The University expects students to complete payment for the current semester before advancing to a future semester. If semester charges are not covered by the approved payment options a hold will be placed on the student account preventing release of diploma, transcripts and future registration until the balance is covered with verified funds. International, Special Admit and Professional Development Students are required to pay their balance in full each semester to avoid enrollment cancellation.

Approved Payment Options

Option 1 (Payment in Full)
California Baptist University accepts the following forms of payment: cash, check, credit card (Visa, MasterCard, Discover). Payment in full at the beginning of each semester or term is required. The University offers an alternative payment plan for parents and students unable to pay full costs by the start of an academic semester or term.

Option 2 (Semester Payment Plan)
The semester payment plan enables you to pay all or part of your annual charges in installments without interest. Your monthly payments are calculated on an amount that is equal to the total expenses less grants, scholarships, or direct payments made to the University. The plan gives students the option to pay through automatic bank draft (ACH) or credit card. The plan requires a $35 per semester enrollment fee. Please see the InsideCBU Student Accounts tab for more information.

Option 3 (Financial Aid)
Financial Clearance

To attain Financial Clearance to attend classes a student must have a signed Tuition and Fee Agreement on file in the Student Accounts Office and make approved payment arrangements to cover their balance in full.

Financial Clearance Deadline Dates

All students should pay their balance by close of business day on the deadlines specified below to avoid a Financial Clearance Fee charge.

<table>

</tr>
</tbody>
</table>

Note: International students who do not complete payment arrangements by the specified deadline will be administratively dropped from their courses. The Dean of Students and Director of International Students will be notified of such action.

Delinquent Accounts

Delinquent accounts are those in which monthly payments are past due. Interest is charged on all delinquent accounts at a rate of .833% per month or 10% per year computed monthly. In the event an account becomes delinquent and the account is turned over to a collection service, the cost of the service and reasonable attorneys' fees will be added to the account. Failure to make payments of any indebtedness to the University when due, including, but not limited to, tuition, housing or rental charges, student loans, laptop fees, special fees, library or parking fines, is considered sufficient cause, until the debt is settled with verified funds, to:

• Bar the student from classes
• Record no grades on transcript
• Withhold diploma or transcript of records
• Dismiss the student

Returning students will not be permitted to register for classes if a balance appears on their account.

Policy for Refund of Tuition, Fees, Room and Board Charges

The Student Accounts Office will automatically process tuition refunds for all eligible students. Refunds are calculated from the date of official withdrawal. A withdrawal is considered official when a completed Petition to Withdraw Form has been submitted to the Enrollment Services Office and processed by the Office of the Registrar, Financial Aid and Student Accounts.

Ceasing to attend does not constitute an official withdrawal from a course or from the University. However, a Title IV-unofficial withdraw may be processed as required per federal regulations, which may necessitate the return of federal financial aid.

Refer to the Financial Aid and Academic Information sections in this catalog for additional information regarding withdrawals.

Tuition

Withdrawal from a course

Within add/drop period- A student may drop from a course and receive a full credit of tuition. No mark will appear on the transcript and no charge is incurred.

Within withdrawal period- A student may withdraw from a course. However, there will be no credit of tuition, and a “W” will appear on the transcript.

Withdrawal from the University (Traditional 16 week courses)

A student withdrawing from the University during the semester may receive a credit on tuition (room and board not included) according to the following schedule:

<table>
<thead>
<tr>
<th>Period</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>Within the first two weeks after semester begins</td>
<td>100%</td>
</tr>
<tr>
<td>Within the third week after semester begins</td>

</tr>
<tr>
<td>Within the fourth week after semester begins</td>
<td>50%</td>
</tr>
<tr>
<td>Within the fifth through eighth week after semester begins</td>
<td>25%</td>
</tr>
<tr>
<td>After the eighth week of the semester</td>
<td>No refund</td>
</tr>
</tbody>
</table>

Completion of even one course in a session will make a student ineligible for withdrawal from the University for that semester

Refer to the University Calendar and course schedule for add/drop and withdrawal dates. Course schedules may be obtained at www.calbaptist.edu/schedules.

Room and Board
These charges may be refunded or credited on a prorated basis upon approval of a written appeal. Appeals must indicate extenuating circumstances and be submitted to the Residence Life Office and/or Campus Life Office.

Repayment of Financial Aid
See “Withdrawal from the University” under Financial Aid for a complete discussion.

Policy for Student Organization Funds
All student organization funds must be deposited with the University. The University disburses funds through the normal requisition process. All requisitions must have the signature of the organization’s advisor and the Vice President for Student Services. Proceeds from the sale of yearbook advertising and school newspaper advertising must be handled through the Student Accounts Office. No organization or club is permitted to solicit advertising or contributions without the written permission of the University administration.

The University reserves the right, with or without notice, to change fees and charges when necessary.

California Baptist University offers nine undergraduate degrees: Bachelor of Applied Theology, Bachelor of Arts, Bachelor of Music, Bachelor of Science, Bachelor of Science in Civil Engineering, Bachelor of Science in Electrical and Computer Engineering, Bachelor of Science in Engineering, Bachelor of Science in Mechanical Engineering and Bachelor of Science in Nursing; and six graduate degrees: Master of Arts, Master of Business Administration, Master of Music, Master of Public Administration, Master of Science and Master of Science in Nursing. Additionally, CBU offers Single Subject, Multiple Subject, and Preliminary Administrative Services Credential Programs and the Education Specialist Credential Program in Mild/Moderate Disabilities-Level I and Level II.

Graduation Under a Particular Catalog
Students must adhere to graduation requirements listed in the catalog in effect at the time of matriculation. A student may choose to use any newer catalog, provided that the catalog used is no more than five years old. The catalog remains in effect for the student until degree completion or catalog expiration at the end of five years. All students who are re-admitted to programs at California Baptist University after officially or unofficially withdrawing or any lapse of enrollment longer than one semester will be placed under the catalog current at the time of re-admission, and will be subject to the degree requirements outlined in that catalog. The University is not responsible for providing courses or programs which have been discontinued.

Continuation under the catalog holds ONLY degree requirements; it does NOT hold policies, tuition and fees, and other information, which may change annually. It is the responsibility of the student to attend to changes in policies, tuition and fees and other information. Updates regarding current policies, tuition and fees and other information is available from Enrollment Advising, Office of the Registrar, Student Accounts, Student Services, and other University offices.

In addition to catalog requirements, students are also held to program specific regulations and requirements as outlined in each graduate program Handbook. Students are responsible for obtaining and reading their program Handbook. Contact the program secretary for additional information.

Work in Residence
Students are expected to complete the majority of required coursework in residence. With approval from the program director and Office of the Registrar, a maximum of 9 units of graduate level coursework may be transferred from another university.

Student Load Limits
Students who have not completed program prerequisites may be admitted conditionally with the following stipulations for the first semester of enrollment:

1. If three or more prerequisites are outstanding, the student may not enroll in graduate classes, but may enroll in undergraduate classes to meet the prerequisite requirements.
2. If two or fewer prerequisites are needed, they must be completed with a grade of C or higher by the end of the first semester of enrollment in a graduate program.

Students taking prerequisites at California Baptist University may not enroll in more than 12 units (undergraduate and graduate) in any one semester; individual programs may have a limit lower than 12 units per semester. Individuals requesting exceptions must receive written permission from the program director.

Approval for Graduation
Students should review their InsideCBU degree guide on a regular basis to evaluate progress toward graduation. Student should submit an application for graduation upon successful completion of ninety (90) or more earned units. Students who have submitted an application for graduation will receive a degree evaluation from the Office of the Registrar. Upon verification of eligibility to graduate a student may participate in ceremonies. Graduation Applications must be submitted by the application deadline or the student will be assessed a Late Graduation Application fee due at the time of application. Applications received after the degree posting date will be required to apply for the next eligible degree date. All candidates for graduation must be recommended by the faculty. Failure to complete degree requirements by the designated posting date may require re-application and an additional fee will be assessed.

Graduation Check List
- Earn a cumulative grade point average of at least 3.0 overall with no grade below B- in the degree
- Complete all pre-requisite coursework for the degree
- Complete all coursework requirements in the Masters Degree selected from the University Graduate Catalog
- Complete a graduation application for planned graduation date
- Satisfy all financial obligations
- Be in good academic standing (not suspended or academically disqualified) at the time of completion
Academic Information

Degree Posting Dates
The University posts degrees three times each year, regardless of the specific date all work is completed. All degree requirements must be met prior to the posting date. The three approximate posting dates are at the end of the regular fall semester (last day in December), the end of the regular spring semester (first Friday in May), and the end of the regular summer semester (last day in August). Degrees completed between posting dates will be posted at the next scheduled date.

Once the degree is posted, no changes will be made to the transcript.

Transfer Restrictions
The Office of the Registrar with the program director will evaluate previous college work to determine its relationship to the requirements of California Baptist University. A maximum of nine (9) graduate semester units may be accepted in transfer toward fulfilling degree requirements. The student may be asked to submit a syllabus and/or textbooks for the course in question. Courses must have been completed within the last five years. Only coursework completed with grades of B- or better from a regionally accredited institution is transferable. California Baptist University does not accept transfer work that was not designated as degree-applicable by the issuing institution. A transfer student may be required to submit a letter from the academic institution verifying they left in good standing.

Course Transfer Approval forms may be obtained in the Office of the Registrar.

Enrollment at Other Institutions
All students who wish to take coursework at other institutions and wish to apply this work toward degree requirements at California Baptist University must receive prior approval from the Registrar. The purpose of this is to ensure that the coursework is transferable to California Baptist University, and to encourage student success by monitoring total academic loads. Students not receiving prior approval for enrollment at another institution may not be permitted to transfer those credits. Additional information and appropriate forms are available on the California Baptist University web site and in the Office of the Registrar.

Scholastic Regulations
A graduate student must maintain satisfactory scholastic standing in order to remain enrolled in a graduate program at California Baptist University. Satisfactory scholastic standing for graduate students is a semester grade point average (GPA) of 3.0 or above on a 4.0 scale. Only grades of B- or above will fulfill requirements for a graduate degree. A cumulative grade point average of 3.0 or above is required for graduation.

A student who fails to attain and maintain the scholastic standing, but who passes some courses, with a semester GPA of 2.7 or higher is placed on Academic Probation for one semester. Failure to meet satisfactory scholastic standing the semester following probation will result in Academic Suspension.

A student with a 2.7 semester GPA will be suspended at once and will not be granted a probationary semester.

A student who has been suspended for one semester must be approved by the Admissions and Retention Committee for possible re-admission to the University with probationary status. After being re-admitted, the student will be allowed one semester to meet satisfactory scholastic standing by achieving a 3.0 semester GPA. A person who has been academically suspended and re-admitted must meet satisfactory scholastic standing or show significant improvement, to avoid a second suspension. A second consecutive suspension will render the suspended student academically disqualified for continued enrollment. To regain academic qualification a student must demonstrate that they have the educational skills and motivation necessary to be academically successful. To do this, the student should demonstrate significant progress toward aligning their personal and professional goals in such a way that promotes their academic success. This is accomplished through additional work experience and/or certifications. Upon return to CBU the student may have to be readmitted to the University prior to enrolling. (See Satisfactory Academic Progress in the Financial Aid Section and Readmit in the Admission Section).

All appeals should be directed to the Chair of the Admissions and Retention Committee in compliance with dates detailed in the letter of notification of suspension sent after the close of each semester.

Student Grievances
A student wishing to express concerns or grievances about academic matters, involving coursework or interactions with instructors in and out of the classroom, should ordinarily follow a regular order of contacts. The first contact would be between the student and the instructor involved so that there is opportunity for each to address the issues that directly affect them. If the student feels unable to approach the instructor directly or does not believe the issue has been fully resolved with the instructor, the next contact would be with the Chair of the Department or Dean of the School or College having oversight of that course. If issues remain unresolved at these levels, the final academic point of contact would be the Dean of Academic Services.

Academic Dishonesty
Academic dishonesty (cheating, plagiarism, copying, and other forms) will be reported to the Dean of Students. Judicial sanctions for offense are handled on a case-by-case basis depending on the seriousness of the violation, prior violations and other factors. Judicial sanctions may include, but are not limited to, loss of a letter grade or failure in the course in which the offense occurred, suspension, and/or dismissal from the University. A detailed discussion of academic dishonesty is located in the Student Handbook.
Incomplete Grade Policy
A Petition for Incomplete Work is filed only in cases of extreme and unforeseen emergencies. Students receiving financial aid may adversely affect aid eligibility by taking an Incomplete. If a grade of I is not raised to a passing grade six weeks after the close of the semester, the grade automatically becomes an F and credit for the course may be obtained only by repeating the course. An Incomplete fee is charged for all approved incomplete petitions. Approval for an Incomplete is gained by petition to the Dean of the school or college in which the course is offered. It is the responsibility of the student to initiate and complete the process for incomplete work prior to the end of the semester.

Examinations/Make-up Tests
Students are expected to take all tests at the regularly scheduled time. In the case of serious illness or extreme emergency, a faculty member may allow the student to take a make-up test WITHIN TWO WEEKS of the originally scheduled test date. If the test is not made up within two weeks, the student may receive no credit for that test. It is the responsibility of the student to arrange for a make-up test by securing permission of the instructor IN ADVANCE of the test to be missed. The student must then schedule a make-up test appointment with the Academic Resource Center (ARC). A $5 fee will be charged for all make-up tests.

Repeating Courses for Grade Replacement
A student may repeat a course in which a grade of C- or lower was earned. For grade replacement to apply, the course must have been originally taken in residence and repeated in residence. Courses that may be repeated multiple times for credit are not eligible for grade replacement. Tuition will be charged for the repeated units. Students may not repeat a course once the baccalaureate degree has been posted.

Students who elect to repeat a course may do so only one time for grade replacement. The second grade earned will be used in GPA calculations regardless of which grade is higher. If a grade of C- or higher is not earned when the course is repeated, the student may repeat the course again; however, subsequent grades will not replace the grade from the first repetition. Subsequent grades will be used in GPA calculations.

Grade Changes
Students who believe a grade has been recorded in error have the responsibility to initiate a grade change request with the instructor. There is a five-year limit on requests for grade changes based on computation and recording errors. Otherwise, grades are final at the completion of the course. No grade changes will be permitted once the degree has been posted.

Quality of work in a course is indicated as follows:

Grade of A  Indicates the highest quality of work and is reserved for outstanding achievement
Grade of B  Indicates definitely superior work done in a sustained and intelligent manner. Grades of B- or above fulfill requirements for a graduate degree
Grade of C  Indicates average university-level work satisfactorily performed
Grade of D  Indicates the lowest passing grade
Grade of F  Indicates a failing grade
Grade of P  Indicates a passing grade
Grade of CR  Indicates work attempted under the “Credit/No Credit” grading option that was at or above the B- level
Grade of NC  Indicates work attempted under the “Credit/No Credit” grading option that was below the B- level
Grade of W  Indicates a withdrawal from the class
Grade of I  Indicates incomplete work. See Incomplete Work above
Grade of AU  Indicates that the course was audited and not taken for academic credit
Grade of SP  Indicates satisfactory progress in an ongoing course. (Thesis, Project, Student Teaching)
Grade of IP  Indicates the course is in progress
Grade of NR  Indicates no grade has been recorded

Grade Reports
Grade reports are available to students through InsideCBU upon the completion of the semester. Students with a student account hold are not eligible for a grade report.
Academic Information

Change of Address
It is frequently a matter of great importance for the University to be able to locate students quickly. For this reason students are asked to file a Student Information Change form with the Office of the Registrar promptly upon a change of address. Failure to receive University notices because of an incorrect or outdated address provided by the student will not relieve the student of responsibility for the information provided.

Size of Classes
Courses at California Baptist University are subject to cancellation for reasons of scheduling, staffing, or enrollment. Students will be notified of course cancellations via their CBU e-mail account.

Directed Study and Independent Study
Directed Study will be limited to those courses listed in the catalog and are part of the University’s regular curriculum. Independent Study will be limited to original coursework not included in the University’s regular curriculum. Approval for the arrangement must include the faculty member, Dean/Department Chair, and Registrar. In addition to regular tuition, a per unit Directed/Independent Study fee will be assessed. Students petitioning for Directed/Independent Study must adhere to the following guidelines:

- Only juniors and seniors are eligible for directed/independent study.
- Only students who have a 3.0 or better grade point average are eligible for directed/independent study.
- No student may take more than a total of four units of independent study or directed study in any given semester.
- A form for directed/independent study may be obtained from Enrollment Advising. It must be completed with the appropriate faculty member and submitted to the Department Chair and Registrar for approval.
- A maximum of nine (9) units of directed study or independent study may be applied towards degree requirements.

Challenging a Course for Credit or Exemption
A student wishing to challenge a course by examination or certification should consult the Office of the Registrar for information. Not all courses offered at California Baptist University may be challenged by exam or certification, and determinations will be made by the appropriate academic dean or department chair.

Students wishing only to be exempt from a course requirement, but not wishing to receive university credit, will be billed the exemption by exam or exemption by certification fee, and no credit will be earned. The exemption by exam fee will be assessed whether or not the exam is successfully passed.

Students wishing to receive credit for the challenged course and successfully pass the exam will be charged the appropriate tuition and a grade of “Credit” will appear on the transcript. If the exam is not passed the student will only be charged the exemption by exam fee and nothing will appear on the transcript.

Challenge exams may be attempted only once per course and should be completed prior to the add/drop dates. Credit and tuition costs for coursework completed by exam will appear in the semester that the exam is passed. Students may not exceed 30 units of degree credit by challenge exams including AP, CLEP, and DSST, IB, and CBU exams.

Auditing a Course
Courses which are audited are not credit-bearing; they cannot be applied toward degree requirements. Audited courses do appear on the transcript and are indicated by an AU in lieu of a credit-bearing grade.

Students may register for an audit during the first two weeks of the semester only, pending available space in the desired course. Regular withdrawal policies apply to audited coursework.

Post Baccalaureate Credit
Post baccalaureate credit for a course taken as an undergraduate student must be requested prior to the posting of the bachelor’s degree. The following criteria must be met in order to grant credit:

- Course(s) were not used to complete a bachelor’s degree, second major, minor, emphasis, or concentration.
- Student was classified as a Senior (90.0+ units) when courses were completed.

Privacy of Student Records
In compliance with Federal Legislation (Buckley Amendment) a student’s confidential academic record is available for inspection by the student. See the Registrar for further information.

By law the following information may be considered directory information and thus able to be released without prior permission of students involved: student’s name; address; telephone listing; e-mail address; date and place of birth; photo; major field of study; participation in official recognized sports activities; weight and height of athletic team members; dates of attendance, degrees, and awards received; and the most recent previous educational institution attended by the student.

The University does not release any grade information to any person other than the requesting student without the written permission of the student. Grades will not be given over the phone under any circumstances.
Attendance and Withdrawal Policies

Completion of the registration process constitutes a contract and obligates the student for full payment. The student must complete the appropriate process to add, drop, or withdraw from a course. Course registration adds, drops, and withdraws are processed by students through the InsideCBU portal. Students may seek assistance with the InsideCBU registration process from the enrollment advising office. To withdraw from the University, the student must submit a Petition to Withdraw to the Enrollment Services office, this process can not be completed through InsideCBU. Students should consult the University Calendar, Schedule of Classes, and Enrollment Advising for course and semester add, drop and withdraw dates.

Class attendance is of paramount importance, and excessive absences will negatively affect the final grade. The individual instructor defines, in the course syllabus, the grading attendance policies for each class.

Adding a Course
During the initial Add period a student may add a course to his or her schedule of classes. Adding a course could result in the increase of student account tuition and fee charges.

Dropping a Course
During the initial Drop period a student may drop a course and receive a full credit of tuition if applicable. No mark will appear on the transcript. A student may not drop a class merely by ceasing to attend. Dropping a class could result in the reduction of already awarded financial aid and an increase in the student account balance.

Withdrawal from a Course
Students may withdraw from a course during the Withdraw period. A grade of W will appear on the transcript. No credit of tuition will be granted after the Drop period. After the Withdraw period no withdrawal from a course will be permitted. Students who cease attending after the withdrawal date will receive a grade of F in that course.

A student who never attends or stops attending a course for which he or she is officially registered, without following the accepted procedures, will receive a grade of F in that course. A student who wishes to initiate withdrawal from a course after the deadline may do so by filing a petition to present a serious and compelling reason for withdrawal to the Office of the Registrar. Approval for such a withdrawal will be granted only in extreme cases where extenuating circumstances are evident and can be substantiated. No financial adjustments are made. Failing or performing poorly in a class, and dissatisfaction with the subject matter, class or instructor is not acceptable serious and compelling reasons for late withdrawal.

Withdrawal from the University and Semester
Complete official withdrawal from the University and semester is permitted through the last day of the final examination period and is permitted only if a course has not already been completed. Students requesting full official withdrawal from the University and semester must complete a Petition to Withdraw form available in the Office of Enrollment Services. To complete the official withdrawal process the student must also initiate enrollment changes in the Office off the Registrar, complete the Exit Interview process through the Financial Aid Office and reconcile any account balance in the Student Accounts Office. Failure to comply with these regulations will result in failing grades being entered on the student's permanent record, and dismissal will be recorded as unofficial.

Ceasing to attend does not constitute an official withdrawal from a course or from the University. However, ceasing to attend all courses may result in Return to Title IV processing as required per federal regulations.

Refer to the Financial Aid and Student Account sections in this catalog for additional information regarding the effects of completing an official withdraw and the effects of ceasing to attend without providing official notification to the University according to the official withdrawal process.

Administrative Discretion
The University reserves the right to disqualify, discontinue, exclude, or involuntarily withdraw any student from the University at the discretion of the provost, the vice president for enrollment and student services, dean of students services, or designee.

California Baptist University is concerned about the well-being of all students. Behavior that demonstrates that the student’s well-being may be in jeopardy, interferes with the educational efforts of other students, puts fell students or the institution at risk, or conflicts with California Baptist University’s mission to educate all students may result in an administrative withdrawal from the institution.
Other Academic Information

Academic Computing
The University offers access to computer labs as well as coursework in computer technology and supports the computer as a tool to success in the overall liberal arts curriculum. Labs are located in the Annie Gabriel Library, W.E. James Complex, and Yeager University Center. A valid student identification card is required for access to the computer labs.

Academic Resource Center
The Academic Resource Center is responsible for providing support services to help students acquire skills essential to achieve academic success. Services include tutoring for CBU coursework as well as a variety of subjects such as library research, citation (APA, MLA), test-taking strategies, computer skills, and limited CBEST, RICA, CSET and SAT, as available. In addition, the ARC offers study groups, testing services, informal learning style self-assessment, and academic workshops. The ARC is located in the James Building room 121.

Annie Gabriel Library
The purpose of the library is to enhance the quality of the academic experience available at California Baptist University by supporting the instructional, learning and research activities of the faculty and students. In addition to over 182,000 volumes (including 56,000 electronic books), the library currently subscribes to more than 300 print journals, and 50 online databases that combined provide access to several million journal records, many with full-text coverage. Faculty and students can access books, journal titles, videos, and music through the library catalog (WebCat). In addition to the material available through the California Baptist University library, participation in several local, regional and national information networks offer students and faculty access to the collection of numerous libraries. Materials from more than 85 public, academic, special and other libraries are available through local library organizations and loan networks. The majority of the library's services and materials can be accessed through the California Baptist University web site. The Annie Gabriel Library also includes approximately two dozen computer stations and wireless internet capability. Among the special collections in the University’s library are the Southern Baptist Archive and Depository, P. Boyd Smith Hymnology Collection, Nie Wieder Holocaust Collection, and D. Eugene Wallace Christian Studies Collection.

Office of the Registrar
The Office of the Registrar maintains the student’s official academic record and assists students with transcripts, letter requests, degree and enrollment verifications, veterans benefit enrollment certification and other requests related to the student’s enrollment. The Office of the Register also maintains articulation agreements, completes official evaluation of previous college work, reviews requests for concurrent enrollment transfer approvals, reviews academic variances, processes all applications for graduation, reviews the academic record for final degree completion, and posts completed degrees.

Veterans Information
The Office of the Registrar maintains records for each identified veteran. A record of transfer work is kept on file and the Veterans’ Administration is notified of the transfer work accepted for each veteran.

Veterans must provide a written request to the Office of the Registrar at the beginning of each term to initiate reporting of verification of enrollment and academic progress to the appropriate Veterans’ Administration office. Any changes in enrollment or attendance should be reported to the Office of the Registrar.

Satisfactory progress must be maintained as specified in the Scholastic Regulations Section under Academic Policies. California Baptist University is a Serviceman’s Opportunity College (SOC), and military academic credit or experience may provide some equivalency credit in accordance with the American Council on Education (ACE) guidelines.

Graduate Program in Athletic Training
The Master of Science in Athletic Training program is designed to prepare students for the Board of Certification, Inc. (BOC) certification exam. Once certified, students are qualified for work in secondary schools, colleges and universities, professional sports, sports medicine clinics and industrial/military settings.

Students complete a minimum of eight (8) clinical internships while in the Athletic Training program. Each experience will provide exposure to different professional athletic training settings. Individuals will serve as athletic training students in community college, university, clinic and hospital environments at various sites near the CBU campus.

The Master of Science in Athletic Training program at CBU is the first entry-level masters program in California and one of only two on the West Coast. The entry-level designation is given to those programs that seek to prepare students as certified athletic trainers according to the Commission on Accreditation of Athletic Training Education (CAATE). Individuals wanting to become certified athletic trainers must earn a degree from a CAATE accredited athletic training program and must pass a national examination administered by the Board of Certification.

Graduate Program in Kinesiology
The graduate program in Kinesiology allows students to choose one concentration from among three designed to prepare students for a wide variety of careers in physical activity, exercise and sport. The Exercise Science concentration prepares clinical professionals for employment in health, fitness and clinical exercise settings. The coursework also prepares students for relevant certifications through the American College of Sports Medicine (ACSM) and other professional organizations.

The Physical Education concentration is designed to allow teaching professionals the opportunity to advance their careers, expand their proficiency, and increase their value at elementary and secondary institutions in public, private and religious schools. The Sport Management concentration prepares sport professionals for a variety of management-related careers in settings including teaching, coaching, and management of sport, recreation, and leisure programs. The curriculum follows the guidelines of the Commission on Sport Management Accreditation (COSMA) and includes specialized courses in sport law, marketing, economics and finance, event and facility management, and relevant field experience.
Admission Requirements

Master of Science in Athletic Training Admission Requirements

Admission standards for Graduate Studies at California Baptist University can be found in the Admissions section of the University Catalog. Specific admission requirements for the Graduate Program in Athletic Training are:

1. Grade Point Average
   - A minimum 2.75 GPA for unconditional acceptance
   - Applicants with a GPA lower than 2.75 may be considered for admission with the presentation of a minimum combined score of 300 on the verbal and quantitative sections of the Graduate Record Exam (GRE)

2. Prerequisites (completed with a “C” or better in the past eight years)*
   - Human Anatomy & Physiology with Lab (2 semesters)
   - General Psychology
   - Biomechanics or Movement Anatomy
   - Health and Wellness
   - Exercise Physiology
   - Care and Prevention of Athletic Injuries with Lab

3. Three Recommendations, completed on forms provided, from sources who can address your potential for success. Family members and friends may not complete recommendations

4. Comprehensive Essay of at least 500 words that includes the following:
   - Purpose for entering the program
   - Background and/or experiences in sports, athletic training, physical education or related areas
   - Short and long term professional goals
   - Reasons for choosing to study at California Baptist University

5. Current Resume documenting all related professional and extracurricular experiences

6. CPR for the Professional Rescuer Certification, demonstrated by coursework or certification*

7. Clinical Observation*
   - Verification of 150 hours in an athletic training setting supervised by a Certified Athletic Trainer

8. Successful Interview with the Athletic Training Admission Committee.*
   - Admission to the Athletic Training Program is both competitive and selective, therefore satisfactory completion of all program admission requirements and prerequisites does not guarantee program acceptance. The Athletic Training Admissions Committee will review all applicants for formal acceptance.

* Not required for admission to the pre-athletic training curriculum, must be complete prior to consideration for admission to the Master of Science in Athletic Training program.

Master of Science in Athletic Training Post-Admission Requirements

The following documentation and certifications must be current and on file with the Athletic Training Program Director prior to beginning clinical rotations:

1. Evidence of current liability insurance coverage
2. Evidence of current first aid and professional rescuer CPR certification
3. Completed health evaluation form
4. Signed declaration of understanding and liability to meet the Technical Standards for Admissions and Retention
5. Signed declaration of understanding and acceptance of all Program Policies and Procedures Handbook
6. Evidence of a completed HBV vaccination series and TB Skin Test prior to admission to clinical experiences
Master of Science in Kinesiology Admission Requirements
Admission standards for Graduate Studies at California Baptist University can be found in the Admissions section of the University Catalog. Additional application requirements for the Graduate Program in Kinesiology are:

1. Grade Point Average
   - A minimum 2.75 GPA for unconditional acceptance
   - Applicants with a GPA lower than 2.75 may be considered for admission with the presentation of a minimum combined score of 300 on the verbal and quantitative sections of the Graduate Record Exam (GRE) or a passing score on the California Subject Examination for Teachers (CSET).

2. Prerequisites (completed with a “C” or better)
   - The Physical Education emphasis requires a minimum of 12 semester units of study in Kinesiology including a basic movement anatomy or related course
   - The Exercise Science concentration requires prerequisite courses in anatomy and physiology, exercise physiology and biomechanics or an equivalent

3. Three Recommendations, completed on forms provided, from sources who can address your potential for success. Family members and friends may not complete recommendations.

4. Comprehensive Essay of at least 500 words that includes the following:
   - Purpose for entering the program
   - Background and/or experiences in sports, physical education or related areas
   - Short and long term professional goals
   - Reasons for choosing to study at California Baptist University

5. Current Resume documenting all related professional and extracurricular experiences

6. Successful Interview with the Director of the Graduate Program in Kinesiology

ATHLETIC TRAINING
Pre-Athletic Training Curriculum
The following athletic training prerequisites are offered at California Baptist University

Pre-Athletic Training Courses
- BIO 153 Human Anatomy and Physiology I with Lab
- BIO 163 Human Anatomy and Physiology II with Lab
- KIN 274 Applied Movement Anatomy
- KIN 302 Contemporary Health Issues
- KIN 312 Emergencies in Sports Medicine
- KIN 353 Care and Prevention of Athletic Injuries
- KIN 383 Exercise Physiology
- PSY 213 General Psychology

*Course not required for admission into the Master of Science in Athletic Training program, but if completed as a pre-requisite the course will satisfy the program course requirement ATR 512 Emergencies in Athletic Training

Master of Science in Athletic Training (53-36 units)
All students in the Master of Science in Athletic Training will complete fifty-three to fifty-six (53-56) units of core courses. The cumulative total for all Athletic Training Clinical Education courses must be at least 900 hours.

Core Requirements
- ATR 501 Athletic Training Clinical Education I - Modalities & Equipment
- ATR 502 Athletic Training Clinical Education II - Lower Extremity
- ATR 503 Athletic Training Clinical Education III - Upper Extremity
- ATR 504 Athletic Training Clinical Education IV - General Medicine
- ATR 506 Practicum in Athletic Training I
- ATR 507 Practicum in Athletic Training II
- ATR 508 Practicum in Athletic Training III
- ATR 509 Practicum in Athletic Training IV
- ATR 510 Therapeutic Modalities
- ATR 511 Functional Anatomy for Athletic Trainers
- ATR 512 Emergencies in Athletic Training
- ATR 515 Therapeutic Exercise & Rehabilitation
- ATR 525 Assessment of Lower Extremity Athletic Injury
- ATR 520 Evidence-Based Research in Athletic Training
- ATR 530 Assessment of Upper Extremity Athletic Injury
ATR  536  Nutrition and Wellness in Athletic Training  
ATR  540  Pathology of Injury and Illness  
ATR  545  Management and Professional Issues in Athletic Training  
ATR  550  Manual Therapy  
ATR  555  Therapeutic Interventions for Musculoskeletal Rehabilitation  
* Requirement may be satisfied with documentation of Emergency Medication Technician certification or completion of KIN 312.

KINESIOLOGY

Master of Science in Kinesiology (33-34 units)
All students in the Master of Science in Kinesiology will complete fifteen (15) units of core courses. Upon completing the core, students will follow an eighteen (18) unit concentration in either exercise science, physical education, or sport management.

Core Requirements (15 units)
KIN  500  Leadership in Kinesiology  
KIN  510  Ethics and Philosophy in Kinesiology  
KIN  550  Legal Aspects of Kinesiology  
KIN  570  Research Methods  
KIN  580  Research Project Seminar

Concentrations Requirements
Students must complete all requirements in one of the following concentrations:
Exercise Science; Physical Education; Sports Management

Exercise Science Concentration (15 units)
KIN  526  Musculoskeletal Exercise Interventions  
KIN  536  Clinical Exercise Physiology  
KIN  546  Sports Nutrition  
KIN  556  Movement Interventions for Chronic Disease  
KIN  576  Clinical Exercise Testing and Prescription

Physical Education Pedagogy Concentration (15 units)
KIN  501  Applied Pedagogy in Physical Education  
KIN  560  School Health Education  
EDU  514  Secondary Methods OR EDU 522 Curriculum Theory and Development  
EDU  515  Reading and Writing in the Content Area OR EDU 521 Theories of Learning and Teaching  
EDU  518  Classroom Management and Discipline OR EDU 542 Models of Teaching
Students in the physical education concentration will work with the program director to develop a program plan based upon prior coursework and academic interest.

Sport Management Concentration (15 units)
KIN  515  Managing Sport Programs  
KIN  535  Event and Facility Management  
KIN  545  Sport Marketing and Promotion  
KIN  565  Economics of Sport  
KIN  585  Field Experience I

Thesis/Comprehensive Exam Requirement (3-4 units)
Students must complete the comprehensive exam or thesis sequence for their declared concentration.

Exercise Science Thesis/Exam Requirement
KIN  594  Comprehensive Examinations and KIN 585 Field Experience I  
OR  
KIN  598  Thesis

Physical Education Thesis/Exam Requirement
KIN  594  Comprehensive Examination and 3.0 units of approved electives*  
OR  
KIN  598  Thesis  
*Approved electives include any graduate degree applicable course in kinesiology or education not previously applied to a degree requirement

Sport Management Thesis/Exam Requirement
KIN  594  Comprehensive Examinations and KIN 595 Field Experience II  
OR  
KIN  598  Thesis

<td>ATR 540</td>
<td>Pathology of Injury and Illness (3)</td>
<td>Fall</td>
<td>This course involves a systems approach to dealing with human disease. Fundamental etiology, progression, and epidemiology of injury, illness, and disease are discussed with a clinical emphasis. Pharmacology is studied as it relates to the field of athletic training. Included are the indications, contraindications, precautions, and interactions of medications and the governing regulations relevant to the treatment of injuries to and illnesses of athletes and others involved in physical activity.</td>
<td></td>
</tr>
<tr>
<td>ATR 545</td>
<td>Management &amp; Professional Issues In Athletic Training (3)</td>
<td>Spring</td>
<td>This course addresses the organizational, administrative, and professional aspects of athletic training care for the physically active. Topics include: leadership, management, and administrative styles, personnel concerns, facilities and equipment management, budgetary administration, medical records, insurance issues, medico-legal aspects, public relations, computer use, federal and state regulation, pre-participation physical evaluations, drug testing, ethical issues in sports medicine, and other current topics of concern in athletic training.</td>
<td></td>
</tr>
<tr>
<td>ATR 550</td>
<td>Manual Therapy (3)</td>
<td>Fall</td>
<td>Course Description: This course will familiarize the athletic training student with the theory, skills, and clinical application necessary to treat individuals with orthopedic dysfunction primarily related to soft tissue injury. Emphasis is placed on laboratory application and integration of theoretical constructs, evidence-based practice, examination, intervention, and measurement of outcomes.</td>
<td></td>
</tr>
</tbody>
</table>
ATR 555 Therapeutic Interventions for Musculoskeletal Rehabilitation (3) Spring
Course Description: This course emphasizes the theory and practice of therapeutic interventions utilized in athletic training. Focus will be applied to the application of physical, mechanical, and soft-tissue biomechanical principles in formulating a therapeutic intervention. Students will gain experience in identifying and utilizing organized and systematic clinical reasoning frameworks to improve clinical decision making expertise. Additional presentations will discuss the most recent clinical treatment applications discussed in the literature to treat the spectrum of the physically active population.

Kinesiology Course Descriptions

KIN 500 Leadership in Kinesiology (3)
This course covers the historical and philosophical roles of sport programs in education. Leadership theory will be applied to various physical activity roles within K-12 and higher education settings.

KIN 501 Applied Pedagogy in Physical Education (3)
This course is designed to improve teaching effectiveness by covering curricular, classroom management, assessment, and physical development issues for students of all ages.

KIN 502 Contemporary Health Issues (3)
Major areas include personal, family, and community health, including the effects of alcohol, dangerous drugs and narcotics, degenerative and infectious diseases, and tobacco on the human body. Exploration of community resources related to health issues is offered. Meets California Teacher Credential requirements. Crosslisted with KIN 302.

KIN 510 Ethics and Philosophy in Kinesiology (3)
This course studies contemporary and historical value systems in sport and the role of ethical leadership. Current ethical issues in modern sport and physical education are examined.

KIN 515 Managing Sport Programs (3)
This course covers various management issues including policy development and implementation, management style and philosophy, and human resource issues. Also covered will be the interaction of sport managers with governing boards, administrators, and constituents.

KIN 526 Musculoskeletal Exercise Interventions (3) Fall
This course examines the use of resistance and strength training in exercise programs. Topics include treatment of selected neuromuscular, orthopedic, and musculoskeletal diseases and dysfunction, as well as improvement of performance through musculoskeletal exercise.

KIN 535 Event and Facility Management (3)
This course will encompass a thorough conception of the planning and management of various athletic events and facilities. Class will periodically attend events outside of normal class hours, including weekends.

KIN 536 Clinical Exercise Physiology (3) Fall
This course is an advanced study of human physiological adaptations to exercise. Emphasis is placed on energy metabolism, energetics, and exercise training techniques. Clinical application of current research findings is stressed.

KIN 545 Sport Marketing and Promotion (3)
This course covers a variety of promotional and marketing strategies for sport programs and facilities ranging from high school athletics through professional sports.

KIN 546 Sports Nutrition (3)
This course provides a foundation in the science of exercise nutrition and bioenergetics. These foundational principles will be used in constructing sound nutritional recommendations as they apply to human physical activity and sports medicine. Current research concerning pharmacologic and nutritional ergogenic aids, disordered eating, fluid balance and thermoregulation, and body composition will be discussed.

KIN 550 Legal Aspects of Kinesiology (3)
This course provides an understanding of the American legal system and its response to sport related disputes. Material includes legal terminology, liability, risk management, personnel issues, Title IX, and various issues facing today’s teachers, coaches and athletic administrators.

KIN 556 Movement Interventions for Chronic Disease (3) Spring
This course examines the role of aerobic exercise in the prevention of rehabilitation of clients with various chronic diseases. Concepts in pathophysiology, disease etiology, and exercise interventions are discussed.
KIN 560  School Health Education (3)
School health education, drug and tobacco education, family living, community health, and safety education are mixed with teaching philosophy and current research to prepare the physical education teacher to teach health. Approved by the California Commission on Teacher Credentialing to meet requirements for the professional clear credential.

KIN 560L  School Health Education Lab (1)
Students will connect the content from the core lecture course with practice at the district, school, or classroom level through a problem-based learning experience. Pre- or Co-requisite: KIN 560.

KIN 565  Economics of Sport (3)
This course provides an introduction to the economic principles that influence athletic and sport organizations. Topics discussed include monopoly, economic impact analysis, budget preparation and related topics.

KIN 570  Research Methods (3)
This course provides an introduction to research methods designed to acquaint the student with reading and analyzing literature. Material will include basic statistics, quantitative and qualitative research methods.

KIN 576  Clinical Exercise Testing and Prescription (3) Spring
This course involves the study of the theoretical bases for exercise testing and the practical procedures used in pre-exercise screening and exercise testing. Students will learn how to interpret information from pre-exercise screening and apply this to the selection of appropriate exercises protocols. Evaluation of results from various exercise test protocols will be emphasized using a case-study approach.

KIN 580  Research Project Seminar (3)
This course provides the student with the opportunity to complete an original research project of either quantitative or qualitative design. Designed to deepen the student’s knowledge in an area of professional interest.

KIN 585  Field Experience I (3) Fall, Spring, Summer
Internship experience designed to provide the students with practical knowledge of sport related careers. Internship sites and duties are arranged by the student with the assistance and approval of the faculty advisor.

KIN 594  Comprehensive Examination (1) Fall, Spring, Summer
Required for students wishing to take a comprehensive examination to complete degree requirements for a Master of Science in Kinesiology. The course is not repeatable for credit. Students may retake the course once if the final examination is unsuccessful. Prerequisites: KIN 570 and program director permission. Pass/Fail.

KIN 595  Field Experience II (3) Fall, Spring, Summer
Internship experience designed to provide the students with practical knowledge of sport related careers. Internship sites and duties to be arranged by the student with the assistance and approval of the faculty advisor.

KIN 598  Thesis (3) Fall, Spring, Summer
This course provides an extended research experience for the student. Under the direction of a faculty chair and thesis committee, the student will conduct further empirical research after completing KIN 480 through the preparation and defense of a thesis. In the event the student does not successfully defend the end of the course, the student will retake the course the next semester it is offered. If the thesis defense is not successful after two attempts the student will meet with the program director and enroll in the comprehensive examination to fulfill the examination requirement. Prerequisite: KIN 570, 580, and department chair permission.

Courses beginning with the prefix EDU are listed in the School of Education sections of this catalog.
Graduate Program in English
The graduate program in English is designed to equip candidates with the skills, techniques, and qualities of leadership and scholarship required for professional and academic excellence. English Course Descriptions

ENG 500 Research and Writing in Literature and Language (3)
This course provides advanced study in grammar, writing and research techniques and styles.

ENG 501 Critical Theories and Traditions (3)
Students will become familiar with critical literary trends and traditions from the classic to the contemporary. A sequential survey of classical traditions will begin with Plato and move through literary criticism as practiced in the Renaissance, Romantic and modern eras. Contemporary trends will include Marxist criticism, formalism, structuralism and semiotics, post structuralism, feminist literary criticism, and reader-response criticism. Issues of canonicity and authorial intent will also be discussed.

ENG 510 Comparative Mythology (3)
Students will become acquainted with the discipline of mythology from a variety of perspectives: from augmenting basic cultural literacy and identifying deities and stories to investigating the philosophy and universalism of myths. The emphasis will be placed on Greek and Roman myths, but will also examine other mythologies such as Mesopotamian, Nordic, and Native American, and modern assimilations of myth into Western literature and film. This course blends literary content with teaching methods.

ENG 520 Narrative Literature and Theory (3)
Selected readings will examine underlying structures and values of different literary expressions. Class discussions, lectures, and reading assignments will provide opportunities and relevant theories within and beyond the course reading list.

ENG 523 Theory and Methods (3)
This course will focus on the application of linguistic theory in education. Students will be introduced to various teaching philosophies and methodologies, focusing on their application to language learning. Students will be familiarized with various movements in education and psychology such as behaviorism, cognitivism, social constructivism, and humanism. Students will be instructed as to how diverse language teaching methods have been informed by various educational movements and how these philosophies and methods take form in the second language classroom. This course will build on the concepts taught in ENG 563 but will focus more on second language learners both in ESL and EFL settings.

ENG 525 Non-Western Literature Seminar (3)
Examines literature from a particular non-Western culture or region of the world. The course may take a topical, canonical, critical or genre approach. Students should see the instructor for the current semester’s focus.

ENG 530 Multicultural Theory and Pedagogies (3)
Students will become acquainted with some of the methodologies, literatures, and pedagogical applications surrounding the multicultural perspective. The seminar will provide immediate applications to daily secondary teaching experiences and literary study. A significant portion of the course addresses strategies for working within the parameters of the secondary teaching situation to utilize existing materials toward the end of a multi-culturally sensitive curriculum.

ENG 540 Contextual Approaches to Grammar (3)
This advanced course will provide an in-depth look at grammar from a linguistic perspective. The purpose of the course is twofold: to provide students with a sound knowledge of English grammar from a linguistic perspective, and to equip students with an understanding of the relationship between the linguistic and grammatical approaches to language. Ultimately, students will be able to apply linguistic understanding to the teaching of grammar as prescribed by the California State Framework for English.
ENG 543  Teaching Second Language Writing (3)
This course prepares students to teach writing to second language learners, especially but not exclusively at the college level. Course materials and activities focus on current composition philosophy, research-based method and teaching techniques for collegiate level second language writing courses. At a minimum, this course is designed to introduce students to major theories, research, and practice in the teaching of English writing to second language learners. Thus, students should complete this course being able to do what ESL/EFL writing instructors do: design lesson plans for college composition; evaluate (read, respond to, grade, and assess) college level writing; and engage in research in at least one relevant issue in ESL/EFL composition pedagogy. This course should train students to be reflective practitioners and researchers of collegiate level English composition.

ENG 545  Teaching College Writing (3)
This course prepares students to teach college writing by introducing them to current composition philosophy and methods, major theories and research in the field, and practical application of teaching techniques for collegiate-level writing courses.

ENG 548  Tutorial Methods in Writing (1-3)
This course is designed to prepare students to tutor writing. Course materials and activities focus around current composition, learning, and tutoring theories. Students will apply theory, interning six hours in the Academic Resources Center (ARC) at CBU or another tutoring center with consent of the instructor.

ENG 549  Law and Literature (3)
This course examines the role and function of narrative in law, and the role and function of law in major works of literature, to understand better both law and literature. Focuses on techniques associated with reading literature to read, understand and interpret law.

ENG 550  British Literature Seminar (3)
A seminar designed to familiarize students with various periods of British literature. This course will take a topical approach to British literature of all genres in the context of the period’s historical, political, socioeconomic, cultural, and literary climate. Students should see the instructor for the focus of the current semester. May be repeated once with change in topic.

ENG 553  Second Language Curriculum Development and Assessment (3)
This course is designed for future ESL teachers who are interested in current thinking and research in second language material development and assessment and in the application of such in classroom teaching. There are two major goals: one is developing a solid understanding of the core issues in these areas and the other, which requires students to design their own materials and assessment tools and to evaluate existing ones, is facilitating the application of such an understanding in classroom teaching.

ENG 555  Shakespeare Seminar (3)
An in-depth study of selected Shakespeare plays and sonnets. The course may utilize a topical approach and may also incorporate other, non-Shakespearean texts. Students should see the instructor for the current semester’s focus.

ENG 560  American Literature Seminar (3)
A seminar designed to familiarize students with various periods of American literature. This course will take a topical approach to American literature of all genres in the context of the period’s historical, political, socioeconomic, cultural, and literary climate. Students should see the instructor for the focus of the current semester. May be repeated once with change in topic.

ENG 563  Language Structure and Acquisition (3)
Linguistic theory and methods. Includes the study of the five universal elements of language (phonology, morphology, semantics, syntax, and pragmatics) as well as the acquisition and use of language and its variants in culture. This course is required for both multiple subject and single subject credential candidates. Cross-listed with ENG 463. Ten (10) hours of fieldwork required.

ENG 565  Creative Writing Workshop (3)
Designed as a workshop for graduate students, this course invites expressions of individual creativity, originality, and social/cultural consciousness. Genres range from poetry, short story, play, and novella. Publication of original works strongly encouraged.
ENG 570  World Literature Seminar (3)
A seminar designed to familiarize students with various periods of World literature. This course will take a topical
approach to World literature of all genres in the context of the period's historical, political, socioeconomic, cultural, and
literary climate. Students should see the instructor for the focus of the current semester. May be repeated once with change
in topic.

ENG 573  Second Language Acquisition (3)
This course is an introduction to some of the major concepts and key issues (theoretical and methodological) in the area of
second language acquisition (SLA). During the first few weeks, the class will survey some of the major conceptual advances
in second language acquisition research. During the second half of the course, students will have many opportunities to
review seminal research articles and evaluate the findings of the research and their implications as applicable to the field of
SLA. Each student will also have the opportunity to design his or her own study in an area of SLA that interests him or her.

ENG 580  Film Theory (3)
A study of film theories from the turn of the 20th century onward, this course will examine how different film theories,
as part of a long-standing tradition of critical reflections on life and arts in general, evolve and interact with one another
and with neighboring discourses, nationally and internationally.

ENG 581  Topics in Film Studies (3)
Students will be exposed to the critical skills and practical knowledge needed to engage in a cross-cultural study of cinema
from a global perspective. Special attention will be given to the themes, techniques, genres, actors/actresses, directors, and
audience-receptions of the national cinemas of the culture under investigation. Approaches from different angles will be
encouraged, including those of cultural studies, arts, music, sociology, psychology, philosophy, business, education, as well
as language and literature. Students should see the instructor for the focus of the current semester.

ENG 582  Literature and Film (3)
Addresses issues surrounding the relationship between literature and film. Special attention will be directed toward the
deployment of cinematic texts in the English secondary context. Emphasis given to genre (such as the western), a movement
(such as Fourth Cinema), an auteur (such as Orson Welles), or a transgeneric logic (such as film noir).

ENG 594  Comprehensive Exam (1)
Required for students wishing to take a comprehensive exam in place of a thesis or project as part of course requirements
for a Masters degree in English. Students may enroll for a maximum of four semesters. Prerequisite: Permission of Program
Director.

ENG 596  Research Seminar (2)
Graduate students will become acquainted with research methods, trends, and critical issues in the study of literature and
language. It is assumed that students are already familiar with basic research tools available to the literature scholar. The
seminar will introduce students to the required elements of the Exam, Thesis or Project and equip students to conduct
scholarly research and produce scholarly papers and presentations worthy of publication in referred journals and other
professional forums. Students lacking basic research skills may be required to take ENG 350 as a program pre-requisite.

ENG 597  Project (1)
Continuing enrollment for students to complete a major project in this course as part of requirements for a Masters degree
in English. Students may enroll for a maximum of four semesters. Prerequisite: Permission of Program Director.

ENG 598  Thesis (1)
Continuing enrollment for students to complete a substantive thesis in this course as part of requirements for a Masters
degree in English. Students may enroll for a maximum of four semesters. Prerequisite: Permission of Program Director.

ENG 599  Special Topics (1-3)
Concentration upon a specific topic in the field of English. Topic varies for different semesters. May be taken multiple
times with change in topic.

Graduate Program in Counseling Ministry
The Master of Arts in Counseling Ministry degree at California Baptist University is designed for ministers, professional counselors, and others interested in church based counseling ministry. Students graduating with this degree will have the academic preparation for counseling, formally and informally, in a congregational setting, and the skills to direct and coordinate a counseling ministry within a congregation. The program emphasizes a sound understanding of behavioral science and pastoral approaches to counseling combined with a thorough understanding of Theology as a Behavioral Science.

The program can also be completed as a dual masters degree in Counseling Ministry and Counseling Psychology. The Dual Masters Program prepares students for professional licensing as an MFT and Ministry in the local Church as a Church Based Counselor.

Graduate Program in Counseling Psychology
The Master of Science in Counseling Psychology at California Baptist University is designed for those who wish to gain the theoretical knowledge and practical experience to counsel in a variety of settings. Catering to a diverse range of professional and personal goals, the MS in Counseling Psychology offers concentrations in Professional Counseling (for licensure), Professional Ministry and a concentration in Forensic Psychology. Additionally, the program can be paired with the Master of Arts in Counseling Ministry.

Students graduating with a Master of Science in Counseling Psychology with a Professional Counseling concentration will have completed a curriculum designed to meet the pre-2012 and post-2012 requirements for MFT licensing as mandated by the Board of Behavioral Sciences. The program emphasizes an understanding of human behavior based on psychological theory and practice, as well as scriptural principles. The graduate program relates academic studies to practical experience in both inpatient and outpatient settings. Students in the program will have the opportunity to receive clinical experience on campus and in other appropriate clinical settings.

In order to satisfy the academic requirements for the Licensed Professional Clinical Counselor (LPCC), the student must complete the Professional Counseling (MFT) program courses and additional LPCC courses.

Students choosing the optional additional Forensic Psychology concentration will be prepared to function as effective clinicians in a variety of professional counseling and forensic settings by completing the Professional Counseling (MFT) concentration courses and the additional Forensic Psychology concentration courses.

Students graduating with a Master of Science in Counseling Psychology with a Professional Ministry concentration will have completed the same core program but will have specific classes designed to train beyond the traditional clinical approach toward a relational application in the congregational context. Students in this concentration will not participate in a practicum and must presently hold ministerial credentials or have this program serve as the educational requirement for credentialing by their respective church or denomination.

See the Graduate Student Handbook available from the School of Behavioral Sciences for program details of all three concentrations.

Graduate Program in Forensic Psychology
The Master of Arts Degree in Forensic Psychology is designed to prepare graduates with the necessary skills and the knowledge base that will allow them to work in a variety of forensic settings including probation and parole, local, state and federal law enforcement agencies, offender treatment programs, and victim/witness assistance programs.

This program provides the student with a comprehensive view of the critical relationship between the legal system and clinical psychology, specifically focusing on the practice of psychology within the legal system.

The course of study is also designed to provide the student with an overview of the practice of forensic psychology; to understand the important issues in the field, to explore the critical relationship between the legal system and clinical psychology, and to better understand the relationship and application of psychological theories and practice to the field of law enforcement.

Students will complete an external practicum placement in the local community which will serve to hone the skills of students and enhance their knowledge of occupational and career opportunities available in the private and public sectors.

An abbreviated, complimentary version of this program can also be completed as an additional concentration within the Counseling Psychology Professional Counseling program. The Forensic Psychology concentration will prepare graduates to function as effective clinicians in a variety of professional counseling and forensic settings. Graduates of the concentration will have developed the skills, knowledge and experience to provide ethical and effective evaluation and therapeutic services in a variety of forensic settings. The program establishes an excellent balance between traditional counseling and a specialized understanding of the legal and judicial systems.

Graduate Program in Business Administration
The Master of Business Administration (MBA) is designed for today's professional who operates in a global and rapidly changing environment. The MBA addresses strategic opportunities produced by a global economy, entrepreneurial approaches to problem solving and capitalizing on new business ventures, as well as the growing need for ethical decision making.

Firmly grounded in traditional business theory and contemporary concepts, our MBA program is further enhanced by the incorporation of Judeo-Christian values, which yield a balanced, Biblical perspective on global integration and effective business practices.

A specialized concentration in accounting is offered as an option for students who have completed a bachelor's degree in accounting and need to complete additional semester hours of university level education for licensure by the state as certified public accountants (CPA).

The School of Business also offers the “Alumni MBA” for exemplary students from California Baptist University’s bachelor degree programs in business, accounting and marketing. This program offers an extraordinary opportunity to earn the MBA with fewer units than the professional MBA because it recognizes the breadth and high level of business skill and knowledge acquired in CBU's undergraduate business administration programs.

National Business Accreditation
In addition to California Baptist University’s WASC accreditation, the MBA program is professionally accredited by the Accreditation Council for Business Schools and Programs (ACBSP).

ACC 510 Contemporary Issues in Assurance (3)
This course will cover advanced topics of independent assurance services such as principles and concepts related to evidence, risk assessment, and testing. Topics may also include statistical sampling techniques, special purpose reports, non-audit attests engagements, and forensic accounting. Particular attention will be placed on current issues such as recent changes in the standards for accounting and review engagements. Prerequisite: Accounting concentration.

ACC 520 Advanced Topics in Management Accounting (3)
This course will build on the foundation laid in Cost Accounting and will explore additional topics in managerial accounting such as cost allocations and pricing decisions, balanced scorecard, management control systems, performance measurement, and other topics as developed. Prerequisite: Accounting concentration.
ACC 530  Taxation for Business Entities (3)
This course will focus on the federal tax implications of the formation, activity, and dissolution of business entities such as corporations, estates, trusts, and partnerships. This course will also incorporate techniques for tax planning and research. Prerequisite: Accounting concentration.

ACC 540  Advanced Topics in Financial Accounting (1)
This course will focus on contemporary issues in financial accounting such as the convergence of U.S. and International accounting standards, segment and international reporting requirements, SEC financial reporting, hedging of foreign currency risk, variable interest entities (VIEs), and other current accounting issues as developed. Course may be repeated twice for credit. Prerequisite: Accounting concentration.

Business Course Descriptions

BUS 505  Entrepreneurial Management (3)
This course introduces new enterprise formation and management from the perspective of the advanced-level manager. Some practical issues that are covered in detail include: market planning, business plan preparation, effective team building, and capital acquisition. The course also surveys the innovation-oriented department or strategic business unit of an ongoing and larger business, and offers an examination of the factors that enable an entire unit of a large organization to become more creative and dynamic.

BUS 509  Managing Across Cultures (3)
This course covers culture within the context of business communication: what it is, how it impacts business communication and its influence in today’s global workplace. The class is designed to develop the students understanding of their own culture, recognize unfamiliar cultures and understand how the different cultures impact business communication. The class will study the ramifications of intercultural business communication within today’s global companies.

BUS 512  Management Information Systems (3)
This course will build a basic understanding of the value and uses of information systems for business operation, management decision making, and strategic advantage. Thus, it will provide students with an understanding of the ways in which they can utilize information systems as end user managers. It concentrates on providing the tools needed for mastery of the information systems concepts and terms that are important to end user managers. This course is designed for business students who are not information systems majors, but who expect to be managerial end users on information systems.

BUS 515  Organizational Behavior and Leadership (3)
This course focuses on the relationships of individuals and groups within the organizational framework as it involves the nature, performance, and structure of organizational life. The course examines principles and methods in organizational behavior with special emphasis on integrating the Bible.

BUS 520  Managerial Ethics (3)
This course covers ethical reasoning as it applies to business situations. Specific topics include corporate social responsibility, bribery, affirmative action, cultural diversity, dispute resolution, consumer protection, employee rights, deception, advertising ethics, product safety, environment protection, and economic justice. The course develops an awareness of and appreciation for cultural diversity in the workplace. Prerequisite: BUS 358 Business Law or equivalent.

BUS 521  Management of Change (3)
This course examines change management as the planned application of behavioral science theory and practice to achieve increased effectiveness of the overall organization, as well as the sub-groups and individuals within the organization. The course adopts an organizational development perspective, studying the factors giving life to human systems so they can function at their very best. The course examines issues of organizational assessment and positive change and provides a solid foundation in: change management perspectives; theories and techniques as they relate to organizational, group, and individual dynamics; the change-management process; types and levels of organizational change; analysis of organizational performance; and forces supporting and inhibiting change.

BUS 525  Legal Issues for Management (3)
This course identifies the major areas of past and present government regulations impacting business. The emphasis is on the highly relevant legal mandates and restrictions affecting managers in all business sectors. Prerequisite: BUS 358 or equivalent.

BUS 530  Marketing Management (3)
The course curriculum offers formulation and implementation of effective, efficient, and ethical long-term and current plans for market development. This course introduces the substantive and procedural aspects of marketing, sharpens skills for critical analytical thinking, and promotes effective communication.
BUS 535  Economic Issues & Analysis for the Changing Business Environment (3)
This course surveys the many factors and considerations that pertain to the role of the individual firm in the free enterprise and market system. The survey includes techniques for analyzing industries, price elasticity, as well as business and economic cycles as follows: movements of interest rates, GNP growth, and economic indicators. Prerequisite: BUS 217 or 218.

BUS 539  Financial Management (3)
The course focuses on the application and development of management decision making and problem solving skills in the financial area. Specific topics of discussion include financial statement analysis, credit and operational risk, financial planning and budgeting, asset valuation, cash flow analysis and capital budgeting, and firm valuation from a value-based management and corporate governance perspective. Prerequisite: ACC 250 and 251.

BUS 542  Quantitative Business Modeling (3)
This course focuses in business computer applications for the manager. Computer models will be created to aid in forecasting, budgeting, and other decision-making processes. The emphasis will be placed on pro-forma financial statements as well as cash flow analysis. Prerequisite: Basic knowledge of Microsoft Excel.

BUS 545  Global Business Management (3)
This course focuses upon perspectives such as cultural, political, legal, and organizational issues in global business. The student considers the strategy of international diversification, management of multinational enterprises, international economic relations, comparative national systems and global economy.

BUS 547  Strategic Management (3)
Using the case analysis method, a course in which students learn the tasks of strategic management in the business firm: establishing an effective vision; setting strategic and financial objectives that are grounded in solid market data; forming and implementing an appropriate strategy; and evaluating organizational performance. With written, verbal, and presentation assignments, students develop the ability to identify, analyze, and make recommendations regarding strategic organizational problems in order to learn a variety of conceptual approaches to strategic thinking.

BUS 591  Professional Practice: Internship (3)
This course provides the student with a means to earn academic credit for applying in a functioning organization what they are learning in MBA courses. Once the student finds an internship opportunity, under the supervision of a manager at the host organization, the student gains practical experience in a position involving significant business or marketing activities, including the management and/or analysis of business decision situations. Before enrolling in the course, the student is to prepare, and receive approval for, a written plan of learning objectives. To receive 3 units credit, the student is to complete: a minimum of 120 contact hours on the internship; an internship journal of all days spent at the worksite; and a 20-page paper (to include at least 10 references) with a self-analysis component and a component analyzing the internship experience with respect to academic course work taken in the MBA Program. Prerequisites: Admission to MBA Program; completion of 12 units of MBA courses with a cumulative GPA of 3.0 or higher; consent of the MBA Program Director. No more than 6 units of internship may be applied towards the MBA degree. A student may not earn concurrent credit for more than one internship course.

BUS 592A  Career Practicum (1)
The career practicum is an alumni MBA program course designed for students to enhance their pursuit of career opportunities. The first course in a series of three, the course will allow the student to explore and discover the match between personality, personal strengths, and career choice. Pass/Fail.

BUS 592B  Career Practicum (1)
The career practicum is an alumni MBA program course designed for students to enhance their pursuit of career opportunities. The second course in a series of three, students will identify and research career opportunities in an area of interest. Pass/Fail. Prerequisite: BUS 592A.

BUS 592C  Career Practicum (1)
The career practicum is an alumni MBA program course designed for students to enhance their pursuit of career opportunities. The third course in a series of three, students will identify and research a career in their area of interest, and create a detailed written plan for obtaining a position in the chosen career. Pass/Fail. Prerequisite: BUS 592B.

BUS 596  Capstone Research Proposal (3)
This is an advanced research course directed at functional areas of a business enterprise. The requirement by the end of the course is an approved research proposal. Students must complete their research and report prior to degree completion.

Mission Statement

It is the mission of the Dr. Bonnie G. Metcalf School of Education of California Baptist University, a Great Commission University, to prepare professionals of high moral character and ethical behavior to serve throughout the world.

As part of the Great Commission, the faculty and staff are dedicated to their Christian responsibility outlined in Matthew 28: 19-20:

Go ye therefore, and teach all nations...and lo, I am with you always, even unto the end of the world.
Graduate and Teaching Credential Programs in Education

The graduate programs in education are designed to equip individuals with the skills, techniques and qualities of leadership required for professional excellence as classroom teachers, instructional leaders, curriculum developers, and administrators. The programs provide a purposeful balance between theory, practice, and research. Graduates will be prepared to identify their strengths and make choices regarding their future role in the profession. Knowledge of human growth and development, theories of learning, rationales for curriculum design and research methods will be blended to provide the appropriate preparation to allow these choices.

California Baptist University offers a Master of Arts and a Master of Science degree in Education and a state-approved teacher education program for the following credentials: Preliminary Single Subject and Multiple Subject with Internship options, Preliminary Administrative Services, and Education Specialist: Preliminary Mild/Moderate Disabilities with internship option, Education Specialist: Mild/Moderate Disabilities Level II, Pupil Personnel Services: School Psychology and Pupil Personnel Services: School Counseling, Preliminary Education Specialist: Moderate/Severe Disabilities with internship option and Education Specialist: Moderate Severe Disabilities Level II. California Baptist University is accredited by the Western Association of Schools and Colleges, and the School of Education credential programs are approved by the Commission on Teacher Credentialing. Students may complete a master’s degree, a credential program or both. The Graduate Program Advisor, Credential Program Advisors, and the Credential Analyst are available to assist in course selection, degree check and other academic information.

Teaching in the elementary classroom requires passing the appropriate state examination. It is recommended that students seeking a Single Subject Credential complete a BA/BS in the same subject area. Single Subject candidates may satisfy Subject Matter Competence by completing an approved academic program at the university, or by passing the appropriate state examination. Presently, the Credential Program includes three phases: prerequisites, professional coursework, and a culminating field experience.

The credential program’s offered by California Baptist University are state approved programs; therefore, are subject to revision at any time by state or federal law. The University and the Metcalf School of Education reserves the right to modify the credentialing requirements stated in this catalog when directed to do so by the Commission on Teacher Credentialing.

Since credential legislation and regulations are subject to change, it is the student’s responsibility to contact the School of Education about current regulations. Students are subject to any changes the state may impose until the candidate is fully credentialed.

Internship Credentials

University Internship Credentials are issued to individuals who have enrolled in Commission-approved internship programs. Candidates must complete 120 hours of classroom instruction and related fieldwork documented through written reports. These one-to-two year programs are administered by California colleges and universities in partnership with local school districts. University Internship credentials authorize the holder to serve, under the supervision of a commission-approved college or university and the holder’s employer, in the area or subject listed on the credential. California Baptist University sponsors university internship credentials in the following areas: Multiple Subject Teaching, Single Subject Teaching, Preliminary Education Specialist (Mild/Moderate Disabilities, Moderate/Severe Disabilities) and Pupil Personnel Services in School Psychology and School Counseling.

### CREDENTIAL PROGRAM

#### Preliminary Single Subject Credential

A Preliminary Single Subject Credential authorizes the holder to teach in a specific subject area in grades twelve and below, including pre-school, in classes organized primarily for adults, and in classes for English learners. The Preliminary Single Subject program recommends completion of an approved program in one of the subject areas taught in secondary schools. Credential requirements can be obtained from the School of Education Credential Program Advisors.

Single Subject candidates who have not completed an approved subject matter preparation program may qualify for the credential by achieving a passing score on the relevant subject area California Subject Examination for Teachers (CSET). A Certificate of Clearance must be secured prior to enrollment in courses requiring fieldwork. Prerequisite courses must be completed before beginning methods courses. Candidates must complete all requirements before applying for Student Teaching: Prerequisite courses, professional coursework, Passage of Basic Skills Requirements, negative TB test, Subject matter competency and TPA tasks. Prior to filing for a credential, passage of all TPA tasks and a current CPR certification covering infant, child, and adult, and U.S. constitution is required. The following units of professional education coursework are necessary to complete requirements for the Preliminary Credential:

**Prerequisite Requirements (12 units)**

- EDU 300 American Public School
- EDU 302 Growth, Development and Learning
- EDU 541 The Exceptional Child
- ETC 505 Educational Computing - Level I or CSET Preliminary Educational Technology

**Professional Coursework Requirements (21 units)**

- EDU 515 Reading and Writing in the Content Areas
- EDU 518 Classroom Management and Discipline
- EDU 519 Subject Area Specialization
- ENG 563 Language Structure and Acquisition
- ETC 520 Educational Computing - Level II
- KIN 502 Contemporary Health Issues

**Capstone Course Requirement (15 units)**

- EDU 580 Student Teaching and Seminar OR EDU 581
Preliminary Multiple Subject Credential

A Preliminary Multiple Subject Credential authorizes teaching all subjects, in a self-contained class in grades twelve and below, including preschool, in classes organized primarily for adults, and in classes for English Learners. The Preliminary Multiple Subject program requires completion of Subject Matter Competence via the CSET to ensure compliance with No Child Left Behind legislation.

Prerequisites to being admitted to the program are listed below. A Certificate of Clearance must be granted prior to enrollment in courses requiring fieldwork. Candidates must complete all of the following requirements before applying for Student Teaching: Prerequisite courses, professional coursework, Passage of Basic Skills Requirements, negative TB test, Subject matter competency and TPA tasks. Prior to filing for a credential, passage of all TPA tasks and a current CPR certification covering infant, child, adult, U. S. Constitution and RICA exam is required. The following units of professional education coursework are necessary to complete requirements for the Preliminary Credential:

**Prerequisite Requirements (12 units)**
- EDU 300 American Public School
- EDU 302 Growth, Development and Learning
- EDU 541 The Exceptional Child
- ETC 505 Educational Computing - Level I or CSET Preliminary Educational Technology

Education Prerequisite Course Descriptions

**EDU 300** American Public School (3)  
Fall, Spring, Summer  
Exploring the educational paradigm historically and philosophically, students survey curriculum practices, teacher effectiveness, learner needs of the public schools, and classroom management to understand the challenges of teaching today. Emphasis is placed upon cultural diversity and a dynamic society. Cultural Plunge plus ten hours of fieldwork are required. A certificate of clearance is required prior to engaging in fieldwork. Prerequisite for all other education courses.

**EDU 302** Growth, Development and Learning (3) I  
Fall, Spring, Summer  
This course is a study of human growth and development during the first two decades of life. Emphasis is placed on how teachers apply theoretical foundations of the learning process, cultural forces affecting behavior, testing, grouping of students, and inclusion. Fifteen (15) hours of required fieldwork. A certificate of clearance is required prior to engaging in fieldwork. Prerequisite for all other education courses.

Education Course Descriptions

**ART 515** Aesthetics and the Classroom (3)  
This upper division and graduate level course for the classroom teacher and liberal studies major. Studies assumptions we make about art, investigates our difficulties in understanding art, builds skill in perceiving and communicating about art, and connects lessons learned to practical classroom application.

**ECH 510** Characteristics of Infants to Preschoolers with IFSP/IEP (3)  
Fall, Spring  
This course offers the candidate an opportunity to explore the etiology and developmental characteristics of young children with exceptional needs. All categories of exceptionality will be surveyed including anomalies such as social/emotional imperceptiveness, communication delays, communicable diseases and attention deficit disorder. Candidates will study children with developmental delays or disabilities, children whose families are culturally and linguistically diverse, children from diverse socioeconomic groups, and other children with individual learning styles, strengths, and needs. This course fulfills one of four of the CTC ECSEAA courses. Prerequisite: Education Committee Acceptance.

**ECH 515** The Role of the Family ECSE (3)  
Fall, Spring  
The course is intended to provide opportunities for the candidate to demonstrate knowledge of family systems (within the context of ethnicity, culture, life experiences, and language diversity) and the central role of families in facilitating healthy growth and development. In addition, the candidate will develop an understanding of the impact of the child’s disability on the family and will be trained in the skills to sensitively elicit family’s concerns, priorities, and resources in relation to their child. This course fulfills one of four of the CTC ECSEAA courses. Prerequisite: Education Committee Acceptance.

**ECH 520** Assessment and Intervention: Birth to Pre-K (3)  
Fall, Spring  
This course is intended to provide the candidate with clear, accessible formal and informal assessment information plus practical skills and techniques for improving services for young children with special needs in home and classroom settings. This course fulfills one of four of the CTC ECSEAA courses. Prerequisite: Education Committee Acceptance.

**ECH 525** Instructional Strategies: Birth to Pre-K (3)  
Fall, Spring  
The course provides information and skill-building opportunities on curricula, instructional strategies, service environments, and staffing roles for teachers of young children, birth – pre-kindergarten with disabilities. Candidates will learn the background knowledge and preliminary skills needed for successful inclusion of children with disabilities in early childhood education settings. This course fulfills one of four of the CTC ECSEAA courses. Prerequisites: Education Committee Acceptance.

**EDL 522L** Spiritual Integration for Curriculum Theory and Development (1)  
The integration of Biblical teaching, concepts, and points of view into curriculum theory and development. Explicit spiritual formation and character development through the curriculum design. Prerequisite: Declared Educational Leadership for Faith-Based Institutions Specialization.

**EDL 530** Introduction to Educational Leadership (3)  
This course equips students to lead from multiple theories and establish best practices in educational leadership and introduces students to the ethical, legal, fiscal and administrative knowledge and skills required for effective school leadership.

**EDL 531** Philosophy of Education, Biblical Leadership, and Spiritual Integration for Faith-Based Schools (3)  
The course explores questions such as “What is a philosophy of Christian education? Why is it a valid question? How does one develop the scriptural case for a truly Christian education?” Scriptural models of Christian leadership and the spiritual integration of learning and faith are investigated. Prerequisite: Declared Educational Leadership for Faith-Based Institutions Specialization.
EDL 534  Program Evaluation and Development (3)
This course equips students with the knowledge and skills to lead comprehensive curricular program improvement. Students will develop strategies and techniques that use data to identify and assess areas for instructional improvement, design and implement plans to improve instruction for all students and develop systems for ongoing program improvement. Prerequisite: Declared Educational Leadership for Public Institutions Specialization.

EDL 535L  Spiritual Integration for Analysis of Teaching Behavior (3)
The integration of Biblical teaching concepts, and points of view into the analysis of teaching behavior. Teacher as spiritual model, mentor, and evangel and the explicit spiritual formation and character development. Prerequisite: Declared Educational Leadership for Faith-Based Institutions Specialization.

EDL 545L  Spiritual Integration for Supervision and Staff Development (1)
Administrator as spiritual model, mentor, and evangelist and the explicit spiritual formation and character development of staff and personnel. Prerequisite: Declared Educational Leadership for Faith-Based Institutions Specialization.

EDL 556  School Law and Finance (3)
This course equips students with the necessary knowledge of the laws and finance affecting students and schools and skills for implementing the law and developing and managing the school budget. Attention is given to role of the school administrator as a leader and manager of legal, financial, physical and human resources and obligations. Prerequisite: Declared Educational Leadership for Public Institutions Specialization.

EDL 557  Law, Finance, and Development for Faith Based Schools (3)
Legal issues and their administrative impact in Christian education regarding school policies, financial operations and development practices. Financial management, budgetary processes, and development plans. Prerequisite: Declared Educational Leadership for Faith-Based Institutions Specialization.

EDL 558  Governance, Policy and Community Relations (3)
This course equips candidates with the knowledge and skills that build productive relationships with various school constituents and mobilize necessary resources for all students to achieve. Candidates examine the relationships between national, state, and local political systems and the governance of public school systems and learn strategies for developing a school-community relations program. Prerequisite: Declared Educational Leadership for Faith-Based Institutions Specialization.

EDL 559  Faith Based Governance, Policy, Marketing, Community Relations, and Current Issues (3)
Governance, policy, and marketing issues in Christian education and their interrelations with a faith based philosophy of education and educational leadership. How school policies are initiated, researched, and created. Board, staff, volunteer, student, and parent, policy handbooks. Prerequisite: Declared Educational Leadership for Faith-Based Institutions Specialization.

EDL 560  School Site Leadership and Organizational Development (3)
This capstone course requires that candidates demonstrate mastery of the knowledge and skills required of ethical school site leaders. In addition, candidates integrate and synthesize knowledge and skills from previous courses in the administrative program into a coherent and comprehensive model to refine and guide their leadership practices. Prerequisite: Declared Educational Leadership for Public Institutions Specialization.

EDL 561  Management and Organizational Behavior for Faith Based Schools (3)
Christian models of management and organizational behavior for board, administration, staff, faculty, parents, students, volunteers, and community. Institutional and teaching models, assessment, accreditation, extra-curricular activities, and automation from a Christian worldwide perspective. Prerequisite: Declared Educational Leadership for Faith-Based Institutions Specialization.

EDL 580  Fieldwork (3)
Students demonstrate through structured field experiences in an elementary and secondary level school site the mastery of knowledge, skills and dispositions required of candidates for the California Preliminary Administrative Services Credential. Candidates synthesize their learning from the previous courses in the credential program and apply the principles and practices in the field to gain experience with the roles and responsibilities of a school site administrator. Candidates register for two 3-unit assignments to be performed at different sites. Graded on a Pass/Fail basis only. Prerequisite: Declared Educational Leadership for Public Institutions Specialization.

EDL 581  Fieldwork in Faith Based Schools (3)
Field study designed to give students an opportunity to perform duties and responsibilities of an administrator in a private, faith based school with special emphasis on explicit spiritual integration. Graded on a Pass/Fail basis. Prerequisite: Declared Educational Leadership for Faith-Based Institutions Specialization.
EDU 501 Leadership, Worldviews and Contemporary Issues (3) As offered
Students will evaluate a range of contemporary issues related to education from different leadership and worldview perspectives and develop a worldview and leadership philosophy. Students are equipped with a foundational understanding of worldviews and leadership so as to be informed catalysts for change in education environments.

EDU 502 Professional Interpersonal Communication (2-3)
The course provides students an opportunity to develop the requisite knowledge and skills to deal effectively with difficult interpersonal situations that emerge in the education profession. Students will develop resources to be proactive in establishing appropriate personal and professional boundaries, identifying problems and framing creative solutions, and managing conflict.

EDU 504 The History and Future of American Education (2-3)
The course evaluates the historical contexts and milestones that have left their imprint and continue to shape the American educational system. Students will evaluate trends in American education beginning from 1636 AD to the present in order to understand current educational practices and influence future educational policy.

EDU 505 Elementary Curriculum and Instruction: Math and Science (3)
This course prepares future teachers to meet the California State requirements for the Multiple Subject Credential in math and science and to equip diverse students with knowledge and methodologies necessary for the successful integration and teaching of these subjects. This course consists of the study of current best practice techniques and curriculum development used in teaching mathematics and science in the public schools. Emphasis is placed on effective instructional methods and evaluation procedures. A minimum of 20 hours of observation and participation in math and science classrooms is required with the purpose of providing students with opportunities to apply methods learned in this course to public school settings. Prerequisite: Education Committee Acceptance.

EDU 507 Introduction to Adult Education (3) As offered
This course focuses on the identification of principles and practices of adult learning, differences between adults and youth as learners, and a review of research on adult learning. The course investigates the physiological, psychological, and psychosocial changes in the adult life span and the implications these changes have for adult learning.

EDU 512 Teaching Language Arts and Social Studies (3)
This course prepares future teachers to meet the California state requirements for certification in language arts and social studies and to equip students with knowledge and skills necessary for the successful teaching of these subjects. It is a study of the scope, the organization, and the instructional procedures used to teach social studies and language arts. Students learn how to design and develop interdisciplinary units of study, how to write and assess instructional objectives, and how to organize and integrate social studies and language arts instruction for diverse learners in the public classroom. Twenty (20) hours of fieldwork is required. Prerequisite: Education Committee Acceptance.

EDU 514 Secondary Methods (3)
This course examines various research-based instructional techniques, planning strategies, methods, and assessment practices for the secondary schools, both public and private, are examined. Twenty (20) hours of structured observation is required, equally divided between the middle school and high school classroom. This course will introduce the California TPA process. Prerequisite: Education Committee Acceptance.

EDU 515 Reading and Writing in the Content Areas (3)
Focusing on the attainment of skills as a teacher of literacy, this course requires students to demonstrate content reading and writing competencies, such as determining levels of reading achievement, applying readability formulas, evaluating textbooks, and developing strategies for vocabulary, critical thinking, and comprehension. Focus is placed on the preparation of lessons which integrate language arts standards with other content standards and provide for differentiated instruction for diverse students including English learners. Twenty (20) hours of fieldwork required. Prerequisite: Education Committee Acceptance.

EDU 516 Teaching Reading and Phonics (3)
This course consists of the study of current best theories and practices in the teaching of listening, speaking, reading and writing in the classroom. Cultural and linguistic differences will be examined as they pertain to literacy instruction and communication. Phonics skills for teaching and learning will be stressed. Students will be required to spend two hours per week at an approved elementary school site observing, participating and tutoring students in reading. Approved by the California Commission on Teacher Credentialing for teacher preparation in comprehensive, balanced literacy instruction. Twenty (20) hours of fieldwork required. Prerequisite: Education Committee Acceptance.

EDU 517 Models and Methods of Adult Learning (3) As offered
This course evaluates a variety of models, methods, tools, and techniques employed in facilitating adult learning. The course equips students to structure learning activities for adult learners so as to maximize learning. Prerequisite: EDU 507.
EDU 518  Classroom Management and Discipline (3)
This course is a study of the techniques, procedures and discipline models that can help make the difficult tasks of managing and disciplining much easier. Students will learn how to establish and maintain a classroom environment where positive behavior support is practiced. The classroom will be free from coercion and punishment. Interventions will be positive, proactive, and respectful of students. The course will also examine classroom discipline dimension: teacher responses to inappropriate behavior, the differences between emergency interventions, on-going positive behavioral support, and age-appropriate least intrusive strategies. Students will evaluate a variety of behavior management methods including functional analysis assessment. They will design their own behavior plan based on functional behavior analysis. The course will aid special education and mainstream education teachers in maximizing educational experiences for all students, including those with serious behavior disorders. Ten (10) hours of fieldwork required. Required for both Multiple Subjects and Single Subject Credentials. Cross-listed as EDU 440. Prerequisite: Education Committee Acceptance.

EDU 519  Subject Area Specializations (3)
Working almost exclusively in small groups or one-on-one with the instructor, students focus only on the strategies and methods designed specifically for their subject areas. In addition to the 20 hours of observation required, divided equally between middle school and high school, students in this course will interact with students who are English language learners and complete at least one California TPA. Prerequisite: Education Committee Acceptance.

EDU 520  Current Issues Seminar (2)
Investigation of current problems and topics relative to research in curriculum and instruction as well as an introduction to the graduate programs in education. Recommended as the first course in the program.

EDU 521  Theories of Learning and Teaching (3)
Examination of principles of teaching that can be derived from psychological theories and research, including behavioral, cognitive, and social theories.

EDU 521L  Theories of Learning and Teaching (1)
Students will connect the content from the core lecture course with practice at the district, school or classroom level through a problem-based learning experience. Pre- or Co-requisite: EDU 521 and Declared Teaching and Learning Specialization.

EDU 522  Curriculum Theory and Development (3)
This course is an overview of curriculum from the societal level to the classroom level and the experiences of the learner. Provides opportunity to explore development of the school curricula, K-12; to examine philosophical bases for curriculum development; and to investigate procedures for organizing the curriculum for effective learning.

EDU 522L  Curriculum Theory and Development (1)
Students will connect the content from the core lecture course with practice at the district, school or classroom level through a problem-based learning experience. Pre- or Co-requisite: EDU 522 and Declared Teaching and Learning Specialization.

EDU 523  Applied Educational Statistics (3)
A foundational descriptive and inferential statistics course focusing on the interpretation and analysis of data. The course provides conceptual and procedural understandings of research in the field of education. The course will introduce a variety of statistical concepts and methods, and will evaluate, using statistical data, current issues and problems in education. Emphasis will be placed on using statistics as an effective tool for data-driven decision making, research, evaluation, and reports.

EDU 524  Issues and Trends in Public Education (3)
Examination of past, present, and future issues that have, are currently, and may impacts schools and education in America. The course is designed to stimulate reflective thought about the issues in education that a professional educator should be able to address in an articulate manner. Students are encouraged to identify topics of interest for continued study. Prerequisite: Declared Teaching and Learning Specialization.

EDU 524L  Issues and Trends in Public Education Lab (1)
Students will connect the content from the core lecture course with practice at the district, school or classroom level through a problem-based learning experience. Pre- or Co-requisite: EDU 524 and Declared Teaching and Learning Specialization.

EDU 525  Survey of Educational Research (3)
An introduction to research methods in education. Provides opportunity to develop skill in interpreting research literature; to become acquainted with sources of research literature; to develop an understanding of the methodology of educational research; and to become a critical reader of research reports. An emphasis on the teacher as researcher will provide a basis for assignments.
School of Education

EDU 526  Applied Educational Research (3)
This course introduces the variety of the most common research design methods that are effective and appropriate for use in the educational setting to assess program effectiveness, student learning, intervention efficacy and the analysis of data. Candidates will develop skill in interpreting research literature; becoming acquainted with sources of research literature; developing an understanding of the methodology of educational research; becoming a critical reader of research reports; and gaining a basic knowledge of statistics. An emphasis on the teacher as a researcher will provide a basis for assignments. Students will design, research, and complete an action research project as the culminating assignment for EDU 526L, the accompanying lab course. This project may be a continuation of action research begun in EDU 524/524L. Prerequisite: Declared Educational Leadership for Public Institutions Specialization or Teaching and Learning Specialization.

EDU 526L  Applied Educational Research Lab (1)
Students will connect the content from the core lecture course with practice at the district, school or classroom level through a problem-based learning experience. Pre- or Co-requisite: EDU 526 and Declared Teaching and Learning Specialization.

EDU 527  The History and Future of Higher Education in America (3)
This course evaluates a variety of historical stands and milestones that have left their imprint on the American educational systems, with an emphasis on community colleges. Students will evaluate current educational practices in light of the past and respective implications for future educational policy and practices. Students will develop a holistic understanding on the role of education in contemporary society so as to implement lasting and systemic change that benefits students and society.

EDU 530  Cultural Anthropology for Educators (3)
A study of the cultural factors that affect human behavior. Topics include language, art, religion, subsistence and cultural change. Approved by the California Commission of Teacher Credentialing to satisfy requirements for CLAD certification.

EDU 531  Comparative Worldviews and Education (2)
This course evaluates different worldviews and their corresponding implications for education. Students will evaluate different belief systems in relation to their own, explore the nature of truth and reality, and compare educational systems associated with different beliefs. Students will refine their own worldview and identify best practices for education based upon international comparisons.

EDU 532  Introduction to Leadership and Change (2)
This course equips students to lead from multiple theories and established best practices in leadership and introduces students to the political and ethical knowledge and skills to facilitate positive change.

EDU 533  Intercultural Competence (3)
This course provides opportunities to investigate theories and models of intercultural competence in communication, relationship building and adaptation/transition across cultures for the purpose of equipping students for service in multinational school communities. This course provides the opportunity for students to read, think, talk and write broadly and deeply about intercultural issues. Through exposure to a range of ideas and issues related to intercultural competencies you are prepared to navigate the barriers of successful intercultural interaction.

EDU 534  International and Comparative Education (3)
This course examines K-12 educational systems in the global society. Students will compare schooling in various societies and examine the history of their respective educational systems and how the systems were organized to meet the political, social and economic agenda of the 21st century. By examining different approaches to common problems, students will have a broad foundation upon which they can analyze and evaluate different strategies for problem solving educational issues. Students will develop their personal worldview of international education based on a Judeo-Christian worldview.

EDU 537  Course and Program Development and Evaluation (3)
This course examines the issues and models associated with developing courses and academic programs that promote student engagement and learning. Student will develop necessary strategies and skills to design and implement course and program improvement plans and effectively manage resources to accomplish course and institutional objectives.
EDU 541 The Exceptional Child (3)  
The nature, determinants, adjustments, and problems of persons who have cognitive gifts and talents, cognitive delays, physical disabilities, learning disabilities, and who have emotional or behavior disorders will be studied in conjunction with appropriate educational interventions in the mainstream classroom and other settings. The course will acquaint students with (a) characteristics and needs of children with disabilities that affect learning, (b) methods of assessing disabilities, (c) components of the Individual Education Program (IEP), (d) instructional strategies and materials including those appropriate for English language learners, (e) positive behavior support, (f) special needs of families of learners with disabilities, (g) agencies and professional supporting learners with disabilities, and (h) legislation, including Public Law 94-142, IDEA (Part B and Part H), the American Disabilities Act (ADA), and the Rehabilitation Act of 1973 (“Section 504”), as well as subsequent amendments relevant to special education. Ten hours of fieldwork is required. A certificate of clearance is required prior to engaging in fieldwork. Approved by the California Commission on Teacher Credentialing to meet requirements for the credential.

EDU 542 Models of Teaching and Learning (3)  
Students explore varied strategies of instruction from four families of teaching models: behavioral, social, personal, and information processing. Students will identify and study sixteen unique models of teaching, which provide the student with a wide repertoire of teaching models for classroom practice. Students examine relationships among theories of learning and instruction as well as various instructional alternatives. Prerequisite: EDU 300, EDU 302, and teaching experience or permission of the instructor.

EDU 542L Models of Teaching (1)  
Students will connect the content from the core lecture course with practice at the district, school or classroom level through a problem-based learning experience. Pre- or Co-requisite: EDU 542 and Declared Teaching and Learning Specialization.

EDU 544 Personnel Leadership and Development (3)  
This course equips candidates with the knowledge and skills for attracting, selecting, developing, evaluating and retaining quality and competent faculty and staff. Students also develop competencies in managing employee problems and due process. Prerequisite EDL 530 and Declared Educational Leadership for Public Institutions Specialization.

EDU 543 Integrating Visual/Performing Arts and Physical Education into the Elementary Classroom (2)  
This course is an introductory methods course for students seeking a career in education. This course is a study of the Visual and Performing Arts and the Physical Education California Frameworks. Integrating Visual/Performing Arts and Physical Education into the Elementary Classroom will focus on understanding California’s goals for teaching elementary age students non-core curriculum content. This course will focus on appropriate instructional and assessment goals. This course will also include strategies for teaching non-core content in settings heavily impacted by state assessments and pacing guides. Six hours of observation and four hours of teacher aiding are required. Prerequisites: EDU 300 and 302.

EDU 545 Multiethnic Literature for Children and Young Adults (3)  
Students will focus on the identification and study of literature written by and about ethnic minorities in the United States. The course also provides an in-depth study of a variety of books appropriate for use in the classroom. Prerequisite: A course in children’s literature recommended.

EDU 546 Analysis of Teaching Behavior (3)  
This course is a systematic study of the teaching process, in which candidates examine research methodology used to analyze teaching, the current knowledge of the association between teaching processes and student learning, and the implications of the research for the classroom. Prerequisite: Declared Educational Leadership for Faith-Based Institutions Specialization.

EDU 548 Multiethnic Education (3)  
A course to help in-service educators clarify the philosophical and definitional issues related to pluralistic education, derive a clarified philosophical position, design and implement effective teaching strategies that reflect ethnic and cultural diversity, and prepare sound guidelines for multicultural programs and practices.

EDU 550 Bilingual Issues and Methods (3)  
This course provides an in-depth study of the legal, ethical, social and cultural issues surrounding the field of bilingual education. Students will study and develop methods of delivering academic content in English in order to provide bilingual students with equal access to the curriculum.

EDU 550L Bilingual Issues and Methods (1)  
Students will connect the content from the core lecture course with practice at the district, school or classroom level through a problem-based learning experience. Pre- or Co-requisite: EDU 550 and Declared Teaching and Learning Specialization.
EDU 554  Teaching the Gifted and Talented: Nature and Needs of Gifted Children (3)  
A study of the nature and needs of gifted and talented children in the school setting will be examined. Models of human intelligence, including Multiple Intelligences Theory, and ways to identify and serve talented students in diverse populations, including American Indian children, will be addressed. Prerequisite: Education Committee Acceptance.

EDU 557  Teaching and Learning in the Digital Age (3)  
The course examines the role and uses of technology and learning for adults. Candidates will play (experiment) with a variety of interactive technology and develop exemplars on how the respective technology can be used to enhance student learning and engagement. Students will complete several teaching projects using technology that they will share with their peers.

EDU 558  Teaching and Learning in the Digital Age (3)  
As offered

EDU 565  Multiple Intelligences in the Classroom (3)  
An understanding of Gardner’s Theory of Multiple Intelligences and how to put it to use in the classroom is the focus of this course. Class presentations will include an exploration of the theory and its relationship to the human brain, ways in which MI theory can assist teachers in developing curricula, choice of teaching strategies, and improvement of the classroom environment.

EDU 566  Effective Intervention and Collaboration (3)  
Students will (a) become familiar with statutory provisions of the Individuals with Disabilities Education Act (IDEA), subsequent changes in the act, and any new, relevant statutory requirements; (b) discuss the statutory and/or local provisions relating to the education of students who are gifted and talented; (c) demonstrate the ability to create a positive, inclusive climate for individualized, specialized instruction and the assessment of students with special needs and/or abilities; and (e) demonstrate the use of instructional strategies to provide students with disabilities appropriate learning opportunities to master grade level state-adopted academic content standards for students at high performance levels.

EDU 580  Student Teaching and Seminar (15)  
Teaching experience in the public school under guidance of University supervisor with cooperation of a master credentialed teacher in the public school. Open to Multiple Subject and Single Subject credential candidates who have been accepted by the Teacher Education Committee and who have been cleared for student teaching. Weekly seminar accompanies student teaching. Prerequisite: Education Committee Acceptance and Program Advisor Permission. Non-Degree Applicable.

EDU 581  Internship and Seminar (15)  
Within the intern’s classroom, the intern will work with a university supervisor. This is open to all multiple or single subject candidates who are under contract with a public school district and have been accepted by the Teacher Education Committee. Weekly seminar accompanies the internship. Prerequisite: Education Committee Acceptance and Program Advisor Permission. Non-Degree Applicable.

EDU 582  Internship Practicum (2)  
Provides weekly supervision for Student Interns who are completing coursework for the Preliminary Teaching Credential in elementary, secondary, or special education. Weekly meetings with a University Supervisor and satisfactory performance is on a pass-fail basis. A grade of F is reason for dismissal from the Intern program. Credit earned in the Internship Practicum is non-degree applicable. Enrollment in this course is required each semester until the final semester of student teaching. Prerequisite: Education Committee Acceptance and Program Advisor Permission.

EDU 585  International Education Practicum (1-3)  
Experience in International Education: Candidates will collaborate with the Professor to develop an International Education Applied Research project to take place in an international setting. The Practicum concludes the program and will require approximately 40 hours of exposure per credit hour, and candidates are required to take a minimum of 3 units. With the approval of the instructor more units may be offered depending on the complexity of the research topic. Prerequisites: EDU 531, 532, 533, 534.

EDU 594  Comprehensive Exam (0)  
Registration in EDU 594 is required for students wishing to take a comprehensive exam to complete degree requirements for a Master of Education degree. Prerequisite: Program Advisor Permission.

EDU 595  Special Topics (1-3)  
Focuses on special subjects of interest to current teachers. May be repeated for credit.

EDU 596  Research Seminar (3)  
The seminar requires students to engage in preparation, evaluation, development, and presentation of curriculum research proposals culminating in a graduate project or thesis. Individuals and groups will participate in critiquing proposals, curriculum projects, and research results. Prerequisite: EDU 525 and Program Advisor Permission.

EDU 597  Project (1)  
Continuing enrollment for those not completing a project while enrolled in EDU 596. Prerequisite: Program Advisor Permission.
EDU 598  Thesis (1)
Continuing enrollment for those not completing a thesis while enrolled in EDU 596. Prerequisite: Program Advisor Permission.

EDU 599  Independent Graduate Research (1-3)
This is an independent inquiry into a topic not currently available in regular program offerings.

ETC 505  Educational Computing - Level I (3)
A study of a variety of applications of computers within the curriculum to improve learning and educational opportunities. Includes software evaluation, selection, and use of various computer-based applications. Required as a prerequisite for all Educational Technology courses. This course is a prerequisite for all credential candidates.

ETC 510  Foundations/Research in Educational Technology (3)
An introductory course emphasizing historical, philosophical, psychological and sociological foundations of educational technology. Students will also examine and critique different types of research studies in educational technology. Prerequisite: ETC 505.

ETC 515  Selection and Utilization of Instructional Media (3)
This course will investigate the selection, utilization, and evaluation of instructional materials to improve learning and communication. Basic instructional development techniques are learned to develop microteaching sessions. Prerequisite: ETC 505.

ETC 515L  Selection and Utilization of Instructional Media Lab (1)
Students will connect the content from the core lecture course with practice at the district, school or classroom level through a problem-based learning experience. Pre- or Co-requisite: ETC 515 and Prerequisite: Declared Teaching and Learning Specialization.

ETC 520  Educational Computing - Level II (3)
This course explores the integration of computer technology into the school curriculum. Computer-assisted instruction, computer-managed instruction, teaching strategies using computer technology, emerging technologies, and issues related to the use of the internet are addressed in the course. Required course for Multiple and Single Subject credential candidates. Prerequisite: ETC 505.

ETC 520L  Educational Computing - Level II Lab (1)
Students will connect the content from the core lecture course with practice at the district, school or classroom level through a problem-based learning experience. Pre- or Co-requisite: ETC 520 and Declared Teaching and Learning Specialization.

ETC 525  Instructional Design and Development (3)
This course emphasizes the application of instructional development principles and procedures. Students explore the process of instructional development and develop an instructional design. Development and evaluation of the instructional designs are emphasized. Prerequisite: ETC 505.

ETC 530  Technology Management Issues (3)
This course focuses on the design and management of technology facilities, introduces networking basics, grant-writing issues, and includes an overview of distance education foundations. Prerequisite: ETC 505.

ETC 535  Internet for Educators (3)
This course provides an overview of approaches to using telecommunications and the Internet for educational goals. Students utilize various tools to develop home pages for the World Wide Web. Prerequisite: ETC 505.

ETC 545  Introduction to Interactive Multimedia Design (3)
This course focuses on the foundations, design, and development of interactive multimedia. Students will learn how to incorporate sound, video, text, graphics and still images into a learning package. Prerequisite: ETC 505.

ETC 550  Advanced Interactive Multimedia Design (3)
This advanced course focuses on the systematic design and development of interactive multimedia. The course emphasizes planning, designing, and developing more complex instructional designs in a multimedia format. Prerequisites: ETC 505, ETC 535, and ETC 545.

ETC 555  Educational Desktop Publishing (3)
This course explores the educational uses of desktop publishing software. Projects such as handouts, newsletters, and student desktop publishing activities are required. Techniques, uses, curriculum integration, and vocabulary of desktop publishing are the primary focus. Prerequisite: ETC 505.

ETC 595  Internship in Educational Technology (1-3)
Students are assigned to work as field trainees in school media centers or in other appropriate settings under joint supervision of a designated supervisor and university faculty. Requires approval of program director.

Twenty (20) hours of fieldwork required. Prerequisite: Declared School Psychology Specialization.
RDG 530  Mechanics of Reading and Writing (3)
Hands-on methodology instruction for teachers in areas such as decoding, spelling and structural analysis. This class features an examination of numerous commercial programs that have been promoted to increase reading ability through phonics instruction. Software programs are also examined and evaluated. Comprehensive instruction in the writing process and application for classes across the curriculum will be included. Prerequisite: EDU 515, 516, and Declared Reading Specialization or Reading Certificate.

RDG 535  Diagnosis of Reading Problems (3)
This course examines diagnostic procedures and techniques used to determine reading problems. Methods of reading instruction, to include linguistic and phonics approaches, will be examined and prescriptive plans for the improvement of reading will be taught based on ongoing assessment. Prerequisite: EDU 515, 516, RDG 530, and Declared Reading Specialization or Reading Certificate.

RDG 536  Diagnosis of Reading Problems Fieldwork (3)
A weekly seminar and 45 hours of fieldwork are required for this course. Fieldwork is focused on bridging components of theory and practice in the diagnosis and remediation of reading problems in settings which provide a balanced, comprehensive reading program for all learners. May be taken concurrently with RDG 535. Prerequisites: EDU 515, 516, RDG 530, and Declared Reading Certificate.

RDG 538  Advanced Assessment and Intervention Strategies in Reading and Language Arts (3)
This course is designed to enable teachers to gain advanced knowledge and skill in the use of assessment and evaluation techniques and to develop alternative intervention strategies based on sound theory and research with all learners. May be taken concurrently with RDG 535 and 536. Prerequisites: EDU 515, 516, RDG 530 or special permission of the program coordinator.

RDG 540  Models and Processes of Teaching Reading (3)
An examination of the theoretical models and processes involved in teaching reading. Special emphasis on linguistic, perceptual, affective and cognitive components of reading as well as historical trends, factors affecting reading achievement and implications for instruction. Prerequisite: EDU 515, 516, RDG 530 or special permission of the program coordinator.

RDG 590  Clinical Experiences in the Teaching of Reading (4)
Clinical (4 units) experience to involve diagnosis of individual reading problems, the guided design of prescriptive plans to meet the needs of individual clients and a supervised implementation of remediation techniques for the improvement of client reading deficiencies. Prerequisites: RDG 530, 535, 540, and Declared Reading Specialization.

RDG 595  Special Topics in Reading Instruction (2)
The examination of research in areas such as Emergent Literacy, Vocabulary Acquisition, Comprehension, Discourse Analysis and Cognitive Processing models. Focus will be on interpretation of reading and language arts research as it relates to practice. The Internet will be used to access professional reading organizations and current investigations in reading. Prerequisite: Declared Reading Specialization.

SPE 520  Transition and Career Planning (1)
Candidates will demonstrate the knowledge and ability to implement factors associated with successful planning and implementation of transitional life experiences. They will collaborate with personnel from other educational and community agencies to plan for successful transitions for students. Prerequisite: Education Committee Acceptance.

SPE 520F  Fieldwork: Transition and Career Planning (1)
The course requires completion of CFASST Events 7 and 9 or equivalent activities. In Event 7, candidates will record and analyze critical information about students, examine the organization and resources of the school, district, and community, identity levels of English proficiency and primary language function in English learners, and examine student assessment data and academic achievement information in a selected content area. Event 9 requires candidates to investigate prior student achievement in their content area of emphasis, use long-term planning skills to create a series of five lessons designed to increase student learning of the selected standard, be observed teaching two lessons, evaluate student work, reflect on it, and discuss conclusions in a conference with the District Support Provider Prerequisite: Education Committee Acceptance.

SPE 530  Professional Induction Seminar (1)
Candidates will extend their knowledge of general and special education responsibilities in schools in order to build in-depth knowledge of defined areas of interest. The Professional Induction Plan designed in this course outlines how the assessed needs of each candidate will be met and identifies specific activities for facilitating professional development. Prerequisite: Education Committee Acceptance.
SPE 531F  Professional Induction Fieldwork (1)
Candidates will complete CFASST Events 1 and 6, or approved equivalent activities. Event 1 requires candidates to complete a focused examination of the educational context where they teach and to identify characteristics that affect their daily teaching. They will reflect on their findings with a District Support Provider. Event 6 requires candidates to reflect on the first year of teaching, to summarize major areas of growth, and to select significant work to share with colleague at a Colloquium. Prerequisite: Education Committee Acceptance.

SPE 546  Applied Behavior Analysis (3)
The course focuses on developing an educational approach to supporting positive academic and social behaviors in the classroom and community using the principles of Applied Behavior Analysis (ABA). Specifically, students will be presented with the concepts of reinforcement, punishment, stimulus, control, shaping, and fading as they are applied to increasing or decreasing academic and social behaviors. Students will also be presented with information regarding functional assessment, behavior support and behavior intervention plans, and laws (federal and state) governing behavioral issues related to individuals with special needs. Fieldwork required.

SPE 550  Research in Special Education (1)
Candidates will demonstrate the knowledge and ability to read and apply current and emerging research on best practices as well as maintain currency on educational policies that affect their professional practice. Prerequisite: Education Committee Acceptance.

SPE 551  Introduction to Autism: Characteristics and Interventions (3)
This class is an introduction to the field of autism. It focuses on the foundations and characteristics of autism spectrum disorders and presents up-to-date evidence-based best practices for teaching students with ASD. Fieldwork required.

SPE 553  Educational Assessment for Special Education (3)
This course will introduce students to specific assessment and educational testing techniques, strategies, and instruments appropriate for use in identifying and placing special education students, measuring learning progress, and reevaluating learning needs. It will include legal and ethical considerations in assessment; basic concepts of measurement; and ethnic and cultural aspects of assessment. Other areas to be covered are: assessment of specific domains such as intelligence, sensory acuity, oral language, perceptual-motor skills, personality, and academic achievement, assessment of young children, teacher-made tests, and application of assessment information in decision-making. 20 hours of fieldwork is required for this course. Prerequisite: Education Committee Acceptance.

SPE 555  Collaboration, Consultation, and Effective Intervention (3)
This course will focus on the basic aspects of effective communication between special education professionals and others involved in the education and care of individuals with disabilities, including parents and family members. Special education teachers will acquire methods for effective team-building, knowledge of community resources, and advocacy. They will learn how to promote self advocacy for persons in special education. 10 hours of fieldwork is required for this course. Fieldwork required. Prerequisite: Education Committee Acceptance.

SPE 556  Teaching and Learning Strategies for Students with Autism Spectrum Disorder (3)
This course provides an overview of interventions and strategies used for individuals with Autism Spectrum Disorders. Fieldwork required.

SPE 560  Advanced Curriculum, Instruction, and Assessment (1)
Candidates will acquire the knowledge and skills to teach, adapt, modify, and integrate curriculum appropriate to the educational needs of students with mild and moderate disabilities. Prerequisite: Education Committee Acceptance.

SPE 561F  Fieldwork: Advanced Curriculum, Instruction, and Assessment or approved non-university activities (1)
Candidates will complete CFASST Events 2, 3, 4, and 5, or equivalent activities. Event 2 requires candidates to implement a new approach in the classroom, track changes, reflect on them, and confer with their District Support Provider to identify their current level of practice. Event 4 requires candidates to assess student performance, reflect on their findings, and complete a closure conference to assess current practice on the three elements of Standard 5 (Assessing Student Learning) of the California Standards for the Teaching Profession. Events 3 and 5 are profiles of practice requiring structured observations by the District Support Provider and subsequent assessment of their level of practice. Candidates will consider their level of practice, school or district priorities, and other challenges in order to prepare a plan of professional development in an area they have targeted for growth. The Individual Induction Plan (IIP) prepared by all candidates will assist the District Support Provider in determining the best focus for candidate efforts in completing CFASST. Prerequisite: Education Committee Acceptance.
SPE 562F  Fieldwork: Advanced Curriculum, Instruction, and Assessment or approved non-university activities (1)
Candidates will complete CFASST Events 9 and 11, or equivalent activities during their second CFASST year. Event 9 requires candidates to investigate prior student achievement in their content area of emphasis, use long-term planning skills to create a series of five lessons designed to increase student learning of the selected standard, be observed teaching two lessons, evaluate student work, reflect on it, and discuss conclusions in a conference with the District Support Provider. Event 11 requires candidates to analyze student learning over time, reflect on a summative assessment of student learning, draw conclusions about teaching effectiveness, and discuss findings in a conference with the District Support Provider. Prerequisite: Education Committee Acceptance.

SPE 568  Teaching Students with Moderate/Severe Disabilities: Instructional Strategies (3)
Instructional strategies for students with moderate/severe disabilities. Includes assessment, curriculum adaptations, curriculum delivery, and program evaluation. Topics include, functional academics, communication skills, behavioral issues, and accessing the core curriculum. Prerequisite: Education Committee Acceptance.

SPE 569  Teaching Students with Moderate/Severe Disabilities: Community Integration (3)
Integrating students with moderate/severe disabilities into the community. Includes social networks, social skills, community based instruction, movement, mobility and specialized health care. Prerequisite: Education Committee Acceptance.

SPE 570  Advanced Behavior and Environmental Support (1)
Candidates implement systems to assess, plan, and provide academic and social skill instruction to support students with complex behavioral and emotional needs (Standard 14). They work with educational, mental health, and other community resources in the ongoing process of designing, implementing, evaluating, and modifying identified supports to ensure a positive learning environment (Standard 14). Prerequisite: Education Committee Acceptance.

SPE 571F  Fieldwork: Advanced Behavior and Environmental Support or approved non-university activities (1)
Candidates complete CFASST Event 7 or approved equivalent activities. They record and analyze critical information about students, examine the organization and resources of the school, district, and community, identify levels of English proficiency and primary language function in English learners, and examine student assessment data and academic achievement information in a selected content area. Prerequisite: Education Committee Acceptance.

SPE 580  Student Teaching in Special Education (8-15 units)
Teaching experience in the public school under guidance of a University Supervisor with cooperation of a credentialed Master Teacher. Open to credential candidates who have been cleared for student teaching. Weekly seminar accompanies student teaching. Non-Degree Applicable. Prerequisite: Education Committee Acceptance and Program Advisor Permission.

SPE 581  Internship and Seminar (15)
Intern teaching experience in the public school under the guidance of a University Supervisor while employed by a public school district. Open to credential candidates who have been cleared for student teaching. Weekly seminar accompanies student teaching. Non-Degree Applicable. Prerequisite: Education Committee Acceptance and Program Advisor Permission.

SPE 582  Internship Practicum (2)
Provides weekly supervision for Interns who are completing coursework for the Preliminary Teaching Credential in elementary, secondary, or special education. Weekly meetings with a University Supervisor and satisfactory performance is on a pass-fail basis. The seminar focuses specifically on tools, techniques, materials, and strategies that promote effective instruction in the classroom. The course is designed to address specific classroom occurrences as they take place during the school year (i.e. September – setting up the classroom, keeping a lesson plan book and assessing student needs; October – determining grades, and; November – holding parent meetings). A grade of F is reason for dismissal from the intern program. Credit earned in the Internship Practicum is non-degree applicable. Enrollment in this course is required each semester until the intern has completed and has filed for the preliminary credential. Prerequisite: Education Committee Acceptance and Program Advisor Permission.

SPE 590  Diagnostic and Remedial Techniques in Reading (4)
This course will focus on the various causes of reading disabilities, including severe visual and phonological dyslexia; formal and informal methods for diagnosing reading problems; and the application of the results of assessment in IEP design. Instruments such as the Wide Range Achievement Test, Informal Phonics Inventory, Fry’s High Frequency Sight Word Test, the Johns Informal Reading Inventory, and the Woodcock Reading Inventory will be covered. Students will also examine various instructional procedures, strategies, and materials for remediating reading disabilities in students in special educational classrooms and mainstream classrooms. A clinical practicum of 20 hours is included in which students assess, plan, and tutor individuals with severe reading disabilities. Prerequisite: EDU 516 and Education Committee Acceptance.
Leadership Course Descriptions

LDR 501 Introduction to Leadership and Organizational Theory (3) As offered
The purpose of this course is to equip students with the knowledge and skills necessary for successful leadership in public and private organizations. Students will study leadership and organizational theories with an emphasis on assessment of personal growth needs and enhancement of administrative skills including communications, decision-making, motivation, leadership styles, and team building.

LDR 502 Theories and Foundations in Leadership Studies (3) As offered

Students will develop a comprehensive philosophy of leadership which also evaluates their assumptions about the nature and knowledge of truth, God, humanity, good and evil, and society and their respective implications for leadership in a global society. Students will also develop a leadership improvement plan that examines their leadership strengths and challenges. Students will evaluate established classics in the leadership genre and various case-studies on leadership.

LDR 511 Organization and Administration in Higher Education (3) As offered
This course explores the organizational and administrative culture unique to institutions of higher education. Students evaluate the various facets and demands associated with campus life that allow for optimal student participation and completion rates and achievement at institutions of higher education. Prerequisites: EDU 527 and LDR 501.

LDR 521 Organizational and Institutional Theories (3) As offered
This course evaluates leadership in context of organizational and instructional environments. Students will develop an in depth understanding of organizational and institutional theory and practices recognizing the unique contribution of both fields in understanding formal and informal structures and rationale and irrational processes in any collective activity. Students will be equipped with multiple perspectives to strategically frame and leverage organizational and institutional policies and practices to promote ethical and desired outcomes. Prerequisite: LDR 501.

LDR 531 Group Dynamics and Staff Development (3) As offered
The course examines a variety of models and methods to foster collaborative learning communities and work environments and promote professional development. Students will study group processes, communication, cooperation, conflict management, negotiations, and social facilitation as means to create cultures of trust and high performing.

LDR 541 Knowledge Management and Decision Making (3) As offered
This course evaluates theories on the nature of knowledge, knowledge management and decision making. Students will evaluate common reasoning fallacies and biases that make for flawed decisions and develop more robust and creative decision making strategies and processes that meet the needs of the situation. Student will develop a comprehensive rubric of principles that allows for effective management of knowledge and decision making.
School of Education

LDR 550 Leadership Ethics, Virtues and Practices (3)  
This course evaluates various ethical frameworks and worldviews with an emphasis on the Christian worldview in order to promote ethical and virtuous leaders. Students will establish principles for practicing ethical judgments and habits for virtuous and ethical leadership practices. Students will develop a personal heuristic for developing virtues and making ethical decisions that address ethical and moral dilemmas and choices that confront those in leadership positions. Prerequisite: LDR 521.

LDR 551 CCCAOE Professional Training (3)  
This course equips students with logistical skills associated with leading career and technical education programs in California community colleges. Students will document 120 hours of learning activities completed in the CTE Dean Training hosted by the California Community College Association for Occupational Educators and complete a learning portfolio to be approved by the university instructor of record. Prerequisite: Acceptance into the Leadership and Adult Learning Specialization

LDR 560 Leading and Managing Complexity (3)  
This course evaluates systems and complexity theories and their respective implications for leadership. Students will explore the rules and patterns that govern all nonlinear and dynamic systems. Students will develop strategies and skills to successfully lead institutions and manage the complexity and chaos associated with leadership in complex environments. Prerequisite: LDR 521.

LDR 561 Leadership Tactics (3)  
The course equips students to successfully lead at the tactical level around issues associated with community college administration. Topics include, but are not limited to, managing CTE funding, legislation and regulations, union relations, projects, correspondences, and meetings.

LDR 570 Social Capital (3)  
This course examines the relationship between social capital and specific types of political and economic behavior from a comparative (local, regional, and global) perspective. More specifically, the course examines the impact of social capital on important policy outcomes, such as democracy building, economic development, and governmental performance.

LDR 589 Internship (3)  
Under the supervision of a faculty member and representative from the sponsoring organization, students will utilize the internship to develop and demonstrate the principles and skills introduced in the leadership studies course. Prerequisite: Declared Leadership and Organizational Studies specialization.

Science Course Descriptions

BIO 505 Ornithology: Birds in Flight and Flock (3)  
This course will introduce the student to the basic study of birds, including such topics as diversity, avian form and function, basic behavior and communication, environmental impact and dynamics, avian life histories, and population conservation. Students will increase their understanding and appreciation for bird design and adaptation and the role birds play in our world. Prerequisite: nine units of college level science.

BIO 510 Insects and Their Impact in California (3)  
An introduction to insect classification, biology, and morphology. This course provides the necessary background for advanced courses in entomology and structural pest control. Laboratory work consists of learning major anatomical structure of insects, and training in insect identification and collection. Prerequisite: nine units of college level science.

BIO 515 Environments and Conservation Biology (3)  
Conservation biology is the science of preserving biodiversity and sustaining the earth. This is an interdisciplinary, introductory course that examines the human impact on biodiversity and the earth. The course synthesizes the fields of ecology, evolution, genetics, philosophy, economics, sociology, and political science, with emphasis on the development of strategies for preserving populations, species, biological communities, and entire ecosystems. Prerequisite: nine units of college level science.

SCI 505 Current Topics in Marine Science (3)  
This course is designed to expose graduate students to contemporary developments and discoveries in marine science. The course will review six major sub-disciplines of marine science including: physical oceanography, marine geology, ocean engineering, biological oceanography, meteorological oceanography, and chemical oceanography. The course will also
cover contemporary topics related to the sub-disciplines indicated above. Students will conduct research, present findings, and prepare lesson plans on an approved topic. Prerequisite: nine units of college level science.

SCI 510  Forensic Science in the Classroom (3)  As offered
An integrated study of advanced science concepts as they apply to the area of forensic science with special attention to the study of forensic science in the K-12 classroom setting. Additional lab fee. Prerequisite: nine units of college level science.

SCI 515  Drugs and Man: Addictive and Therapeutic Chemicals (3)  As offered
This course will introduce the students to basic drug design, action and intervention, especially as related to the promotion of health and alleviation of disease. The course will consider recreational and therapeutic drug usage and effects on the human body. Orientation to the human body and basic functioning will accompany each topic, as well as disease processes indicating drug requirement. Prescription drug classification, function and uses will be introduced with emphasis on the impact medically prescribed drugs will have on the patient. Students will increase their understanding of drug use, abuse, and impact, as well as their understanding of diseases and treatments. Prerequisite: nine units of college level science.

SCI 520  Planetary Science (3)  As offered
An integrated investigation of Planetary Science, incorporating advanced science concepts from a variety of disciplines. Special attention will be given to the integration of Planetary Science into K-12 science subjects. This course requires field experiences which may incur additional costs. Prerequisite: nine units of college level science.

Graduate Program in Music
The Master of Music degree program is designed to develop candidates into professional conductors, teachers and performers. A unique graduate opportunity will include extended mentoring between the Dean, involved music faculty and the graduate music students. Additional, para-curricular activities will also be offered; i.e. conducting seminars, reading sessions, master classes. Through these para-curricular activities, relational skills on multiple levels are discussed, evaluated and experienced.
Admission Requirements

Master of Music Admission Requirements

Admission standards for Graduate Studies at California Baptist University can be found in the Admissions section of the University Catalog. Specific application requirements for the Graduate Program in Music are:

1. Grade Point Average
   • A minimum 3.0 GPA for unconditional admission and a minimum 2.75 GPA for conditional admission
   • Applicants with a GPA lower than 2.75 may be considered for admission with the presentation of a minimum combined score of 300 on the verbal and quantitative sections of the Graduate Record Exam (GRE).

Graduate Program in Nursing
The purpose of the graduate program leading to a Master of Science degree in Nursing (MSN) is to provide curriculum guiding the learner with the intention of broadening their theoretical knowledge base and/or to pursue future doctoral study. The nurse at the master’s level develops, tests, and evaluates concepts in nursing while critically examining ideas, research, and theories in relation to health issues and clinical practice in preparation for direct and indirect care both locally and globally.

The American Association of Colleges of Nursing Essentials of Master’s Education in Nursing guides the MSN coursework in order to prepare graduates for the advanced practice role. The MSN curriculum meets the accreditation standards of CCNE and includes four concentrations: Clinical Nurse Specialist Adult Gerontology, Family Nurse Practitioner, Healthcare Systems Management, and Teaching-Learning Nursing.
The Clinical Nurse Specialist Program will prepare the student for direct interaction with young adult, adult, and older adult patients to improve quality of life. Evidence-based strategies will be demonstrated as the student develops specialized expertise and skills to think critically and problem solve.

The Family Nurse Practitioner Program will provide students an overview of contemporary family structure and functioning from a theoretical perspective. This will prepare graduates to offer primary care on the local, state, national, and global level.

Students who select Healthcare Systems Management as their concentration area examine roles in nursing administration emphasizing clinical outcomes management, care environment management, and inter-professional collaboration.

Students who select Teaching-Learning as their concentration area analyze selected teaching and learning models that are applicable to nursing education, including course development, research, and instructional strategies with didactic and practicum teaching opportunities.

**Entry Level Master of Science in Nursing (EL MSN) Program**

The Entry Level MSN program is designed for candidates who hold a non-nursing baccalaureate degree who are interested in transitioning into the field of nursing and/or pursuing a doctoral degree. CBU’s Entry-Level Master of Science in Nursing (EL MSN) offers applicants the opportunity to become a licensed RN, and then complete post-licensure coursework to earn a Master of Science in Nursing (MSN).

EL MSN students complete 62 units of Board of Registered Nursing (BRN) approved pre-licensure nursing courses designed to prepare the students to take the National Council Licensure Examination NCLEX-RN. Once licensed and employed as a Registered Nurse, the student completes an additional 45-61 units of post-licensure coursework depending on their chosen concentration.

The 16 week semesters are comprised of courses which are scheduled in an accelerated full-time delivery mode for the pre-licensure theoretical and practicum content and a part-time delivery mode for the post-licensure portion of the program. Classroom theoretical and clinical courses match the BRN time allocation required and approved for all pre-licensure nursing students. Students are advised that the pre-licensure portion of the program represents a very intensive, full-time commitment for the students. The School of Nursing recommends students not work or entertain other commitments outside of this program during pre-licensure portion of the program.

**Master of Science in Nursing (MSN) Program**

This part-time, post-baccalaureate program is designed for working California licensed Registered Nurses who hold a baccalaureate nursing degree from a regionally accredited institution, who are seeking to broaden their theoretical, practice, and research knowledge base and/or doctoral study. The graduate student is eligible to apply for certification and/or credentialing after successful completion of MSN coursework in their chosen concentration, required clinical hours have been completed, and any other criteria (such as work experience) deemed necessary by the appropriate certification agency have been met.

**Post-Masters Credentialing**

California Licensed Registered Nurses who hold a Master of Science in Nursing degree from a regionally accredited institution may complete the concentration in Teaching-Learning Nursing and/or Healthcare Systems Management. The graduate student is eligible to apply for credentialing after successful completion of MSN coursework in their chosen concentration, required clinical hours have been completed, and any other criteria (such as work experience) deemed necessary by the appropriate certification agency have been met.

**Licensure and Advanced Practice Certification**

The graduate nursing programs offered by California Baptist University are Board of Registered Nursing (BRN) approved programs therefore requirements for licensure and certification are subject to change by the BRN at any time. The University and the School of Nursing reserve the right to modify the licensure or certification course requirements when directed to do so by the Board of Registered Nursing or other accrediting agencies. Since licensure, credentialing, and certification requirements are subject to change it is the student’s responsibility to contact the School of Nursing about current requirements.

*For each unit of clinical course credit, the student spends 3 clock hours per week for 16 weeks in the skills lab or clinical agency. The number of hours required is prescribed by the Board of Registered Nursing. For the first semester, practicum and classroom components of the courses are combined under one course number.

**Practicum units must be taken concurrent with corresponding classroom hours. In some cases, practicum hours will continue through the entire 16 weeks.

Nursing Course Descriptions
NUR 501 Theoretical Foundations/Ethics in Nursing (3)
This course provides an introduction to the paradigms, theories, concepts, and values of the discipline of nursing. The course provides an overview of the BSN program mission, philosophy, goals, objectives, and conceptual framework, as well as conceptual and essential component themes of the baccalaureate program in the California Baptist University School of Nursing. This course is designed to enhance understanding of the interest in nursing, and the roles of the professional nurse. Professional standards of nursing practice will be highlighted. An emphasis is placed on practice with communication/collaboration activities, the nurse-person relationship and a beginning understanding of the nurse’s presence and role in being with people as they live health and quality of life.

NUR 502 Fundamental Nursing Skills (4)
Prepares students to perform basic nursing skills based on mastery of core scientific principles. Two (2) hours/week theory; Six (6) hours/week skills lab.

NUR 512 Physical Assessment (4)
The course includes two (2) credit hours theory, two (2) credit hours/laboratory practicum and focuses on helping students acquire skills to conduct a comprehensive health assessment. The process of data collection, interpretation, documentation and dissemination of assessment data will be addressed. The practicum provides students with the opportunity to use interview, observation, percussion, palpation, inspection and auscultation in assessing clients across the lifespan in simulated and actual settings. Two (2) hours/week theory; Six (6) hours/week practicum.

NUR 515 Pathophysiology (3)
Emphasis on complementary knowledge development in life sciences, as they relate to global health. Understanding of basic pathophysiology including disease processes, prevention, clinical signs and symptoms, secondary effects and methods of treatment, will enable health professionals to collaborate and provide curative and rehabilitative services. Study of scientific principles assist in developing critical thinking and analytic methods of inquiry for nursing practice. This course builds upon the general principles of anatomy/physiology studied as a nursing prerequisite. Presentation of a pathophysiological problem through a research paper is required. The effects of psychosocial stimuli on disease will be discussed. A global approach to disease will be emphasized. Students are expected to look at vital statistics of disease and research results in a critical manner.

NUR 516 Pharmacology and Nutrition (3)
An introduction to the basic principles of pharmacology and nutrition with a focus on pharmacokinetics, pharmacodynamics, and therapeutic implications for major drug categories as well as natural products. Emphasis also on nutritional health promotion as well as therapeutic nutrition related to selected illness states. Pre-requisites: NUR 501, 502, 512, 515.

NUR 521 Adult Health I (4)
Introduction to theory-based nursing services with the young, middle and older adult. Focus is on the core knowledge acquisition and medical collaboration activities with health promotion/disease prevention, illness and disease management of common acute and chronic illnesses. Pre-requisites: NUR 501, 502, 512, 515.
NUR 522  Adult Health I Practicum, (3)
Application of nursing theory-based services for young, middle, and older adults. Acute and chronic issues of health integration and themes of collaboration/communication, critical thinking, teaching-learning, change-persistence and leading-following in nursing services are emphasized. Focus is on collaborative services with health promotion/disease prevention as well as the medical management of common acute and chronic illnesses in a variety of settings. Nine (9) hours/week practicum. Pre-requisites: NUR 501, 502, 512, 515.

NUR 523  Older Adult/Family Nursing (2)
This course focuses on the health-related issues of older adults. Major content areas include viewing the unique needs of elders from a nursing theoretical perspective. An interdisciplinary and collaborative healthcare provider approach will be given in the discussion of knowledge concerning physical, psychological, economic and social age related changes. The course will explore personal, cultural, societal attitudes toward aging for the purpose of an enhanced understanding from the elder’s perspective. Pre-requisites: NUR 501, 502, 512, 515.

NUR 524  Older Adult/Family Nursing Practicum (1)
This practicum course focuses on the application for nursing knowledge with elderly persons and families. Emphasis is given to the collaborative application of biological, social, behavioral disciplinary knowledge with the practice and role description of the professional nurse. Nursing services shall be provided in a variety of settings including the community, assisted living facilities, acute care facilities, rehabilitation centers, and long term care facilities. Three (3) hours/week in practicum setting. Pre-requisites: NUR 501, 502, 512, 515.

NUR 526  Mental Health Nursing (3)
Introduction to mental health nursing services and nurse-person and nurse-group communication patterns. Focus is on interdisciplinary collaboration, teaching-learning, and change-persistence patterns with health promotion/disease prevention, as well as the management of common and acute and chronic medical diagnosis of mental health issues with individuals, families, and communities. A nursing theoretical perspective under girding nursing practice shall be emphasized. Various nursing services and treatment modalities are explored. Nursing services with special populations including the homeless and issues regarding abuse, neglect, and substance abuse are explored. Pre-requisites: NUR 531, 533, 535, 537.

NUR 527  Mental Health Nursing Practicum (2)
Practicum learning experience of nursing services with persons who have the medical diagnosis of mental illness in both inpatient and community treatment settings. Focus is on the changing healthcare systems and collaborative health promotion/disease prevention, as well as the nurse-person, nurse-group, nurse-community patterns of relating, and management of common acute and chronic mental health problems with individuals and families. Six (6) hours/week practicum. Pre-requisites: NUR 531, 533, 535, 537.

NUR 530  Adult Health II (3)
Advanced study of theory and research-based nursing services of the young, middle and older adult. Focus is on the knowledge acquisition and management of complex acute and chronic illnesses and end of life processes. Pre-requisites: NUR 526, 527.

NUR 531  Nursing Services with the Childbearing Family (3)
Theoretical basis for professional nursing practice with childbearing families. Emphasis is on childbearing as a family experience, nurse-family processes, and changing health patterns with childbearing families. Nursing role, communication/collaboration activities and teaching-learning opportunities with health promotion, risk reduction, and disease prevention will be discussed. Prerequisites: NUR 516, 521, 522, 523, 524.

NUR 533  Nursing Services with the Childbearing Family Practicum (2)
Practicum focuses on the application of nursing theory and nurse-family processes in providing nursing services and collaborative activities in preventive, supportive and restorative services to members of the childbearing family. Six (6) hours/week practicum. Prerequisites: NUR 516, 521, 522, 523, 524.

NUR 535  Nursing Services with the Childrearing Family (3)
The study of nursing science with Childrearing families and health care issues commonly associated with children and adolescents. Nursing theory focuses on the meaning of health from the perspective of the Childrearing family members. The focus will be on theoretical knowledge acquisition, teaching-learning, change-persistence, and collaboration with other healthcare professionals in health promotion/disease prevention as well as the management of common acute and chronic illnesses in children and adolescents. Emphasis is on the child in the family and the nursing services provided as the family lives with health in many diverse settings. Prerequisites: NUR 516, 521, 522, 523, 524.
School of Nursing

NUR 536  
**Adult Health II Practicum (3)**  
Practicum course with focus on advanced application of theory and research-based nursing services for young, middle and older adults. Focus is on collaborative interdisciplinary management of complex adult health illnesses and situations in a variety of healthcare settings. Nine (9) hours/week practicum. Pre-requisites: NUR 526, 527.

NUR 537  
**Nursing Services with the Childrearing Family Practicum (2)**  
Practicum application of nursing theory and research-based nursing services of children and adolescents. Focus is on changing health, teaching-learning and collaborative nursing activities with promotion/disease prevention, as well as the management of common acute and chronic illnesses in a variety of healthcare settings. Six (6 hours/week practicum). Prerequisites: NUR 516, 521, 522, 523, 524.

NUR 538  
**Community/Public Health Nursing (3)**  
The course focuses on a theoretical understanding of nursing concepts which are utilized in nurse-community processes while providing nursing services to individuals, families, communities, and aggregates of populations. The student will explore the role of the community health/public health nurse as an interdisciplinary collaborator with other members of the healthcare team. Changing healthcare systems and policies from a global perspective will be explored. Pre-requisites: NUR 526, 527.

NUR 539  
**Community/Public Health Nursing Practicum (3)**  
Practicum experience in community/public health nursing focusing on collaborative policy development, change, teaching-learning processes, the role, application of public health principles and nursing processes in the provision of nursing services with individuals/families and populations in a variety of community-based settings. Pre-requisites: NUR 526, 527.

NUR 541  
**Christian Leadership in Nursing/Case Management (3)**  
Concepts of management, leadership and followership, change-persistence and organizational structure as frameworks for managing policy development and delivery of nursing care to groups of clients in an acute care setting. The transition from student role to professional nursing role as provider, coordinator, and designer is emphasized. Pre-requisites: NUR 530, 536, 538, 539.

NUR 543  
**Christian Leadership in Nursing/Case Management Practicum (2)**  
Practicum hours are to equal hours 6 hours per week for the 15 weeks semester (90 hours total for the semester). This experience emphasizes the student experience of observing and assuming the role of nurse leader/manager. Implications for nursing theory-driven practice, teaching-learning processes, change-persistence, and collaboration with other healthcare providers shall be emphasized. Six (6) hours/week practicum. Preceptors are selected and assigned to students by the course coordinator and/or nursing faculty. Pre-requisites: NUR 530, 536, 538, 539.

NUR 546  
**Capstone Practicum (3)**  
This practicum senior level course focuses on the roles and responsibilities of a new graduate professional nurse. The course provides an opportunity for the student to further develop leadership and practice nursing skills necessary for the beginning practitioner role. It also facilitates synthesis of the nursing knowledge and skills acquired in previous program courses in the provision of nursing care to individuals, families, and aggregates. Faculty in collaboration with the nursing administrators in health care agencies identify agency nurses who will assist students to achieve course/individual objectives in the agency. A nursing clinical faculty member and the selected agency nurse, i.e., Clinical Faculty, who is matched with the student assist the student to develop a Personal Objective Plan. The Plan is a set of individualized specific measurable objectives, which guide the student’s clinical learning experience while meeting course objectives. The Clinical Faculty, the student and Campus Faculty form a three person team which facilitates the implementation of the student’s plan. Nine (9) hours/week practicum. Pre-requisites: NUR 530, 536, 538, 539.

NUR 547  
**Bioethics and Faith Integration (3)**  
This course will prepare students for a complete examination of ethical theory, patient centered relationships, informed consent, professional responsibility, end-of-life care, reproductive issues, human experimentation, genetics/genomics, and allocation of medical resources from a cultural/global perspective. This will be done using a Christian worldview as students identify their own spirituality and faith journey through Biblical teachings. Lecture: 3 units.

NUR 548  
**Leadership and Bioethics (3)**  
The student will evaluate leadership styles (such as organizing, delegating, collaborating) and learn ways to apply healthcare leadership principles to provide culturally appropriate, high-quality nursing care. This course will also prepare students for a complete examination of ethical theory, patient centered relationships, informed consent, professional responsibility, end-of-life care, reproductive issues, human experimentation, genetics/genomics, and allocation of medical resources from a cultural/global perspective. Lecture: 3 units.

NUR 549  
**NCLEX Review (0)**  
This NCLEX review course shall be scheduled by the School of Nursing for all graduating senior nursing students. Pre-requisites: NUR 530, 536, 538, 539. Students must pass the course to meet graduation requirement.
NUR 550  Nursing Theoretical Perspectives and Faith Integration (3 units)
In this course the student examines the use of nursing theory and faith integration as a guide for the art and practice of
nursing at a Master's level. Student and faculty coinvestigate the relationship between concepts of nursing theory and
philosophical foundations of understanding as a guide for nursing practice, research, and education. Students select a
nursing theory which will guide advanced practice nursing based on a personal philosophy and examine a phenomenon
for later research development from a nursing theoretical perspective. This will be done using a Christian worldview as
students identify their own spirituality and faith journey through Biblical teachings. Lecture: 3 units.

NUR 551  Assessment and Health Promotion for Populations (4)
This course will prepare the student for population health risk assessment based on environmental, genetic, economic,
social, and behavioral determinants of health within their spheres of influence. Evidence based population health risk
policy analysis and cost effective population health risk management decisions will be included. Emphasis will be placed
on evaluation of health disparities, barriers, cultural competencies, and use of resources in organizational systems. Risk
assessment, health literacy, health education & counseling will be emphasized. Methods will be introduced regarding
collaboration, communication, and innovative ways to structure and redesign processes and outcomes necessary to
transform care delivery. Weekly practicum facilitates refinement of aggregate assessment. Lecture: 3 units; Clinical: 1 unit.

NUR 552  Assessment and Health Promotion for Education (4)
This course prepares the student for comprehensive, holistic wellness, and illness advanced assessment across the life
span. Emphasis will be placed on evidence based teaching strategies appropriate to learner needs related to risk and
functional assessment within the context of diverse populations in the promotion of health and prevention of disease.
Risk assessment, health literacy, health education & counseling will be emphasized. Content will also include cognitive,
psychomotor, and affective learning methods appropriate for critical thinking, collaboration, communication, and client
teaching. Weekly practicum facilitates refinement of competent advanced assessment skills and documentation. Lecture:
3 units; Clinical: 1 unit.

NUR 553  Assessment and Health Promotion for Clinical Nurse Specialist (4)
This course prepares the student for comprehensive, holistic wellness, and illness assessments across the life span.
Complexities, variations, and differences from expected health patterns and parameters, including contextual perspectives,
cultural-ethnic influences and risk factor identification will be discussed. Risk assessment, health literacy, health education
& counseling will be emphasized. Students will utilize national guidelines to direct screening and diagnosis as they assess
the impact of interaction among the individual, family, community, environment, and social systems. Emphasis will be
placed on synthesis of assessment data, advanced knowledge, critical thinking, and clinical judgment to formulate
differential diagnoses for clinical problems amenable to CNS intervention. Weekly practicum facilitates refinement of
competent advanced assessment skills and documentation. Lecture: 3 units; Clinical: 1 unit.

NUR 554  Management of Clinical Pharmacology (3)
This course is designed to provide the student with advanced knowledge of pharmacological agents and herbal therapies used
across the life span. Emphasis is on the pharmacodynamics of patients with common, acute, and chronic health problems
in various stages of the life cycle in diverse populations. Content will include pharmacokinetics, pharmacodynamics,
pharmacoeconomics and pharmacotherapeutics related to leadership and improving quality and safety of healthcare
delivery. Lecture: 3 units.

NUR 555  Advanced Pathophysiology (3)
This course examines complex physiologic biomedical cellular processes essential to an understanding of disease and
disease management concepts are explored in relation to body systems. Age specific alterations are correlated with clinical
and medical diagnostic findings to provide the student with a basis for biomedical clinical decision-making, diagnostic
reasoning and pharmaco therapeutics.

NUR 556  Teaching-Learning Pharmacology (3)
This course is designed to provide the student with advanced knowledge of pharmacological agents and herbal therapies used
across the life span. Emphasis is on the pharmacodynamics of patients with common, acute, and chronic health problems
in various stages of the life cycle in diverse populations. Content will include pharmacokinetics, pharmacodynamics,
pharmacoeconomics and pharmacotherapeutics with an emphasis on the legal and ethical issues related teaching-learning
for various prescribed pharmacologic agents. Lecture: 3 units.

NUR 557  Pharmacology for Clinical Nurse Specialist (3)
This course is designed to provide the student with advanced knowledge of pharmacological agents, herbal therapies,
drug-drug, and drug-food interactions across the life span. Emphasis will be placed on evidence based research as a
foundation for executing selected delegated medical regimens associated with the diagnosis and treatment of patients with
common, acute, and chronic health problems in various stages of the life cycle in diverse populations. Content will include
pharmacokinetics, pharmacodynamics, pharmacoeconomics and pharmacotherapeutics. Lecture: 3 units.
NUR 558 Pharmacology for the Nurse Practitioner (3)
This course is designed to provide the advanced practice nurse with competencies necessary to work with healthcare professionals, patients, and communities to improve primary healthcare in a cost-effective manner. The content will include principles regarding pharmacokinetics, pharmacodynamics, pharmacoeconomics and pharmacotherapeutics of selected classifications of medications. Characteristics such as age, ethnicity, culture, and gender will be evaluated as well as the genetic and genomics factors when considering medication regimens. Current national guidelines will be integrated with legal and ethical principles for advanced practice nurses providing primary care. Lecture: 3 units.

NUR 559 Nursing Research and Evidence Based Practice I (3)
This course prepares the student to apply research outcomes within the practice setting to resolve practice problems, work as a change agent, and disseminate the results of research. Uses analysis of outcomes from evidence-based research of clinical prevention and population care to improve health of and services for individuals, families, and aggregates/identified populations. This course provides an opportunity to examine the generation of evidence for practice focusing on research evidence within a nursing theoretical perspective. The role of evidence for practice and evidence hierarchies are reviewed. An overview of the methods of scholarly inquiry are presented including quantitative, qualitative, mixed-methods, participative, and evaluation research designs. The emphasis is on the translation and evidence-based practice decision making in the identification of phenomenon in the practice setting, evaluation of practice problems, and assessment of practice outcomes. Lecture: 3 units.

NUR 560 Assessment and Health Promotion for Family Nurse Practitioner (4)
This course provides the theoretical science base for multidimensional health and advanced physical assessment of individuals across the life span with emphasis on the adult. Complexities, variations and differences from expected health patterns and parameters, including contextual perspectives, cultural-ethnic influences and risk factor identification will be discussed. Advanced assessment skill development including analysis and comprehensive synthesis of accurate subjective and objective data to identify health-related problems, form working data bases, broaden diagnostic skills, and develop management plans for application to the advanced practice nurse role will be emphasized. Application of critical thinking and clinical decision-making are incorporated with each system and problem-oriented issue. Essential nurse-person implications for the promotion of health will be incorporated throughout. Weekly laboratory practicum facilitates refinement of competent advanced assessment skills and documentation. Lecture: 2 units; Clinical: 2 units.

NUR 561 Applied Biostatistics and Epidemiology for Nursing Practice (3)
This course will enable the student to use descriptive and analytic approaches to examine the distribution of disease in populations, relative risk, and cultural factors. Students will compare and contrast methods used in collection, analysis, and interpretation of quantitative data in disease prevention and health promotion for specific populations. Students will evaluate evidence based literature related to statistical analysis to determine whether a published study has reliable results which can be used in translating evidence to practice. Lecture: 3 units.

NUR 562 Health Policy and Bioethics (3)
This course examines the impact of health policy on care environment management of the local and global health service system. Legal regulations and standards, ethics, accountability, use of technology and resource management, and social justice is emphasized. The role of systems analyst and risk anticipator will be reviewed as students conduct a microsystem analysis to critically evaluate and anticipate risks to client safety to improve quality of client care delivered. This course will prepare students for a complete examination of ethical theory, patient centered relationships, informed consent, professional responsibility, end-of-life care, reproductive issues, human experimentation, genetics/genomics, and allocation of medical resources from a cultural/global perspective. Lecture: 3 units.

NUR 565 Leadership and Advanced Nursing Roles (3)
This course will prepare students to promote high quality and safe patient care through exploration of nursing leadership principles and advanced nursing roles. Leadership skills that emphasize ethical and critical decision making, effective working relationships, and a systems-perspective are explored. Concepts of horizontal leadership, effective use of self, advocacy, and lateral integration of care are explored. The student will examine the role of the master’s-prepared nurse as a member and leader of the interprofessional team, who communicates, collaborates, and consults with other health care providers. Critical concepts in the abnormal nursing services of selected adult populations are studied from a nursing theoretical perspective. Evidence-based nursing is practiced within a specialty that leads to competencies to (a) expand the boundaries of nursing practice by focusing on the complimentary biomedical knowledge base of illness and disease management, (b) advance the practice of other nurses and nursing personnel, and (c) envision organizational/system processes which support patient-focused nursing services and enhance the practice of nursing. Client populations may be selected from healthcare.
NUR 566  Acute and Chronic Illness of the Adult and Older Adult I (4)
This course will prepare the student for direct interaction with Young Adult, Adult, and Older Adult patients to improve quality of life. Evidence based strategies will be demonstrated as the student develops specialized expertise and skills to think critically and problem solve. Students will utilize Systems and Change Theory to improve patient outcomes. Interprofessional collaboration education will be emphasized and the student will apply the competencies necessary to come alongside the patient as they navigate the healthcare system. Prerequisites: NUR 550, 553, 555, 559, 561, 562, 565, 578. Concurrent requisite: NUR 557. Lecture: 2 units; Clinical: 2 units.

NUR 567  Acute and Chronic Illness of the Adult and Older Adult II (4)
This course continues to prepare the student for direct interaction with Young Adult, Adult, and Older Adult patients to improve quality of life. Evidence based strategies will be expected as the student interprets and uses the evidence in the practice setting to decrease risk and implement improvement initiatives. Interprofessional collaboration education will continue and the student will establish collaborative relationships in order to enhance patient outcomes. Prerequisite: NUR 566. Lecture: 2 units; Clinical: 2 units.

NUR 568  Acute and Chronic Illness of the Adult and Older Adult III (4)
This course continues to prepare the student for direct interaction with patients to identify and articulate ethical concerns at both public and private levels. Students will continue to be an advocate for quality improvement projects and safety measures. Interprofessional collaboration education will continue as the student becomes a team leader and advocate for effective communication strategies while focusing on the Young Adult, Adult, and Older Adult population. Prerequisite: NUR 567. Lecture: 2 units; Clinical: 2 units.

NUR 570  Nursing Research and Evidenced Based Practice II (3)
This course builds on the foundation of nursing research presented in part I culminating in a research proposal. The research-based proposal provides an opportunity for scholarly inquiry and the ethical translation of current evidence into practice. The project should have relevance for practice and make a contribution to the discipline of nursing. Students complete national certification in human research participants protection, construct an integrative review of research literature, and compose a research translation proposal congruent with a nursing theoretical perspective for the purposes of utilizing new evidence to improve or enhance nursing practice. Prerequisite: NUR 559. Lecture: 3 units.

NUR 571  Family Primary Health Care I (6)
This course will provide an overview of family health theories related to primary care and the theoretical foundations of women’s healthcare during the reproductive years. An overview of conceptual frameworks related to contemporary family structure and functioning, with particular emphasis on health and the family model ofParse’s humanbecoming school of thought will be explored. Business Administration Course Descriptions

BUS 505  Entrepreneurial Management (3)
This course introduces new enterprise formation and management from the perspective of the advanced-level manager. Some practical issues that are covered in detail include: market planning, business plan preparation, effective team building, and capital acquisition. The course also surveys the innovation-oriented department or strategic business unit of an ongoing and larger business, and offers an examination of the factors that enable an entire unit of a large organization to become more creative and dynamic.

BUS 512  Management Information Systems (3)
This course will build a basic understanding of the value and uses of information systems for business operation, management decision making, and strategic advantage. Thus, it will provide students with an understanding of the ways in which they can utilize information systems as end user managers. It concentrates on providing the tools needed for mastery of the information systems concepts and terms that are important to end user managers. This course is designed for business students who are not information systems majors, but who expect to be managerial end users on information systems.

BUS 515  Organizational Behavior and Leadership (3)
This course focuses on the relationships of individuals and groups within the organizational framework as it involves the nature, performance, and structure of organizational life. The course examines principles and methods in organizational behavior with special emphasis on integrating the Bible.

BUS 520  Managerial Ethics (3)
This course covers ethical reasoning as it applies to business situations. Specific topics include corporate social responsibility, bribery, affirmative action, cultural diversity, dispute resolution, consumer protection, employee rights, deception, advertising ethics, product safety, environment protection, and economic justice. The course develops an awareness of and appreciation for cultural diversity in the workplace. Prerequisite: BUS 358 Business Law or equivalent.

BUS 525  Legal Issues for Management (3)
This course identifies the major areas of past and present government regulations impacting business. The emphasis is on the highly relevant legal mandates and restrictions affecting managers in all business sectors. Prerequisite: BUS 358 or equivalent.
Online and Professional Studies

BUS 530 Marketing Management (3)
The course curriculum offers formulation and implementation of effective, efficient, and ethical long-term and current plans for market development. This course introduces the substantive and procedural aspects of marketing, sharpens skills for critical analytical thinking, and promotes effective communication.

BUS 535 Economic Issues & Analysis for the Changing Business Environment (3)
This course surveys the many factors and considerations that pertain to the role of the individual firm in the free enterprise and market system. The survey includes techniques for analyzing industries, price elasticity, as well as business and economic cycles as follows: movements of interest rates, GNP growth, and economic indicators. Prerequisite: BUS 217 or 218.

BUS 539 Financial Management (3)
The course focuses on the application and development of management decision making and problem solving skills in the financial area. Specific topics of discussion include financial statement analysis, credit and operational risk, financial planning and budgeting, asset valuation, cash flow analysis and capital budgeting, and firm valuation from a value-based management and corporate governance perspective. Prerequisite: ACC 250 and 251.

BUS 542 Quantitative Business Modeling (3)
This course focuses in business computer applications for the manager. Computer models will be created to aid in forecasting, budgeting, and other decision-making processes. The emphasis will be placed on pro-forma financial statements as well as cash flow analysis. Prerequisite: Basic knowledge of Microsoft Excel.

BUS 545 Global Business Management (3)
This course focuses upon perspectives such as cultural, political, legal, and organizational issues in global business. The student considers the strategy of international diversification, management of multinational enterprises, international economic relations, comparative national systems and global economy.

BUS 598 Business Simulation Capstone (6)
The Business Simulation Capstone is a course designed for students to demonstrate they can effectively integrate and apply the knowledge and skills gained from completing the MBA curriculum. It is to be taken in the student's final semester of the MBA program. It is also designed for students to fully develop “real-world” decision-making, strategy formulation, and problem-solving skills. The course is based upon a computerized business which teams of students operate and manage in competition against each other teams. In an ethical manner, teams analyze the economic conditions of the simulated environment, insure smooth production, use accounting data to evaluate results and make decisions, adequately finance operations, determine research and development targets, manage employees and the team, and respond to the competition. Pre- or Co-requisite: BUS 539.

DISABILITY STUDIES

Graduate Program in Disability Studies
The Master of Arts in Disability Studies at California Baptist University is a distance learning degree program designed to develop expertise in human differences. Beyond preparing professionals to lead, establish and shape disability programs, ministries and policies, the Disability Studies program prepares graduates to challenge and change the way society and organizations relate to people with disabilities.

Students have the opportunity to pursue a concentration in two distinct areas of the field:

• The Disability Ministry Concentration recognizes and responds to the growing presence of people with disabilities within the church. Students in this concentration complete specialized coursework that prepares them to establish, build and lead disability ministries within a congregational setting. Graduates will be agents for change within the Christian church around the world.

• The Disability Policy Concentration is designed for professionals interested in shaping policies that impact persons with disabilities. Specialized coursework prepares students to take a proactive role in defining and enacting policies at the government, corporate, or organizational level that reflect and recognize the needs and value of people with disabilities. As policy shapers and makers, graduates are ideally positioned to become agents of positive change within their organization and beyond.

The Disability Studies program offers a highly reflective curriculum that challenges students to reexamine, reevaluate, and redefine perceptions of what it means to be disabled—as well as what it means to be human. Practicum components within coursework enable candidates to gain valuable hands-on experience, working with and for people with disabilities in a setting of their choice that best reflects their professional goals. Interdisciplinary courses illuminate the intersections between a broad range of academic fields—health, education, sociology, law, politics, philosophy, and theology—as they apply to persons with disabilities. Combining theory, evaluation, and experiential learning, the M.A. in Disability Studies prepares leaders and thinkers to challenge and change the way communities, organizations, government agencies, and religious institutions interact and engage with people experiencing disabilities.

EDUCATION

Graduate Programs in Education
The graduate programs in education are designed to equip individuals with the skills, techniques and qualities of leadership required for professional excellence as classroom teachers, instructional leaders, curriculum developers, and administrators. The programs provide a purposeful balance between theory, practice, and research. Graduates will be prepared to identify their strengths and make choices regarding their future role in the profession. Knowledge of human growth and development, theories of learning, rationales for curriculum design and research methods will be blended to provide the appropriate preparation to allow these choices.

Education Course Descriptions

ECH 530 School, Family, and Community Partnerships (3)
This course will examine family, community, societal, and cultural influences on children’s schooling and learning and explore ways to create partnerships to support families and children. Emphasis is on the development of strategies for integrating family members and community resources into the learning process and addressing and overcoming barriers to partnerships.

ECH 535 Leadership and Supervision In Early Childhood Settings (3)
This course will explore the early childhood administrator’s role in staff development and human relations, including recruitment, hiring, retaining, training, supporting and evaluation of personnel. This course will examine the importance of developing a program philosophy as well as the multi-level functions of supervision with an emphasis on understanding teacher development and reflective practice.

ECH 540 Early Childhood Literacy and Language Development (3)
This course will review significant research and theory regarding language acquisition and literacy skills in the early childhood period. Current instructional and assessment strategies for early literacy and language development in young children, including the bilingual child, will be explored. Techniques for involving and educating families will be investigated.

ECH 545 Advanced Studies in Early Childhood Development (3)
This course reviews theory and critical research relating to prenatal development through age eight. Classic theory and current literature concerning development in physical, cognitive, language, social, and emotional domains will be examined. Students will analyze connections between critical theories, research, and best practices in early childhood programs.
ECH 550  Early Childhood Program Development and Evaluation (3)
The course will examine the process of program development, evaluation, and improvement in the early childhood setting with a focus on industry standards and best practice. Students will be introduced to measurement tools such as the Environment Rating Scales (ECERS), NAEYC Accreditation criteria, and the Program Administrators Scale (PAS). Students will utilize common assessments to develop action plans, and integrate their knowledge and understanding of program development and evaluation by creating a proposal for an early childhood program.

EDL 530  Introduction to Educational Leadership (3)
This course equips students to lead from multiple theories and establish best practices in educational leadership and introduces students to the ethical, legal, fiscal and administrative knowledge and skills required for effective school leadership.

EDL 534  Program Evaluation and Development (3)
This course equips students with the knowledge and skills to lead comprehensive curricular program improvement. Students will develop strategies and techniques that use data to identify and assess areas for instructional improvement, design and implement plans to improve instruction for all students and develop systems for ongoing program improvement.

EDL 556  School Law and Finance (3)
This course equips students with the necessary knowledge of the laws and finance affecting students and schools and skills for implementing the law and developing and managing the school budget. Attention is given to role of the school administrator as a leader and manager of legal, financial, physical and human resources and obligations.

EDL 558  Governance, Policy and Community Relations (3)
This course equips candidates with the knowledge and skills that build productive relationships with various school constituents and mobilize necessary resources for all students to achieve. Candidates examine the relationships between national, state, and local political systems and the governance of public school systems and learn strategies for developing a school-community relations program.

EDL 560  School Site Leadership and Organizational Development (3)
This capstone course requires that candidates demonstrate mastery of the knowledge and skills required of ethical school site leaders. In addition, candidates integrate and synthesize knowledge and skills from previous courses in the administrative program into a coherent and comprehensive model to refine and guide their leadership practices.

EDU 501  Leadership, Worldviews and Contemporary Issues (3)
Students will evaluate a range of contemporary issues related to education from different leadership and worldview perspectives and develop a worldview and leadership philosophy. Students are equipped with a foundational understanding of worldviews and leadership so as to be informed catalysts for change in education environments.

EDU 521  Theories of Learning and Teaching (3)
Examination of principles of teaching that can be derived from psychological theories and research, including behavioral, cognitive, and social theories.

EDU 522  Curriculum Theory and Development (3)
This course is an overview of curriculum from the societal level to the classroom level and the experiences of the learner. Provides opportunity to explore development of the school curricula, K-12; to examine philosophical bases for curriculum development; and to investigate procedures for organizing the curriculum for effective learning.

EDU 525  Survey of Educational Research (3)
An introduction to research methods in education. Provides opportunity to develop skill in interpreting research literature; to become acquainted with sources of research literature; to develop an understanding of the methodology of educational research; and to become a critical reader of research reports. An emphasis on the teacher as researcher will provide a basis for assignments.

EDU 526  Applied Educational Research (3)
This course introduces the variety of the most common research design methods that are effective and appropriate for use in the educational setting to assess program effectiveness, student learning, intervention efficacy and the analysis of data. Candidates will develop skill in interpreting research literature; becoming acquainted with sources of research literature; developing an understanding of the methodology of educational research; becoming a critical reader of research reports; and gaining a basic knowledge of statistics. An emphasis on the teacher as a researcher will provide a basis for assignments. Students will design, research, and complete an action research project as the culminating assignment for EDU 526L, the accompanying lab course. This project may be a continuation of action research begun in EDU 524/524L. Prerequisite: Declared Educational Leadership for Public Institutions Specialization or Teaching and Learning Specialization.
**Online and Professional Studies**

**EDU 534**  
**International and Comparative Education (3)**
This course examines K-12 educational systems in the global society. Students will compare schooling in various societies and examine the history of their respective educational systems and how the systems were organized to meet the political, social and economic agenda of the 21st century. By examining different approaches to common problems, students will have a broad foundation upon which they can analyze and evaluate different strategies for problem solving educational issues. Students will develop their personal worldview of international education based on a Judeo-Christian worldview.

**EDU 541**  
**The Exceptional Child (3)**
The nature, determinants, adjustments, and problems of persons who have cognitive gifts and talents, cognitive delays, physical disabilities, learning disabilities, and who have emotional or behavior disorders will be studied in conjunction with appropriate educational interventions in the mainstream classroom and other settings. The course will acquaint students with (a) characteristics and needs of children with disabilities that affect learning, (b) methods of assessing disabilities, (c) components of the Individual Education Program (IEP), (d) instructional strategies and materials including those appropriate for English language learners, (e) positive behavior support, (f) special needs of families of learners with disabilities, (g) agencies and professional supporting learners with disabilities, and (h) legislation, including Public Law 94-142, IDEA (Part B and Part H), the American Disabilities Act (ADA), and the Rehabilitation Act of 1973 (“Section 504”), as well as subsequent amendments relevant to special education. Ten hours of fieldwork is required. A certificate of clearance is required prior to engaging in fieldwork. Approved by the California Commission on Teacher Credentialing to meet requirements for the credential.

**EDU 544**  
**Personnel Leadership and Development (3)**
This course equips candidates with the knowledge and skills for attracting, selecting, developing, evaluating and retaining quality and competent faculty and staff. Students also develop competencies in managing employee problems and due process. Prerequisite EDL 530 and Declared Educational Leadership for Public Institutions Specialization.

**OTL 510**  
**Online Instructional Design (3)**
Explores the theories, models, approaches, technologies, and methods of online teaching and adult learning. Provides a foundation to consider roles and characteristics of the online teacher and learner for those teaching adults in higher education, business, or government settings. Students apply principles of universal design for learning, complete a course design worksheet including learning goals, activities, and direct, authentic, and embedded assessments.

**OTL 520**  
**Methods for Online Teaching (3)**
Examines the theoretical and practical implications of various asynchronous and synchronous tools and their impact on teaching and learning through research and hands-on experience. Students demonstrate understanding of adult learning, appropriate pedagogy, and use of web 2.0 tools to promote student engagement and active learning in designing online lessons.

**OTL 530**  
**Building the Online Community (3)**
Examines theoretical and practical aspects of communication and collaboration and their impact on the formation of online learning communities for those teaching adults in higher education, business, or government settings. Students analyze effective ways to build community across distance as well as how to establish telepresence and social presence. They demonstrate the ability to use multiple communication tools, including free Web 2.0 resources.

**OTL 540**  
**Assessment and Evaluation of Online Learning (3)**
Explores a variety of online assessment and evaluation options with an emphasis on continual assessment and evaluation to improve teaching and learning. Students use multiple formative and summative measures to design an assessment plan for online learning using an assessment framework to align assessment with learning outcomes and learning activities.

**OTL 570**  
**Practicum in Online Teaching and Learning (3)**
This course requires practical on-the-job experience working with learners and content experts in an approved computing or technology facility, online classroom, corporate training facility or similar setting. Practicum students will apply competencies such as teaching online, planning and assessing instruction, consulting, researching, and establishing and participating in an online learning community.

Public Administration Course Descriptions

MPA 510 History and Theory of Public Administration (3)
This course traces the historical development of the intellectual and theoretical foundations of modern public administration beginning with Woodrow Wilson’s essay concerning the politics administration dichotomy through the multitude of more modern theories. It includes an overview of the responsibilities of public administration professionals within a democratic society, a description of the history and development of the field of public administration, and an introduction to ethical issues faced by public administrators.

MPA 520 Leadership and Management (3)
This course is designed to create a deeper understanding of leadership at the cognitive, experiential, and implementation level. Students will integrate and apply theoretical concepts, improve collaborative management skills, and explore their individual philosophies of leadership.

MPA 530 Public Finance and Budgeting (3)
This course analyzes theories and strategies of resource allocation as a basis for managing revenues and debt in government. It focuses on budgeting as a tool for controlling both operations and policy at all levels of government. Students will gain knowledge of the role of government in a market economy, how local, state and federal governments raise the money they spend, and why expenditures are channeled toward certain critical areas in the economy under conditions of market failure.

MPA 540 Public Personnel Management (3)
This course provides a solid groundwork for the study of labor-management negotiations grounded in theory by analyzing and describing the nature and extent of labor-management negotiations, the suspected causes of conflict, and the internal and environmental influences on these changes. It covers what most experts believe are the critical issues in labor-management negotiations and collective bargaining in the public sector and analyzes crucial policy issues.

MPA 550 Information Technology (3)
This is a graduate-level course introducing policy and management issues in information technology. Topics center on the prerequisites to successful implementation of government information technology initiatives, and also on organizational and social impacts of these initiatives.

MPA 560 Statistical Analysis for Public Administrators (3)
This course provides an introduction to statistical analysis and its application to research and decision-making for public administrators. The emphasis is on the collection and analysis of quantitative data using PASW and Excel. Topics include descriptive statistics, probability concepts, confidence intervals, data collection, and data analysis - including parametric and nonparametric data analysis using PASW and Excel.

MPA 570 Public Policy Analysis (3)
This course examines the activities of government and the consequences of these actions. Through the application of analytical techniques, the student will gain an understanding of the nature of public policy and various ways in which it may be approached.

MPA 580 Legal and Ethical Issues (3)
This course examines the basic legal and ethical concepts and challenges facing public administrators. The lectures, readings, and class discussions will be used to identify principles that might guide legal and ethical choices, and to show the practical impacts of these principles.

MPA 585 Political Economy (3)
This course examines the interrelationship of political and economic factors that influence both public political and economic outcomes. Key means of analysis will include application of micro- and macro-economic theories to obtain better understandings of political and administrative decision-making processes.

MPA 590 Organizational Theory (3)
This course is a graduate level introduction to organizational theory. Students will explore the structure and function of public and nonprofit organizations and the behavior of people in them. Exposure to a variety of major theories and perspectives as well as a review of recent research in the discipline will be discussed.

MPA 593 Professional Presentation (3)
This course examines and prepares students for professional presentation skills within an organization. This course provides students with effective ways of integrating technology, data, narrative information and persuasive oral presentation skills. Practical application and demonstration of skills will be required.
MPA 594  Comprehensive Examination Seminar (3)
This course introduces students to the concepts, approaches and methods of completing a comprehensive exam. Focus will be placed on proper scholarly examination writing techniques as well as a comprehensive review of public administration coursework themes, theories, best practices and applications. Pass/Fail.

MPA 597  Research Project (3)
Students will be engaged in a faculty supervised and approved project that is contoured to their particular career objectives. The format is flexible but should result in a major paper of approximately fifty pages in length. Pass/Fail

MPA 598A  Research Thesis (2)
This course is a guided development of a research thesis. This course may be repeated once for credit. Students cannot take MPA 598A until their final semester of coursework. Pass/Fail. Prerequisite: Program Director Approval

MPA 598B  Research Thesis Continuation (1)
This course is a continuation of the research thesis and may be repeated once for credit. Pass/Fail. Prerequisite: MPA 598A
